Beans—per lb.	4 1/2
Coal—per ton	4 50
Wood—per cord	3 50
Lumber—native—per m. ft.	15 00

Corrected every Thursday.

The rains of late have been of great benefit to the crops in this part of the country.

If you want to sell your land, list it with Simmons & Smiley, real estate agents.

Sioux county will have a great crop of potatoes and they go a long way toward making life worth living.

For rent or sale at a bargain, a business lot and building in a good location in Harrison. SIMMONS & SMILEY.

All kinds of wood work done at Priddy's blacksmith shop, opposite THE JOURNAL office.

James Clark passed through here on Sunday going to Arizona or New Mexico. He wants to get further south before winter comes.

Take out a policy in the Preferred Mutual Accident Association. It is cheap and reliable. L. J. SIMMONS, Agent.

Sam Tebbet was in town Monday and took out binding twine with which to begin harvest on Tuesday. He says his crop is good, except a small piece which he did not put in properly.

From now until August 15th tickets from Harrison to Hot Springs, S. D., good returning for thirty days, will be sold for one fare for the round trip over the F. E. & M. V.

The rate sheets which were issued in conformity with the new law on freight rates were called in by the railroad officials and the old rates will be in force until Lincoln and Omaha get through fighting over the law.

On July 24 and 31 and August 7 the F. E. & M. V. will sell round trip tickets on the excursion coaches to Chicago for one fare for the round trip. Such rates will not be in effect on any other dates and will be good to leave Chicago returning on two dates only, four and eleven days from date of sale.

When a person gets out and sees what is growing in the gardens about the country he will be convinced that there is not much to feel bad over in this county. We saw as fine garden truck the first of the week as any one could wish and it had never been watered except by nature.

The farmers have already got up a good deal of hay but the rains of the past week have set the grass to growing again and some will wait for awhile and let it grow. It is a good plan to put up a good supply of hay and then if the winter is hard the stock will not suffer and if it is not needed and is properly stacked it will keep over for another year with little damage.

In another column appears a call for a meeting of those interested in a county agricultural society and an exhibit at the state fair. Last year some premiums were won and the money was sent to the treasurer of the society and the time has come when the organization of the society should be perfected and the thing got in running order. It is not only intended for those who have taken part in the work before but for every one in the county to come and take a hand in the matter. In the society no one person has more rights than another and the more there are interested the more certain will be the success of the undertaking. The secretary has moved out of the county and the vacancy will have to be filled and other work done which will be of importance. At that meeting the question of holding a county fair will come up and also whether or not an exhibit will be made at the state fair this year. With the poor crops which prevail on the high priced lands in the eastern part of the state a good exhibit at the state fair will be a winning card for Sioux county. Among the new settlers are some who have been identified with state fair work for years and they will be a great help in the getting up of an exhibit that will win. It is hoped that a large number of people will attend the meeting on Aug. 12th for good results are sure to follow the proper effort.

### Agricultural Society Meeting.

A meeting of the people of Sioux county will be held at the court house in Harrison on Saturday, August 12, 1893, at 1 o'clock, p. m., sharp, for perfecting the organization of the county agricultural society and to consider the advisability of holding a county fair and of making an exhibit at the state fair.

Every one interested in such a movement is urged to attend and help the work along.

A. W. MOHR,  
JAMES H. COOK,  
JEREMY STIMSON,  
ELI SMITH,  
Executive Committee.

Screen doors at the lumber yard.

A new girl arrived at the home of Mr. and Mrs. N. L. Tipton on last Friday.

Old papers for sale at THE JOURNAL office, 5 cents per dozen.

The Perkins windmill is the best; sold by J. H. Bartell, Harrison, Neb.

Don't fail to attend the meeting of the agricultural society on August 12th. Come and bring your neighbor with you.

160 acres adjoining Harrison for sale at a bargain, if taken soon.

Simmons & Smiley.

The managers of the state fair are trying to make the exhibition of this year the best, that it has ever known. The thing for Sioux county to do is to be there with her best clothes on.

D. M. Sutton returned Friday from his trip to the hills. He sold some of the horses which he took up with him but the market was not as good as he had expected so he brought the rest back again.

A good deal of petty thieving has been going on in some parts of Dawes county of late and the people have made up their minds to put a stop to it. It will be the same way in this locality if the pilfering is not stopped.

Dave Bartlett has fitted up a place in Priddy's blacksmith shop, opposite THE JOURNAL office where he is prepared to do all kinds of wood work, wagon and carriage work. He is well known to the people of this locality and all will be glad to know that he has opened a shop.

A good rain fell here on Thursday afternoon; a light shower fell on Friday and another good shower fell on Monday night. It has helped out the crops a good deal and grass is growing right along so that hay will be much more plentiful than was expected. Nearly an inch and three quarters of rain has fallen during the past week.

The poor crops seem to be prevailing in many parts of the country. Mrs. E. G. Hough received a letter a few days ago from her daughter who lives in Oregon which stated that the crops there are very poor and that the season has been very cold, a fire being necessary for comfort almost every day. That is not very encouraging for the people of that state.

Parties who will have ponds ready for fish this fall should get their applications in as soon as possible. A list will be sent from this office in a few days, not later than the 15th and any who desire us to send for them should notify us at once. Remember there is no cost to get the fish and no contract or agreement to make. If you have a suitable place you can get the fish simply by making application.

The reports of the seining in the streams of the county are still coming in. The best way to put a stop to such work is for some one who knows of the work to make a complaint and let the law take its course. A good heavy fine would cause the seiners to realize that the laws still exist in this part of the world. If the fish commission gets after some of the law breakers it will make an interesting time for they are not respecters of persons. If the fish are not worth protecting they are not worth catching.

As time passes the evidence that the action of the little ring of cute people in the village election becomes more certain. The bond on which to carry the case against the village treasurer, involving the license money to the supreme court was filed and approved and it is understood that a summons issued, as that is the way in such cases, but no summons has been served on the school board. The action of the ring goes to prove that the scheme is to delay the case as long as possible so that they may have the use of the \$500 which the court has said should be turned over to the school district treasurer, and the taxpayers of the district can continue to pay interest because of such retention of the funds and can also pay the expense of carrying on the suit in the courts. Such shining lights of reform are examples for the public to gaze at.

### PERSONAL.

A. R. Kennedy went to Crawford on Tuesday.

Miss Evelyn Miller was in Harrison yesterday.

A. W. Mohr was up from Gilchrist last Saturday.

Mr. and Mrs. J. H. Cook were at Crawford Friday night.

Mr. and Mrs. H. T. Zerbe were in Harrison yesterday.

M. E. Knight orders THE JOURNAL sent to him at Carthage, Mo.

S. M. Thomas gave us some cash on subscription Saturday.

C. F. Coffee was doing business at the county seat Wednesday.

W. S. Johnson and H. H. Russell were up from White River Monday.

F. A. Castle made a business trip to Ardmore the last of the week.

Mr. and Mrs. Octave Harris were up from Running Water last Friday.

Parson Tinkham was up from Bodare yesterday and called at this office.

Julian Lever of Cottonwood precinct was in town yesterday on business.

Mr. and Mrs. Eli Smith were doing business in Harrison last Saturday.

County Attorney Conley returned Monday from his trip to South Dakota.

J. L. Smides returned Monday from California where he had been for some months.

Jeremy Stimson was up from Glen last Saturday to attend the meeting of the executive committee of the agricultural society.

Remember that THE JOURNAL office is headquarters for job printing.

J. C. L. Ragland has the contract for putting up a lot of hay at Van Tassel, Wyoming.

J. H. Barron's bank at Lusk went to the wall last week. It was a small affair and had been considered shaky for some time.

It is reported that George Walker has located at Casper, Wyo., to practice law. If that is true, all his friends here will wish him success.

A large part of the sheep which have been at Andrews for some time will be moved out in a few days. The rest will be shipped from where they are.

While loading a mower into a wagon a few days ago S. M. Thomas got into such a position as to strain his back so badly that he has not been able to work since.

Samuel Jenkins, practical boot and shoe maker. Cowboy boots a specialty. Repairing promptly and neatly done. Satisfaction guaranteed. Shop second door south of court house.

The work of running the line between Nebraska and South Dakota and setting the monuments is going along. There will be no change in the line as it has been, but it will be plainly marked.

P. N. Kirkpatrick was so well pleased with Sioux county that he will move here in the near future and others will follow as soon as they can arrange their business affairs where they are now. There is no doubt that many new settlers will come here to secure land in the next few months.

The crop reports brought in by the farmers from most localities are quite encouraging. Some say they will have as good crops as they had last year and some claim even better. Of course there are streaks where there will be little or nothing, but it should be borne in mind that this is a streaked year.

C. Y. Hough went to Douglas, Wyo., on last Monday to take a position in a business house of that town. Clint is a young man of energy and has had a good deal of experience in the mercantile business and will no doubt prove himself to be of value to his employers. W. H. Hough will take the place made vacant by his departure from the store here.

J. E. Wallace got pretty badly used up a few days ago by having a runaway. He is reported to look as had as John L. Sullivan did when Corbett got through with him. He is improving but as he is quite well along in years he feels quite sore and will not likely fully recover from its effects for some time. He was fortunate to have escaped with no bones broken.

E. A. Weir and his mother came up from Chadron yesterday to look after some business matters and visit friends for a few days. He has decided to locate at Chadron and practice his profession. Dr. Weir is a man of energy and ability and has devoted years to preparing himself to do battle with disease and his many friends here will hope to hear of his success.

It would be a good plan for some of our farmers to get a proposition in shape for putting down a test well for artesian water. There is no use in fooling about the matter. If a test is to be made let the preliminary work be done and the well put down. There are a number who would like to have the test made on their land and all that is necessary is for them to make a proposition and let the subscriptions be secured and then the work can be commenced. The opinion of those with whom we have talked on the subject is that it should be arranged to go not less than a thousand feet if the move is made. It is well worth the effort. Who will make the proposition?

### WORLD'S FAIR AT HOME.

It Promises to Surpass all Preceding Exhibits in this Columbian Year.

Never was there a time when Nebraska state fair makers, exhibitors and patrons should more bestir themselves than now. The management fully comprehending the situation is leaving nothing undone to make the fair this Columbian year—world's fair year, the best and most extensive ever held. Indications are that there will be a large attendance from abroad. Arrangements are consummated to sell round trip tickets from the world's fair at Chicago to the Nebraska fair—all the west—and return, at the same reduced rates as to that great exposition. Also that live stock on exhibition at Chicago will be released and by special trains reach the Nebraska state fair in time for exhibition. Thus the finest in the world will be with us.

From all parts of the states advices are, says the secretary, that there will be an unusual presentation of products. Colorado, Kansas, Iowa and Missouri have accepted invitations to join with Nebraska and compete in county collective exhibits. This will insure the greatest exhibit in that line any state has ever presented.

Extra efforts are made for the speed ring and other attractive features. Over two hundred speed entries have already been sent in. This betokens rare entertainment for lovers of speed.

No one should fail to attend the Nebraska Columbian year world's fair and exposition at Lincoln, September 8th to 15th next. See that wife, and especially the children attend this object lesson school.

WANTED—Salesmen, to sell our choice and hardy nursery stock. Many special varieties to offer, both in fruits and ornamentals, and controlled only by us. We pay commission or salary, give exclusive territory and pay weekly. Write us at once and secure choice territory.

MAY BROTHERS, Nurserymen,

## PATENTS

FOR INVENTIONS

PROCURED BY THE Press Claims Company.

Equal with the interest of those having claims against the Government is that of INVENTORS, who often lose the benefit of valuations because of the incompetency or inattention of the attorneys employed to obtain their patents. Too much care cannot be exercised in employing competent and reliable solicitors to procure patents, for the value of a patent depends greatly, if not entirely, upon the care and skill of the attorney.

With a view of protecting inventors from worthless or careless attorneys and of seeing that inventions are well protected by valid patents, THE PRESS CLAIMS COMPANY has retained counsel expert in patent practice and is therefore prepared to

OBTAIN PATENTS, CONDUCT INTERFERENCES, MAKE SPECIAL EXAMINATIONS, PRESECUTE REJECTED CASES, REGISTER TRADE-MARKS and COPYRIGHTS, RENDER OPINIONS as to SCOPE and VALIDITY OF PATENTS, PROSECUTE and DEFEND INFRINGEMENT SUITS, ETC., ETC.

If you have an invention on hand send THE PRESS CLAIMS COMPANY a sketch or photograph thereof, together with a brief description of the important features, and you will be at once advised as to the best course to pursue. Models are not necessary unless the invention is of a complicated nature. If others are infringing on your rights, or if you are charged with infringement by others, submit the matter to us for a reliable OPINION before acting on the matter.

THE PRESS CLAIMS COMPANY,  
WASHINGTON, D. C.

618 F street, northwest  
P. O. Box 463.

J. H. WEDDERBURN, managing attorney.  
Cut this out and send it with your inquiry.
