Hon. Paul Schminke, mayor of Nebrasks and one of the best known men in the state, died at his home last Monday.

A row is on in Dakota county over the workings of the managers of the Sunday Sun, a sensational sheet published in Chicago and among others Atlee Hart has been arrested on a charge of blackmailing. It seems hard to believe that Hart would do such a thing but if the charges are proven he should be pun-

Some little controversy is being indulged in over the state in regard to the world's fair commissioner. By the action of Gov. Boyd it was made a political office and looking at it from that standpoint the removal of the present incumbent and the appointment of a republican by Gov. Sioux among them is the railroad pass matter state in the amount of \$113.36, there being but five counties in the state which owe a smaller amount.

The decision of Judge Speer of the United States court at Macon, Ga., that the fact of a man being a member of a labor organization is no reason for his discharge is a very important one to organized labor. The principle is undoubtedly sound. The right of workingmen to organize for mutual protection is unquestionable, and this being admitted, it is manifestly unjust to make a man's connection with a labor organization the pretext for discharging him from employment.-Omaha Bee.

It is reported that articles of incorporation have been filed in Cheyenne for a company to build a line of railroad from Casper, Wyo., to Ogden, Utah, and that work will begin as soon as possible and line from Casper to Soda Lake will make this line of road one of the most important lines in the country, so that the days of poor train service for the people of this locality will be a thing of the past and great rejoicing should follow.

About forty democratic editors held a secret caucus at Topeka, Kan., Saturday. They agreed to formulate a statement effect that their late support of the populist party and the fosion movement in Kansas practically destroyed their news-

A BIG DENAND FOR HOMES.

All Available Government Land Will Soon be Occupied.

The following from the Toledo Blade goes to prove what THE JOURNAL has before stated that free government land will soon be a thing of the past and that those who expect to get homesteads L. J. Simmons, . . Editor. must be about it or the opportunity will be lost forever:

Washington, Dec. 15.-It is stated at the general land office that during the last few months there has been an almost upprecedented call from the western and Northwestern states for information as to the location of unoccupied government lands, and as to what steps re necessary to secure them under th

settlement laws. This fact is regarded by the officials as unemployed to secure homes in the west. and it is confidently expected that within the next very few years all the desirable holdings in the new states and territories will have been filed upon as permanent

Great Danger to Society.

The greatest dangers of society are moral dangers. They underlie and deterwords duty, sacrifice and love, and yet fraud, class legislation and revolutions? there is a language common to all; it is the language of deeds, of tears, of mercy, in some great sense one, united in noble cessfully. The liberty-loving people all purpose, so that every member reflects over the world would regret to see the somewhat the moral law, can any Utopia work her fair design into the warp and woof of the social life. Law must be at least liberty and liberty none the less law.

The Omaha Bee calls attention to a lot and it claims that the legislature should either prohibit the giving of passes to officials or make it compulsory on the part of the railroads to furnish transportation to public officials. If the men elected will be influenced by a pass they should resign and some one be elected who had brains enough to protect himself. A law to compel the railroads to furnish officials with transportation would be a disgrace to the statutes. The Bee further says that "The people demand and expect some relief at the hands of the legislature in the way of railroad legislation coupled with a material reduction of local freight rates." It is very much to be doubted whether the people demand or expect such a thing, judging from the vote on the constitutional amendment for railway commissioners. The call for a change in the revenue laws is timely and should be heeded so that rich and poor will bear their poshed with all speed. This, with the just proportion of taxation. As to a constitutional convention: there is room for grave doubts as to the advisability of holding such a convention at this time. Taken as a whole the legislature will do well, judging by the past to do just opposite to what the Bee demands.

It is urged that the president and executive board of the agricultural society get a move on themselves, individually addressed to Grover Cleveland to the and collectively and get matters in shape and hold a meeting of the society in January, and be prepared at that time to submit bylaws and plans for holding a paper business, and demanding of him fair next year. It is reported that John L. Sullivan is going crazy. Having his head worked over by Corbett does not appear to have agreed with the big bully.

The printers in the Journal and Call offices at Lincoln all went out on a strike Saturday, with a few exceptions. The papers are issued just the same and Sash, Doors, Blinds. Hair the strike will injure no one except the men who threw up their jobs.

The alliance has been loud in its denunciation of the lobby at the legislature out goes right along and arranges for a committee to be there to direct legislation. That is simply another illustration of the consistency of the so called reformers.

A terrible storm and severe cold visitindicative of a growing desire among the ed Kansas, Colorado and the Indian Territory the first of the week. No one suffered from cold in northwest Nebraska and yet one of the first questions asked by people from the east is if it does not get terribly cold in this locality.
