KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the

remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect lax-ative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. as given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from jectionable s

Syrup of Figs is for sale by all drug-gists in 50c and \$1 bottles, but it is man-ufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

WORTHY OF BUCCANEERING DAYS.

The Act of a Scotch Privateer Who Cop-

tured the Kelling Islands. Some days back there was launched from a Clydeside yard a sailing vessel built to the order of Clunies Ross, the proprietor of the Keeling or Cocos Islands. His eldest son, Clunies Ross, Jr., is at present residing in Glasgow, looking after the outfitting of the vessel, which is intended for trading purposes in the Indian Ocean. The history of the acquisition of the Keeling Islands, as related by the Edinburgh Dispatch, forms a chapter of romance equal to any within the two covers of a book of adventure. Far out in the Indian Ocean, and lying about half way between Calcutta and Melbourne, and some 500 miles southwest of Java, the Keeling Islands form a group of about a dozen coral atolls, with a climate of the finest description. In the early days of the present century Clunies Ross, a native of Sound of Wiesdale, Shet land, entered the royal navy. After going through some queer adventures, during which he left the navy, he found himself captain of a privateer which sailed the Indian Ocean, preying upon trading vessels. In the course of his expedition he came across the Keeling Islands, landed his crew, and found the natives hospitable and quiet in their bearing. He took possession of the islands, making them a place of call where he could disembark his men occasionally and obtain fresh provisions. Leaving behind him an Englishman to act as sort of lieutenant in his absence. the Shetland adventurer put to sea on another cruise. When he returned he found that his lieutenant had seized the reins of power and had won over a minority of the Malays to his side. Ross landed his crew and obtained the aid of the larger portion of the islanders. A desperate battle ensued and only ceased with the extermination of the lieutenant and his supporters. Ross then assumed the sole control of the islands, elected himself chief and married a Malay His son, however, married an English woman, and their eldest son, the present chief, is wedded to a Malay. Their eldest son, Clunies Ross, is heir-apparent, so to speak. and was sent over to Scot and to be properly educated. A few years ago Clunies Ross entered Edinburgh university and attended classes which would give an all-round education. He was a diligent student, and in the evenings studied at the Heriot-Watt College. He is almost a pure Malay in appearance. On several occasions he visited Shetland and the parish where his great-grandfather had been

brought up. A Mistaken Idea of Gorman

When Senator Arthur P. Gorman was a member of the Legislature from Howard County. Maryland, his name was frequently associated with that of a man named Bannon. These two gentlemen were regarded as the Gog and Magog of Maryland politics, and the Philadelphia Times says they were the subjects of much criticism and occasionally of abuse. One day while dining at Barnum's Hotel in Baltimore, Senator Gorman was presented to a gentleman who failed to catch his name. "Your friend mentioned, I tnink, that you are from Howard County," said the stranger. and that, by the way, is the birthplace of that rascal Gorman. Do you

happen to know him?" "Oh, yes," replied the Senator, "I knew Mr. Gorman very well." "I have never seen him," said his

companion, "but I have a distinct picture in my mind of what he is like. I fancy that he is a burly Irishman over six feet in height with a fist like a sledge hammer. Am I

"Why, no," said the Senator, "I think not. In fact, Mr. Gorman has been thought very much like memany persons, indeed, being unable to tell us apart."

The stranger expressed much sur prise, and here the conversation ended. As Mr. Gorman was leaving the hotel that evening his companion at dinner rushed after him.

"Oh, Mr. Gorman," he cried, "I hope you will pardon my rudeness. I had no idea who you were. You are altogether different from what I had supposed you to be. Why-why, you are just as common looking a man as I am."

One day this week a fellow with the worst kind of a toothache crept timidly into a certain Lewiston dent-

"What do you ask for pulling a tooth?" queriedine, holding on to his face. "Fifty cents without gas, a dollar

with gas," replied he of the forceps The fellow started as if he was

And what do you suppose he said "If you can't pull my tooth in broad daylight without gas I'll go somewhere where they can!"—Lew-iston Journal.

Lace of every kind is now made by machinery in such perfection that even experts can scarcely tell the difference between the hand-made and machine-made product. There is, however, a delicacy about the hand-made laces that the machine can never equal, and, although the machine-made product is so cheap as to be within the reach of almost anyone and so beautiful as to challenge criticism, the demand for the fine hand-made laces has not in the least diminished and the prices paid are as high as ever.

A CINCINNATI teacher was offered fifteen dollars in gold to learn the essons she set for a 12-year-old girl in a given time, and she tried it and failed.

Housekeepers Should Remember.

The Government Chemists, after having analyzed all the principal brands of baking powder in the market, in their reports placed the "Royal" at the head of the list for strength, purity and wholesomeness; and thousands of tests all over the country have further demonstrated the fact that its qualities are, in every respect, unrivaled.

Avoid all baking powders sold with a gift or prize, or at a lower price than the Royal, as they invariably contain alum, lime or sulphuric acid, and render the food unwholesome.

l'en Chinel and B u.h. Angustus St. Gaudens has been seected to design and execute the bronze statue of the late Bishop Phillips

Brooks. Mrs. Olive Thorne Miller, the well known writer on birds, did not know one bird from another till she was past middle age.

George Giddens, the comedian, is an artist in oils. Some of his landscapes have attracted attention in the London exhibitions.

Ephraim Keyser has made a statue of the late President Chester Arthur, which is to be given to New York city if the city will accept it.

M. Munkacszy is at work in his Neuilly studio on a picture of such dimensions that the canvas has to be raised and lowered by a machine for the purpose. It is 13 feet wide and 45
