Peas—per doz.	4 50
Coal—per ton	8 00
Wood—per cord	15 00
Lumber—native—per m. ft.	15 00

Corrected every Thursday.

—What are you going to contribute to the state fair exhibit?
—Old papers for sale at THE JOURNAL office. 5 cents per dozen.
—A new boy arrived at the home of Mr. and Mrs. Grant Guldrie on Monday. All concerned are doing well.
—If you want to sell your land, list it with Simmons & Smiley, real estate agents.
—The pit from which the spales were removed near Turner's store has been filled up which is quite an improvement.
—For rent or sale at a bargain, a business lot and building in a good location in Harrison. SIMMONS & SMILEY.
—All kinds of wood work done at Priddy's blacksmith shop, opposite THE JOURNAL office.
—Dave Bartlett had the misfortune to dislocate a joint of one of his fingers a few days ago while loading logs in the timber.
—Take out a policy in the Preferred Mutual Accident Association. It is cheap and reliable. L. J. SIMMONS, Agent.
—The matron of the home of the friendless was up from Lincoln last week to look after some boys in this county in which the institution is interested.
—FOR SALE OR TRADE FOR STOCK—My tobacco business, bar fixtures and stock. L. RICKSTEN, Harrison, Neb.
—P. A. Bigelow, T. O. Williams and H. A. Priddy brought in samples of grain the past week which show up well for the localities in which they were grown.
—Don't forget to collect something to help out the state fair exhibit. When you find anything suitable put it away carefully and notify the committee that you will have it here on the appointed day to be loaded into the car.
—Sam Tebbet brought in some samples of wheat and corn on Tuesday which go a long way toward proving that crops are not a failure in Sioux county. He also brought a water melon which was of excellent flavor.
—Steps are being taken to have the old Smith building fixed up and it will likely be occupied in the near future by a business man. That will help the appearance of that part of town.
—Serres Bros. thresher is to start up today in the Five Points neighborhood. The grain is of excellent quality and will yield fairly well for the amount of straw.
—The east bound train broke in two last Friday evening shortly after leaving Luak and when it came together it shook things up pretty lively. No one was hurt to speak of and a few broken bumpers and drawdeads was the extent of the damage.
—The Underhill brothers expect some horses from the east in a few days. On account of the hard times there is no market there for them and on account of the drought feed is so high there that there is no profit in keeping them in that country.
—It rained for about four hours last night, about an inch of water falling. That makes it so that the farmers can do some fall plowing and put in winter wheat. The sooner winter grain is put in the better for it needs a chance to get a good start before cold weather.
—Vague rumors are once more afloat to the effect that this line of railroad is to be extended in the near future. It would be very nice if such a thing would occur so that this locality would have improved train service, but it is hardly likely to come about this year.
—H. T. Conley went to Chadron Monday evening to make the application for a temporary injunction in the irrigation case. So long as the matter has got into court there is nothing to do but to await the decision of the court and then obey its orders. There are a good many interested in the case on both sides—it is neighbor against neighbor, and it is to be hoped that as little personal feeling as possible will be worked up.

—Screen doors at the lumber yard.
—Remember that THE JOURNAL office is headquarters for job printing.
—The F. E. & M. V. pay car passed up this line the last of the week and made glad the hearts of the employees.
—160 acres adjoining Harrison for sale at a bargain, if taken soon. SIMMONS & SMILEY.
—Be sure to have your contribution to the state fair exhibit here ready to be loaded on next Tuesday. Get the best you can and get plenty of it.
—Remember the quarterly meeting at Plimpton's grove next Sunday. Preaching at 11 a. m. and at 3 p. m. Rev. T. Elkin will preach. All are invited.
—WANTED—One hundred head of cattle to winter. For terms call on me at my place northwest of town or address me at Harrison, Neb. G. B. OLLINGER.
—Samuel Jenkins, practical boot and shoe maker. Cowboy boots a specialty. Repairing promptly and neatly done. Satisfaction guaranteed. Shop second door south court house.
—A number of train loads of cattle and sheep have gone down the road during the past week. The markets do not seem to have improved to any great extent.
—On last Sunday Rev. Glasner held services at the schoolhouse in district No. 31, south of town and organized a Sabbath school with L. C. Lewis as superintendent.
—A boy of the regulation weight arrived at the home of H. A. Priddy on last Friday. The mother and son are doing as well as could be expected and the father will recover if nothing occurs to complicate matters.
—Word has been received that a good location has been assigned to the exhibit from Sioux county in the agricultural hall on the state fair ground. Now let every one help get up a good exhibit and have it here on next Tuesday to be loaded in the car. There is no reason why Sioux county should not have a good prize this year.
—Dr. Phinney received a telegram yesterday from his wife stating that their youngest child was very sick and not expected to live. He took the first train for Lincoln, where the family is visiting Mrs. Phinney's parents. It is hoped that he will find the little one better when he reaches it. He will return as soon as circumstances will permit.
—L. Gerlach received a letter from his wife yesterday informing him that the physicians who have examined the little boy are of the opinion that he can be cured, but will not say positively until they have treated him for a couple of weeks. The trouble arises from the effects of scarlet fever which he had a year or more ago.
—Rumors have frequently come to the ears of the editor of THE JOURNAL as to what the new settlers intended to do to him for the part he took in getting them to come here to live, but he never anticipated any danger. In this he was mistaken for shortly after dark on Monday evening the crowd of new settlers came to the home of the editor and it was evident that there was a conspiracy. No personal violence was done, however, and a pleasant evening was spent to commemorate the thirty-fifth birthday of the pencil pusher of this paper.
—On last Thursday P. Lacy and Jesse and William Sherrill arrived from Battle Creek, Iowa, to see the country and visit friends. The two last named are brothers of J. W. Sherrill and the party went out to his place that day and have not come to town since. They were attracted to this place by having read a copy of THE JOURNAL. Like all other home seekers who come here they were disgusted with the trip from Chadron here, but the railroad, not the country, is to blame for that.
—On last Thursday word was received from Dr. Phinney that he had arranged so that he could move and that he expected to be here on Monday with a car load of goods. He got here and has opened his stock in the middle room in the Andrews building, which was formerly occupied as a drug store. He is busy at work getting his goods in shape and supplying the wants of those who call on him. He has also had a good deal to do as a physician since he arrived and has not had time to get everything in shape. The people are all glad that he has come here to locate, especially the Seward people who know him. He is a pharmacist and knows how to handle drugs and will carry those of good quality and strength, which fact will be appreciated by the people here. He is a regularly graduated physician and has had years of successful practice, so that people may have confidence in him when his services are needed in that line. His family will come as soon as he gets settled and all will be glad to welcome them to Harrison.

PERSONAL.

G. J. Martin was in town Saturday.
H. H. Russell was up from Glen on Friday.
C. F. Coffee went to Chadron Monday evening.
Mrs. L. Gerlach started for Iowa last Thursday evening.
John Plunkett came down from the west on Sunday.
Christ Christensen was up from Andrews on Monday.
Z. G. Deuel was down from Wyoming the first of the week.
—School here will begin one week from next Monday.
A. R. Kennedy was up from Crawford the last of the week.
H. T. Hughson was doing business at the county seat Monday.
J. E. Cook and John A. Green were up from Agate Springs yesterday.
V. A. Hester and sister, Miss Louie, went to A. McInleys last Sunday.
W. C. Stover arrived from Colorado on Friday to look after his interests here.
Sam Jensen arrived from Norfolk yesterday to look after his interests for a few days.
Mrs. M. K. Wilson arrived from Illinois last week to visit Robert Wilson and family.
Miss Eva C. Connor arrived from Iowa last Friday and will visit relatives and friends for some time.
Fred Blomberg was up from Glen the first of the week and called and added his name to our list of readers.
Alex Lowry and his sister, Mrs. Smith, expect to make a trip to Iowa in the near future to be gone a few weeks.
Mr. and Mrs. M. W. Lawrence, of Central City, S. D., were the guests of Mr. and Mrs. E. F. Pentius over Sunday.
Miss Anna Price arrived from Sioux City on Tuesday and will teach the school at Bodar. Her many friends are pleased that she has returned to Sioux county.

—The Swan outfit loaded twenty cars of cattle at Van Tassel on Monday.
—It is a matter of current remark that the big "I" does not provide accommodations for new-comers of late. When it found that the people who came here had minds of their own and could not be handled by it politically or otherwise, a change came over its actions.
—Geo. Walker came down from Casper and spent Sunday with his family. He says a good deal of work is being done in developing the mineral and oil of that country and the indications are that a bright future is in store for that place. The development of the resources of that section will be of much benefit to this locality and it is to be hoped that the good work will go on. George says he is building up a good law practice.
—The report mentioned in the last issue of THE JOURNAL in regard to the trouble at one of the outlying post-offices seems to have been made on misleading rumor in part. Parties who are interested on both sides and know the facts have informed us that the story that the postoffice official had opened a letter was wrong. The letter was sent to the office in charge of a child and the official claims that it arrived in such a condition as to be unmailable and was placed in another envelope and addressed and sent on its way. The matter has been settled satisfactorily between the parties and dropped and THE JOURNAL does not desire to do any one an injustice and gladly makes the correction.
—Frequent inquiries are made as to the progress of the suit which County Superintendent Southworth and H. T. Zerbe were working up to knock out the incorporation of the village of Harrison. So far as we can learn there has been nothing done except that those gentlemen went to Chadron and consulted an attorney in the matter and it is not likely that anything will be done. It would avail nothing, even if the effort was successful, for several reasons. In the first place the people of the precinct would have the petitioning for a saloon to do and if they are not to receive the license money for the school they are not likely to ask that a license be granted. Then, again, as soon as the requisite number of people become residents of the town the same could be re-incorporated and that would stop the division of the money and the various school districts would cease to receive any portion of the license money. The scheme was worked up by the little ring of cut people who cared not what they did to injure the town and was used for the purpose of boomerang some one for office this fall, but it has fallen so flat that the cut people deny their work in it, and the boomer is glad to keep still about it. Such little schemes are built on the boomerang plan, as a rule, and return and injure the one who attempts to use them.

—The street commissioner could do some good service by pounding down the spikes in the sidewalks about town. As the village would be responsible for any injury sustained by reason of defective walks it would be well for the village board to look after the matter.
—Some of the sheep owners report that they have not yet received any returns from the wool they shipped last spring. The uncertainty as to what will be done to the wool tariff by congress has destroyed the market for dealer do not dare risk their money.
WANTED—Salesmen, to sell our choice and hardy nursery stock. Many special varieties to offer, both in fruits and ornamentals, and controlled only by us. We pay commission or salary, give exclusive territory and pay weekly. Write us at once and secure choice territory. MAY BROTHERS, Nurserymen, 6-12 Rochester, N. Y.

Best Line to the East.

The Burlington Route B. & M. R. R. is running elegantly equipped passenger trains without change from Newcastle, Wyoming and Crawford, Nebraska, direct to Lincoln, Nebraska, making connection at that point with their own through trains for Denver, Cheyenne, and all points west, and for Kansas City, St. Joseph, St. Louis, Omaha, Peoria, Chicago, and all points east.
Remember this is the only line by which you can take sleeping car from Crawford in the evening arriving in Lincoln and Omaha the next afternoon, and in Chicago, Peoria and St. Louis the following morning.
For further information and tickets apply to nearest agent of Burlington Route B. & M. R. R.

PATENTS
FOR INVENTIONS
PROCURED BY THE
Press Claims Company.

Equal with the interest of those having claims against the Government is that of INVENTORS, who often lose the benefit of valuations because of the incompetency or inattention of the attorneys employed to obtain their patents. Too much care cannot be exercised in employing competent and reliable solicitors to procure patents, for the value of a patent depends greatly, if not entirely, upon the care and skill of the attorney.
With a view of protecting inventors from worthless or careless attorneys and of seeing that inventions are well protected by valid patents, THE PRESS CLAIMS COMPANY has retained counsel expert in patent practice and is therefore prepared to
OBTAIN PATENTS, CONDUCT INTERFERENCES, MAKE SPECIAL EXAMINATIONS, PROSECUTE REJECTED CASES, REGISTER TRADE-MARKS and COPYRIGHTS, RENDER OPINIONS AS TO SCOPE and VALIDITY OF PATENTS, PROSECUTE and DEFEND INFRINGEMENT SUITS, ETC., ETC.

If you have an invention on hand send THE PRESS CLAIMS COMPANY a sketch or photograph thereof, together with a brief description of the important features, and you will be at once advised as to the best course to pursue. Models are not necessary unless the invention is of a complicated nature. If others are infringing on your rights, or if you are charged with infringement by others, submit the matter to us for a reliable OPINION before acting on the matter.
THE PRESS CLAIMS COMPANY,
WASHINGTON, D. C.
618 F Street, northwest
P. O. Box 463.
JOHN WEIDENBURN, managing attorney.

Put this out and send it with your inquiry.
