☞Corrected every Thursday.

—A new girl arrived at the home of C. S. Scott a few days ago.

—If you want to sell your land, list it with Simmons & Smiley, real estate agents.

—For rent or sale at a bargain, a business lot and building in a good location in Harrison. SIMMONS & SMILEY.

—A man a few miles south of Crawford has a crop of barley for which he has been offered $1,000 as it stands in the fields.

—Take out a policy in the Preferred Mutual Accident Association. It is cheap and reliable. L. J. SIMMONS, Agent.

—Rev. Glasner will preach at the church next Sunday morning at 11 o'clock and at Pleasant Ridge at 3:30 in the afternoon.

—The efforts to get the drill out of the well at Henry Covey's has been successful and he will soon have a well to supply him with water.

—The reports from Lancaster county are that oats are yielding ten bushels per acre and unless rain comes soon the corn crop will be a total failure.

—From now until August 15th tickets from Harrison to Hot Springs, S. D., good returning for thirty days; will be sold for one fare for the round trip via the F. E. & M. V.

—Samuel Selkins, a practical shoemaker has opened a shop in the building with of the harness shop and is ready to all kinds of work that the people want in his line.

—The artesian well project seems to be growing in favor as people think it over. All that is needed is for some one to get a proposition in shape and it would require but little effort to secure enough funds to put down a test well.

—Bert Underhill "swapped ponies" with an Indian a few days ago before he knew it. What he supposed to be the introduction for a talk the noble red man took to be a trade and Bert accepted the situation.

—A letter was received the first of the week by Mrs. Glasner from her son who lives in Perkins county which stated that unless rain came there within a week they would have no corn or potatoes, and that not one-fifth of the small grain can be cut.

—On July 24 and 31 and August 7 the F. E. & M. V. will sell round trip tickets on the excursion coaches to Chicago for one fare for the round trip. Such rates will not be in effect on any other dates and will be good to leave Chicago returning on two dates only, four and eleven days from date of sale.

—When the commander-in-chief of the little ring of cute people sneaks into this office during the temporary absence of all except a child and questions it about what is none of his business, he shows how devoid of principle and honor his outfit is and to what methods he and his tools will resort.

—The farmers of Sioux county should investigate the culture of alfalfa. It has been tried in numerous places and the results have been very satisfactory and there is no reason why it should not be a profitable forage crop in this locality.

—At a meeting of the school board on last Saturday evening Miss Minne E. Smith was elected to teach the advance department of the school and Miss Nettie Marsteller the primary department. Both are experienced teachers. School will open on September 4th.

—A man in Dawson county got afraid of the banks and drew out $1,500 which he had on deposit in one of them and took the cash home with him so that it would be safe. A couple of men with their features covered with masks called on him and compelled him to give the money to them. When men get so foolish as to take a lot of money from a safe place and carry it home to keep, it is no more than serving them right if they lose it. It is such fool actions as that of the Dawson county man that has caused much of the trouble of late.

—Screen doors at the lumber yard.

—Old papers for sale at THE JOURNAL office: 5 cents per dozen.

—FOR SALE—Four thousand ewes, lambs and yearlings. Call on me at Andrews, or address me at Harrison, Nebr. E. BROWN.

—The horse belonging to N. L. Tipton which had its leg broken had a setback a few days ago but Tip still believes he can bring him out all right.

—J. M. Smiley has been wearing a stick for the past few days on account of having let a log roll on his foot. He will likely dodge quicker in the future.

—The pops of Sheridan county have already called their county convention. It must be that the enthusiasm is dying out and something must be done to keep up the excitement.

—W. T. Moore received word last week that his mother died on July 10th. Deceased was for some years a resident of the place. The cause of her death was congestion of the bowels.

—It is reported that a good many men from the west are passing over this line of railroad and as no order has been issued to let them ride the train crews have to use a good deal of care and help them off the train frequently.

—Robbers made a raid on a bank at Plainview a few days ago and got away with about $8,000 in cash. It was necessary for the bank to suspend business for a time. That bank had better invest in a good safe in which to keep the cash in future.

—From the reports from the east and the letters being received it is quite certain that a great many people will come west to get homesteads. They are getting very tired of paying cash rent for the high priced land in the east and then have their crops fail every other year when by coming west they have just as much assurance of a crop and have no rent to pay.

—On last Friday morning a fire occurred at Tamora which destroyed about half the town. Among the losers was Dr. Phinney who intended to come here in a few weeks. He lost a good deal and it has not been learned whether it will cause him to change his plans or not. His building was insured for $1,000 and that adjoining so that there should be no trouble in settling the insurance and it is quite likely that he will be here about the time he expected to.

—While Hugh Smiley and his wife were away from home one day last week some one made an entrance into the house through a window and carried off a watch and revolver belonging to him. It would be quite unhealthy for the burglar if he is found out. A person who will do such tricks should be dealt with in a manner that would teach him better. A term in the pen would do him good.

—Since the last issue of THE JOURNAL a good many, including school officers and patrons, have expressed the opinion that an institute for one week would be a hardship on the teachers and a farce by those who run it. In view of such a feeling it would be a good plan for the county superintendent to call the thing off. Teachers cannot be expected to attend in any number and to get any one here on the strength of what the teachers are to contribute would be "obtaining instructions under false inducements."

—P. N. Kirkpatrick and family came up from Box Butte county the first of the week to visit friends and see the country with the view to locating. They came from Seward last spring and rented a farm near Berea and they will soon be residents of Sioux county. Mr. Kirkpatrick is a man of good judgment and knows a good thing when he sees it and he is highly pleased with this part of the country. A number of others will come from Box Butte county to this place to get a piece of government land.

—Bert Underhill arrived the last of the week with a car of cattle from Seward. The cattle were poor in flesh on account of the short pasturage which prevails in that section as a result of the drouth. He says his father cut eighteen acres of tame grass and got ten loads of hay. Phil Unitt cut 160 acres and got thirty loads of hay. Wheat will not average ten bushels per acre and oats in proportion. Corn in some parts is fair but those who have high cash rent to pay will be in hard lines when they come to settle with their landlords.

—J. H. Bartell brought in a sample of fall wheat on last Saturday which shows up in good shape. There has never been a fair test of fall wheat made here yet and it would be a good plan for some of our farmers to get some ground in good shape and put in some wheat early enough so that it will get the right kind of a start. It should be put in as early as September first, the same as it is in other places. Success cannot be expected in anything if the proper effort is not made.

—The Perkins windmill is the best; Sold by J. H. Bartell, Harrison, Neb.

—160 acres adjoining Harrison for sale at a bargain, if taken soon.
SIMMONS & SMILEY.

—It is reported that in some localities people are using nets and seines to catch fish. There are good many young fish in the streams of Sioux county that have been planted there and will, if let alone for a few years, stock the streams nicely and people should refrain from the use of unlawful means to capture them. Some people have been to considerable pains in this work and they will not tamely submit to the destruction of the fish contrary to law. It might be well for those who want to seine to look up the law on the subject and then they will know what to expect.

In Memoriam.

For the first time in the history of the W. C. T. U. of Harrison we are called upon to announce the death of our noble sister, Mrs. Martha A. Moore at the home of her brother in Middleton, Montgomery county, Mo. She departed this life July 10, 1893, aged 57 years. This sister leaves several children and grand children to mourn her absence.

Appropriate resolutions of condolence will be be passed at our regular meeting which will be held in the church on Friday, July 28th, at 3 o'clock, p. m.

CAROLINE H. GLASNER.

That Pretty Evangeline

We published recently under the head of "A Pretty Surprise" a notice of a new and very charming edition of Longfellow's most celebrated poem, "Evangeline." Upon examination, the book proves so delightful in every way that we believe it will be a favor to our readers to refer to it again. It is handsomely illustrated, mainly by Birket Foster, one of the most famous of English artists, and bound in exquisite taste in a combination of white and blue cloth, with gilt edges and ornaments, and is sold only by the publisher direct (not by booksellers) at approximately the actual cost of manufacture by the hundred thousand—19 cents a copy, plus 6 cents postage, if by mail. His object is to place an example of his book-making in the hands of a vast number of readers.

He could certainly choose no more excellent volume, to please all people of good taste. His catalogue of books, covering every department of literature, a veritable feast of good things for book lovers, and at wonderfully low prices, considerably over 100 pages in size, is sent postpaid for 2 cents. Address,
JOHN B. ALDEN, Publisher,

PATENTS

FOR INVENTIONS

PROCURED BY THE

Press Claims Company.

Equal with the interest of those having claims against the Government is that of INVENTORS, who often lose the benefit of valuations because of the incompentency or inattention of the attorneys employed to obtain their patents. Too much care cannot be exercised in employing competent and reliable solicitors to procure patents, for the value of a patent depends greatly, if not entirely, upon the care and skill of the attorney.

With a view of protecting inventors from worthless or careless attorneys and of seeing that inventions are well protected by valid patents, THE PRESS CLAIMS COMPANY has retained counsel expert in patent practice and is therefore prepared to

OBTAIN PATENTS, CONDUCT INTERFERENCES, MAKE SPECIAL EXAMINATIONS, PROSECUTE REJECTED CASES, REGISTER TRADE-MARKS and COPYTIGHTS, RENDER OPINIONS as to SCOPE and VALIDITY of PATENTS, PROSECUTE and DEFEND INFRINGEMENT SUITS, ETC., ETC.

If you have an invention on hand send THE PRESS CLAIMS COMPANY a sketch or photograph thereof, together with a brief description of the important features, and you will be at once advised as to the best course to pursue. Models are not necessary unless the invention is of a complicated nature. If others are infringing on your rights, or if you are charged with infringement by others, submit the matter to us for a reliable OPINION before acting on the matter.
