October was hustled in with a roar and a little snow fell on Sunday but it amounted to nothing.

G. M. Burson and D. A. Publöw were up from Cottonwood the first of the week on business.

WANTED—One hundred head of cattle to winter. For terms call on me at my place northwest of town or address me at Harrison, Neb.

Arrangements are being made to construct a private telegraph line from the depot and Griswold & Marsteller's store so that the boys can practice telegraphy.

Samuel Jenkins, practical boot and shoe maker. Cowboy boots a specialty. Repairing promptly and neatly done. Satisfaction guaranteed. Shop second door south court house.

The voters of Andrews precinct are requested to meet at the school house at Andrews on Wednesday, October 11, 1893, at 2 o'clock, p. m., for the purpose of discussing precinct matters.

It is expected that school will open again next week. It might be well for the board to make an order that the children in families where the diphtheria has prevailed should not attend school until given permission by the doctor.

After this month the mail route from Harrison to Story will be discontinued and that office will receive its mail from Ardmore, S. D. Care should be taken to keep all such things as they help both the town and the country.

Charles Schilt received the sad intelligence on Tuesday of the death of his father at Defiance, Ohio, and he left on the train that evening for that place. It was not learned how long he would be absent.

It would be a good plan for the village board to complete the repairing of the sidewalk destroyed by the fire last fall. As it is now it is liable to cause some one to get hurt who is not acquainted with the condition of the walk and then the town will have a bill of damages to pay.

With his usual disregard for the truth Mr. Verity stated in the pop organ that Mr. Devenport of Glen was campaigning the county in the interest of Dan Klein for county clerk. Mr. Devenport requests THE JOURNAL to state that there is not a word of truth in the statement and that Mr. Verity could not have done him a more unkindly act than he did when published that report.

Conrad and Henry Landeman and Marcus Yeldez have secured a bunch of 2,500 sheep from the National Sheep and Land Company. They expect to range them on Spring creek. With that number a good test of the sheep business in this locality can be made and the experiment will be watched with a good deal of interest.

H. T. Conley expects to start tomorrow evening for Oklahoma and the Cherokee strip. He will visit friends in the territory and will look over the strip with a view to locating in some of the new cities. The rapid settlement of that country is certain to create a large amount of litigation and consequently it will afford a good opening for lawyers and that is what Mr. Conley is looking for.

Township 23, range 58, has been cut off of Cottonwood precinct and a precinct created to be called Sugar Loaf precinct, and the voting place for the precinct will be at Adelia. A part of Five Points and also a portion of Montgomery was desirous of being made a part of the new precinct but the law would not allow it as they are in a different township or district and the boundaries thereof cannot be changed oftener than once in three years and it has not been so long since the districts were established. When the proper time comes the people of the territory which desired to be a part of the new precinct can petition for a change.

J. W. Scott is building an addition to his residence north of the court house.

Remember that potatoes and other things for winter use are taken on subscription at this office.

All kinds of wood work done at Priddy's blacksmith shop, opposite THE JOURNAL office.

A. W. Mohn expects to go to Iowa in the near future to take charge of his father's business as the latter's health is quite poor.

Mrs. E. G. Hough expects to go to Chadron tomorrow evening to see if the oculist there can do anything to relieve her eye which causes her intense pain.

The reports from the sick are that all are improving as well as could be expected. No new cases are reported so all feel that the worst is past.

William Melosh has sold the grain and some of the stock which he brought here from Seward and he will ship the rest of his goods and he and his family will return here. His family seems to think that this is most too new a country to suit them and while we are sorry to lose them it would be unpleasant to them to remain and be discontented.

The change of postmasters at Harrison occurred the first of the month, E. G. Hough retiring and J. E. Marsteller assuming control. W. H. Davis will continue to act as deputy under the new official. As soon as the details are arranged Mr. Marsteller will move the office into the store of Griswold & Marsteller, as it can be conducted there with less expense and will also be a convenience to patrons as it will enable them to get mail at any time when the store is open.

The superintendent of the fish hatcheries writes that the fish he will bring to those who have applications in will be from three to five inches long and there will be a hundred in each lot. Those who have applied should be prepared when they are notified of the date he will be here to come and get them. A large can, boiler or tub should be brought by each person who is to get a supply so that they may be taken care of properly. Notice will be given in time so that all can be here ready to get their supply.

Commissioner Weber was up from the east part of the county the first of the week to attend the meeting of the board and called at this office. It was his first visit to the county seat since he returned from the state fair. He says he is well pleased with the result of the exhibit and that had he known as much about the work when he commenced as he did when he got through he could have done much better in many ways. Mr. Weber like the others believes that now is the time to begin to get ready for next year.

A young man by the name of Theodore Hillebrand arrived last week from near Lincoln and after spending some days looking over the country he concluded that it was good enough for him and he filed on a quarter section of land near the farm of C. B. Scott and he also purchased a quarter of dead land from D. M. Sutton. He has a house on his homestead already and will remain here right along. He expects his brother from Germany between now and spring and together they will go to farming and stock raising. He says that by getting money in hard money.

PATENTS
 FOR INVENTIONS
 PROCURED BY THE
Press Claims Company.

Equal with the interest of those having claims against the Government in that of INVENTORS, who often lose the benefit of valuations because of the incompetency or inattention of the attorneys employed to obtain their patents. Too much care cannot be exercised in employing competent and reliable selection to procure patents, for the value of a patent depends greatly, if not entirely, upon the care and skill of the attorney.

With a view of protecting inventors from worthless or careless attorneys and of seeing that inventions are well protected by valid patents, THE PRESS CLAIMS COMPANY has retained counsel expert in patent practice and is therefore prepared to

OBTAIN PATENTS, CONDUCT INTERFERENCES, MAKE SPECIAL EXAMINATIONS, PRESENT REJECTED CASES, REGISTER TRADE-MARKS AND COPYRIGHTS, RENDER OPINIONS AS TO SCOPE AND VALIDITY OF PATENTS, PROSECUTE AND DEFEND INFRINGEMENT SUITS, ETC., ETC.

If you have an invention on hand send THE PRESS CLAIMS COMPANY a sketch or photograph thereof, together with a brief description of the important features, and you will be at once advised as to the best course to pursue. Should an infringement on your rights, or if you are charged with infringement by others, submit the matter to us for a reliable OPINION before acting on the matter.
