C. R. Wadsworth has moved into the Maine property.

Rumors are heard of new business enterprises in the town. As nothing definite is yet known we will await developments.

H. T. Merriam brought in a nice sample of popcorn last Saturday. He says it pays better to raise such crops than to raise wheat or corn.

A BARGAIN—On account of sickness I will sell the Harrison House at a bargain. E. ROHWER, Harrison, Neb.

School will begin one week from Monday, September 12th. W. H. Davis has been engaged to teach the higher department, but no primary teacher has been selected.

Leopold DeBock was in town Monday and was looking unusually happy. The cause of the broad smile was the arrival of an 11-pound boy at his home early last Saturday morning.

On last Friday we saw the first apples growing in Sioux county that we have ever had an opportunity to see on the tree here. It was at the home of J. E. Wallace, and although the tree was young it was proving that fruit will do well in this locality.

The first of the harvest excursionists are expected to arrive today and quite a number are looked for within the next few days, the largest number, however, is likely to come on the excursion which will start from the east on September 27th, as the farmers will be less rushed with work at that date.

It is pleasing to note the fact that the stock growers are either getting thoroughbred stock or grading up what they have. J. W. Earnest recently got a nice bunch of Gallaways, B. E. Brewster has Herefords, J. H. Cook has both red and black polled cattle, M. Gayhart has the red polls and H. H. Russell has the shorthorns. There are others in the county who are doing equally well but we cannot call them to mind.

The material for the state fair exhibit left last evening and those who will have charge of it will go this evening. The party will consist of Eli Smith, Mr. and Mrs. F. M. Smith, and H. H. Russell. The quality of the exhibit is good, except that some of the crops have not matured, but the quantity is a great deal less than has been sent at any former year. The farmers are all so busy that they could not take the time to gather up what was needed. But it is far better to have a small exhibit than none at all and next year a great deal nicer showing can be made.

The editor of the Herald objects to the school district taking steps to secure a block of land for a school house site when it can be had for nothing and claims that the people of the district do not want it moved and that it is simply the editor of this paper who desires the school house moved. It has always been the policy of that paper and those who control it to oppose anything advocated by THE JOURNAL hence no one is surprised at the kick he makes. The fact is that the people of the district and the taxpayers are, almost without exception, in favor of accepting the offer of Mr. Lambert and getting the school house off the bleak knob on which it now stands, and two of the members of the school board have expressed themselves as being in favor of securing the site. It matters not, however, what the Herald has to say THE JOURNAL will continue to work for the interests of the town, school district and county.

Last Friday Phillip Unitt and Wm. Melosh, old acquaintances of THE JOURNAL editor arrived from Seward with a view to buying a train load of cattle. They found that the kind of cattle they wanted were held to high for them to see any money in the deal, but they were highly pleased with the country and after looking around the former concluded to buy some land and before he left he had arranged for seven quarter sections of fine land within a few miles of Harrison. Mr. Unitt has been in Nebraska over nineteen years and has a farm on which he lives of 800 acres which is worth, at least, \$40,000 and on which he last year fed 52,000 bushels of corn. For many years he has been a heavy stock dealer and has visited almost all parts of the state to buy cattle and the fact that he purchased 1,120 acres of land in Sioux county shows that he has faith in the future of the locality. Another pleasing thing to note is the fact that he has always been successful in his ventures and he knows that land in a new country is bound to increase in value, and he will tell the people that there are 800,000 acres of free government land yet open to settlement in Sioux county and advise those who are playing rent to come out here and get 160 acres of their own free. When such men begin to invest in it, it is a pretty sure indication of future prosperity.

25 Cents Until After Election.

The coming presidential and state campaign will be one of the most exciting ever known. During this time you will want a newspaper that is thoroughly in touch with public sentiment, and one that prints the news before it becomes stale. The Semi-Weekly State Journal prints the news several days earlier than the old-fashioned weeklies, and costs the same, \$1.00 per year. A complete paper twice each week—Tuesdays and Fridays. Giving 104 papers a year, it is almost as good as a daily. The old-time weekly is not in it when it comes to printing news. A year's subscription will carry readers all through the campaign and the next session of the legislature. A big dollar's worth.

A few of our offers:—The Journal a year and "Stanley in Africa," \$1.40; Journal and Weekly N. Y. Tribune, both one year, \$1.25; Journal and Oxford Bible, \$3.75; Journal and Neely's political map, \$1.80.

As a trial subscription we will send the semi-weekly until after election for a quarter. Address, NEBRASKA STATE JOURNAL, Lincoln, Neb.
