—FOR SALE OR TRADE FOR STOCK—My saloon business, bar fixtures and stock. I. RICKSTEIN, Harrison, Nebr.

—Write to your friends in other parts of the state and tell them to be sure to see the Sioux county exhibit at the state fair.

—The Seward county colony to the number of nearly forty, gathered at the home of G. J. Martin on last Sunday and spent the day very pleasantly. These frequent gatherings are enjoyed by all who attend.

—Dr. J. E. Phinney left with his car load of goods for Harrison, Sioux county, this state Saturday. We are sorry to lose so good a physician and neighbor as the Dr. was. We wish him success in his new field of labor.—Tamora Register.

—We are in receipt of a letter informing us that the Simler farm just south of town has been purchased by a man by the name of McMillan, residing in Omaha. He expects to occupy the place next year and it is said that others from there come here to secure homes. There is room for many in Sioux county and all will be welcome.

—Of the three men who arrived on the excursion train from Iowa last week, William Sherrill had some business which called him home and he left Saturday evening stating that he would begin to get ready to come here as soon as he got home as he had seen enough to satisfy him that he could do better here than he can where he now lives. The other two started for home Tuesday evening, but before they left they each initiated contest proceedings on a fine quarter section a few miles southeast of town. They expect to move here some time between now and spring. They say that there are many in that part of the country who are renting land and who want to get out and get land of their own and it is quite likely that a number of their neighbors and friends will come out on the excursions yet this fall to spy out the land. Those who own no land are getting very tired of paying high cash rent and then getting poor crops.

—There seems to be something wrong between this place and the F. E. & M. V. road. Some time ago information was received from the secretary of the state board of agriculture that the road had gone back on the fair matter. It was taken up with the railroad officials and carried as far as the general manager but no transportation could be obtained over the road for the committee who would have charge of the exhibit. The transportation was obtained over the B. & M. although that company has but a few miles of road in Sioux county and does not come to this place at all. Such a state of affairs is not the thing to have existing between the people and the railroad. The work of advertising the country and securing new settlers and new enterprises is of interest to both and some way should be devised so that the effort will be united. With the people pulling one way and the company another the development of the county will be greatly retarded.

The Exhibit for the State Fair.

On last Tuesday the products collected to make up the exhibit from Sioux county at the state fair were brought in as called for by the committee. The collection was the best that has ever been sent from here and with proper arrangement a good premium should be won by it.

The committee to award the premiums offered by the county society for the best collections consisted of J. H. Bartlett, E. E. Smiley, Henry Lindeman, David Bartlett and J. M. Smiley, and the following awards were made:

For best and largest collection of grain and vegetables, 1st premium Leo DeBock; 2d, Eli Smith; 3d, M. J. Weber.

For best and largest collection of native grasses: 1st premium Eli Smith; 2d, J. H. Bartlett, 3d, M. J. Weber.

It is out of the question for us to give a detailed account of all that was there and by whom contributed, but it would have been a good thing if all the people in the county could have been here to see for themselves. An idea seems to prevail in localities where the crops are poor that the same is true of the whole county and seem to dialike to hear of those who have been more fortunate than themselves. None who took the trouble to see what was brought in on Tuesday will think that crops were a failure in Sioux county this year.

The exhibit will be in charge of Eli Smith, M. J. Weber, Leo DeBock and Louis Ruffing, the latter having taken the place of John Meindart who was taken sick and could not go. To those men and others a great deal of credit is due for the fine collection of products which comprises the exhibit. Many people have expressed their intention to take an active part in the work who have not done so in the past. There will be thousands of people at the state fair to see what is to be had in the western counties and who want to secure homes and stop paying rent and there is no reason why the exhibit from Sioux county should not be the means of securing many new settlers for this part of the state. A great deal more could have been had to use in the work if a little more time had been had but there is no need to be ashamed of what has been accomplished in the short time since it was determined to make an exhibit.

It is hoped that the officers of the agricultural society will see to it that a meeting is held and the work for next year commenced this fall. It is out of the question to get the very best results with only a few weeks in which to do the work. Take the whole year. If the farmers know that an exhibit is to be made next year they can easily prepare something for it.

—Remember that THE JOURNAL office is headquarters for job printing.

—The W. C. T. U. will meet at the M. E. church on Friday afternoon at 3 o'clock.

—160 acres adjoining Harrison for sale at a bargain, if taken soon.

SIMMONS & SMILEY.

—Dr. Phinney was called to attend John Meinhart on Wednesday, who is suffering with an attack of bilious fever.

—Rev. Glasner will preach at the church in Harrison next Sunday morning at 11 o'clock and at Pleasant Ridge in the afternoon at 3:30.

—A couple of men with bagpipes visited this place on last Friday. They did not stop very long as they did not get very much encouragement when they passed the hat.

—WANTED—One hundred head of cattle to winter. For terms call on me at my place northwest of town or address me at Harrison, Nebr. GE. OLLINGER.

—Samuel Jenkins, practical boot and shoe maker. Cowboy boots a specialty. Repairing promptly and neatly done. Satisfaction guaranteed. Shop second door south court house.

—Dr. Phinney is again here and has his stock of goods in pretty good shape. Some things which he lacked when he arrived have since been ordered so that his stock is complete. He has altered the appearance of the room in which the stock is located and he will still further improve it as he has time. People can now obtain drugs in which they can have confidence and they will be compounded according to the rules of pharmacy and sold at living prices. Dr. Phinney graduated as physician at Rush medical college in the spring of 1889 and has been in active practice ever since. He comes here to make this place his home and be one of the citizens of the town and county and it is safe to say that he will exert himself to give to the people the best service possible. His family will be here as soon as he can secure a residence, but the exact date cannot yet be decided on.

PATENTS

FOR INVENTIONS

PROCURED BY THE

Press Claims Company.

Equal with the interest of those having claims against the Government is that of INVENTORS, who often lose the benefit of valuations because of the incompetency or inattention of the attorneys employed to obtain their patents. Too much care cannot be exercised in employing competent and reliable solicitors to procure patents, for the value of a patent depends greatly, if not entirely, upon the care and skill of the attorney.

With a view of protecting inventors from worthless or careless attorneys and of seeing that inventions are well protected by valid patents, THE PRESS CLAIMS COMPANY has retained counsel expert in patent practice and is therefore prepared to

OBTAIN PATENTS, CONDUCT INTERFERENCES, MAKE SPECIAL EXAMINATIONS, PROSECUTE REJECTED CASES, REGISTER TRADE-MARKS and COPYRIGHTS, RENDER OPINIONS as to SCOPE and VALIDITY of PATENTS, PROSECUTE and DEFEND INFRINGEMENT SUITS, ETC., ETC.

If you have an invention on hand send THE PRESS CLAIMS COMPANY a sketch or photograph thereof, together with a brief description of the important features, and you will be at once advised as to the best course to pursue. Matters are not necessary unless the invention is of a complicated nature. If others are infringing on your rights, or if you are charged with infringement by others, submit the matter to us for a reliable OPINION before acting on the matter.
