Mrs. H. A. Cunningham is selling water goods and millinery at cost at residence and secure a bargain.

Otto Fetz brought us a load of apples Tuesday. Such things help to make life comfortable at this season of year.

LEWIS—First-class native lumber singles constantly on hand at my store on East Bezy, 13 miles east of town.

J. E. ARSER.

Frank Stratton had a horse fall with one day last week and got pretty badly pinned up. He was completely lame for some hours after the mishap but is still quite sore from the bruises received.

John L. Kay informed us that he is a fine large cow killed by wolves a days ago. It will be necessary for the owners to organize and pay a bounty for killing the wolves or their sheep will exceed their profits.

Shaffer brought in a sample of wheat Tuesday which he raised on a farm northwest of town, which were 7 inches long and well proportioned. The doctor's farm is on the high table and its products compare with those of the locality.

David Bartlett is on the war-path, trying to buy Dave. As a quiet man, he is elected to three offices last Tuesday although nominated for none. He is diligently looking for the men who are to be his opponents.

The Ranch Supply building is not to be vacant. L. Gerlach who has been behind the counters there has decided to go into business and has a stock of general merchandise will be ready to begin business in a few days. Mr. Gerlach is one of the known men in the county and his experience will enable him to select just what his customers want and his record shows that he is certain to get his full share of the trade.

The workings of the new ballot law in our county gives quite general satisfaction. But few ballots were spoiled and few were found in the boxes that had to be thrown out. Some appeared to have been fixed up on purpose to make a little bother to the election.

A little more care should be exercised by the voters and errors will be reduced. There are some changes needed in the law and they should be made at the coming session of the legislature.

The editor THE JOURNAL leaves this morning for the eastern part of the state for parties with whom he has been in correspondence in regard to their coming to the state.

There are a great many people in the eastern part of the state who are seeking homes in the west and it is necessary that they be informed of the opportunities offered by this locality. The office will be in charge of P. H. Harboff during the absence of the editor and he will attend to the wants of

On Wednesday G. W. Hester was engaged in unloading a car load of lumber and had loaded a wagon and started it from the car toward the lumber when the team became unmanageable and threw him and the lumber off the wagon at the crossing near the old western hotel. Mr. Hester had his wrist broken, his spine injured and injured internally. The team ran away in front of the Commercial bank and was caught there. In getting the team out of the scrape V. A. Hester had his left shoulder dislocated. Meredith of Crawford was sent for to look up the injuries. V. A. Hester is not attending to business but his recovery will likely be laid up for some

He Felt Small.

A good newspaper story appears in the *Hainbridge* (Ga.) *Globe*. "He walked in and put down a dollar, a silver dollar, that clanked like a carriage wheel in the stillness of the situation. Said he: "There, take it and credit my subscription quick." "What, the matter? we said. "Well," said he, "last week I was fishing out on Spring creek; a thunder storm came up, and it rained and thundered, and lightning flashed all around me. I crevled into a hollow log to escape it. The rain made the log swell up until I was fastened in and nearly squeezed to death. I began to think of all my sins and to repent. Suddenly I remembered that my subscription to the *Globe* was not settled up, and I felt so small about it that I was able to look right out of the log at once!"

With the issue of Nov. 4th the *Hemingford Reflector* expired and left J. S. Parulis with his *Globe* in full possession of the newspaper field of that town. The expiring utterances of the defunct calamity sheet brands every business man of the place who did not support it as indecent, dishonorable, despicable, insignificant, low, degraded, beggarly. The fact is that the *Reflector* has been in existence for a little over six months and has tried to do business at less than it could be done for as was evidenced by a list of prices recently published in its columns for doing job work. It is becoming a settled fact that a newspaper is simply a business enterprise and unless it is run on business principles it cannot succeed.

MRS. HARRISON'S LAST WORK.

A Loving Memento to be Sent to Every One of Our Women Readers.

Mrs. Harrison could not have left a more loving memento to the women of America than the work she did for them before her last sickness. It is a magnificent work of art, a *Book of Orbits*, painted by her in the White House, from an orchid raised in the White House. It is lovingly dedicated to the mothers, wives, and daughters of America and the reproduction are so perfect, that last August, when a proof was submitted to Mrs. Harrison at Leon Lake, for her approval she thought it was her own original painting. *Demorest's Family Magazine* has the honor of being the medium through which these valuable pictures (12x15 inches) were presented to the women of America. They are not for sale but we will now send one to any mother, wife, or daughter who will enclose three two-cent stamps to pay for transportation, packing, etc. These exquisite mementoes, bearing Mrs. Harrison's autograph and portrait, will soon be beyond price, and should be secured at once. Address DEMOREST'S FAMILY MAGAZINE, 15 East 14th Street, New York.

A Great Popular History of the World.

The story of the world's history, is, after all, the most interesting and most instructive story which has ever been told. It was probably never better presented, for general reading and reference, than in Alden's *Cyclopedia of History*, recently published. Every nation of the earth, ancient or modern, is treated in its alphabetical order, excepting, only, the United States, which is to form a separate work. You have ancient history as far back as B. C. 5004 and modern history down to A. D. 1892. All countries are described in their physical aspects, as well as historically, so you have the equivalent of a book of travels round the world. There are many illustrations, none for mere ornament, but all helpful for instruction. Considering the magnitude of the work, its small cost is astonishing. The entire history comprises about 800,000 words—equivalent, you will find by comparison, to about 10 volumes of ordinary size—and yet is issued in two handy volumes, in small but clear type, well and handsomely made, and sold in cloth binding for only \$1.25 for the set, plus 20 cents for postage, if by mail. For 10 cents the publisher sends post-paid a paper-bound volume of 160 pages, containing the complete history of several nations, by which you can judge of the character of the entire work. Every home ought to have a good Universal History; this is probably the best for general use. The publisher's catalogue of choice books, over 100 pages, a rich feast for book lovers, is sent postpaid for 2 cents. JOHN B. ALDEN, Publisher, 57 Rose St., New York.

"Seeing is Believing."

And a good lamp

must be simple; when it is not simple it is not good. Simple, Beautiful, Good—these words mean much, but to see "The Rochester" will impress the truth more forcibly. All metal, tough and seamless, and made in three pieces only, it is absolutely safe and unbreakable. Like Aladdin's of old, it is indeed a "wonderful lamp," for its marvelous light is purer and brighter than gas light, softer than electric light and more cheerful than either.

Look for this stamp—THE ROCHESTER. If the lamp dealer has not the genuine Rochester, and the style you want, send to us for our new illustrated catalogue and we will send you a lamp safely by express—your choice of over 2,000 varieties from the Largest Lamp Store in the World.
