

shot and killed. CHICAGO, Sept. 30.—A shooting and seriously wounding three men, James McGrath a notorious West Side character, was shot twice and killed instantly by Maxwell street police officers this afternoon. The injured are: Officer Michael Fleming, of the Maxwell street station; shot in the calf of the left leg.

Thomas Beeman, 32 Henry street, shot through the head by McGrath, died later. Edward Jackson, 164 West Eighteenth street, shot in the bridge of the nose.

The first shooting was the result of a quarrel between McGrath and Beeman. The latter was taken to the hospital and only regained consciousness long enough to give the name of his assailant. Officers Fleming and Butler found McGrath on Canal street and accosted him. McGrath turned with an oath and fired point blank at Officer Butler's head. The bullet, however, went wide of its mark and struck Edward Jackson, who was walking on the opposite side of the street, on the bridge of the nose, breaking the bone. McGrath again leveled his revolver and directed it toward Officer Fleming. As he fired the second shot both of the officers discharged their weapons at him and both shots from the officers' revolvers took effect. One of them passed through the desperado's heart, while the other found lodgment under the right armpit. The dead body of McGrath was removed to the county morgue, while Officer Fleming and Edward Jackson were taken to the county hospital.

McGrath was a well known character throughout the West Side. He is a brother of the notorious Jack McGrath, who is now serving a twenty-five year sentence in the penitentiary at Joliet for a burglary which he committed last July.

An Armed Crowd on the War Path. BRAZIL, Ind., 30.—St. Louis and Illinois Central detectives, leading a posse of armed men, scoured the little hamlet of Staunton and the surrounding country last night in search for Joseph Harden, one of the bandits who held up an express train at Centralia, Ill., recently. They surrounded the house of Widow King, where Harden is said to have been stopping. While trying to wait Harden appeared but saw his danger and fled. The officers pursued and a number of shots were exchanged, but Harden escaped. He was tracked to this city and was seen in a saloon, but again escaped. He was tracked to his father's house, but had taken to the swamps, which are now under guard, and they are preparing to starve him out. It is believed that Harden is the planner and executor of the job at Staunton night before last, when an attempt was made to wreck the fast westbound passenger train on the Vandavia.

Harden is unmarried, twenty-five years of age and of good parentage. He was the black sheep of the family from early boyhood. He would fight at the drop of the hat and use any weapon he could secure. As he grew up he became incorrigible and was sent to the house of correction at Plainfield, but he escaped. He committed some crimes and was sentenced to the penitentiary for several years. He is charged with many crimes and should be captured alive no doubt he will spend the remainder of his days behind iron bars.

CINCINNATI, Sept. 30.—At 1 o'clock this morning Joseph S. Harden, believed to be one of the Centralia train robbers was arrested here.

A Narrow Escape. SEDALIA, Mo., Sept. 30.—The incoming train on the Lexington branch had a narrow escape from total destruction at a point eleven and a half miles west of Sedalia at 10 o'clock last night. West of Highsville half a mile is a trestle sixteen feet in length and five high. Between the ties on the east end of the trestle someone had placed a tie so that it projected above the rails nearly three feet. The engine struck the tie demolishing the pilot and doubling it beneath the engine, which was derailed and rolled down an embankment eight feet high, landing on its side, the tender and express car accompanying it, and also the engineer and fireman. The rear cars were not damaged in the least.

A False Alarm. WARSAW, Sept. 30.—A false alarm of fire was given today in the synagogue at Calvary, Neansunwulki. The building was crowded with Jews at worship. All started at once for the two exits and despite the shouts of the rabbi that there was no fire, sought to get out. After a struggle of fifteen minutes two-thirds of the congregation were still in the synagogue. As no fire had appeared they became calmer, and with the aid of the care taken the rabbi eventually restored quiet. Nine dead bodies were found near the exits and twenty persons lay unconscious and bleeding where they had been trampled. Fully 100 persons were injured in the crush. Fifteen are undoubtedly wounded that are likely to die.

Will Resist a Cut. DENVER, Oct. 2.—Upon the arrival today of the proper representatives of the different railroad employees' organizations interested in the federation of the Denver & Rio Grande railroad employees, the question of a general reduction in wages is to be settled. The employees are stubbornly resisting a cut and openly declare that no one will vote for the proposed reduction. This organization has taken the position of resistance.

A New Scheme. WASHINGTON, Oct. 2.—Representative S. B. Cooper of Texas, presented the following resolution, which was referred to the ways and means committee: WHEREAS, In the enactment of all laws, the will of the majority should control, and

WHEREAS, There is divided opinion among the congressmen of the United States now assembled in legislative session as to the will of the people upon the question of the coinage of money by the United States; therefore, be it

Resolved, That the governors of the several states are respectfully requested to request or cause to be held an election in their respective states on the first Tuesday in November next for the purpose of ascertaining the will of the people upon the question of the coinage of money by the United States, and at such election those in favor of free coinage of both gold and silver, without discrimination against either metal, shall have printed or written upon their tickets, "For free coinage;" and those opposed to free coinage of both gold and silver, without discrimination against either metal, shall have written or printed on their tickets, "Against free coinage;" and said election shall be held, and the returns thereof made in accordance with the laws of the respective states, governing the election of representatives to the legislature of said states, and the returns and result of said election shall be submitted to the congress of the United States by the governors of the several states.

It Was a Death-trap. CRYSTAL FALLS, Mich., Oct. 2.—It is probable that the twenty-eight bodies of the victims of the Mansfield mine disaster Thursday night will never be recovered. There has been talk of turning the channel of the Michigan river, as this is the only way the bodies could be recovered, but it would cost thousands of dollars to do this, and the residents of Iron county are not in financial condition to stand the expense.

As the facts appertaining to the condition of the mine become known, great indignation is manifested against the mine owners for permitting the men to venture into the deathtrap, and against the mine inspector for not having caused a suspension of operations. The upper levels had been in a dangerous condition for months. No mining engineer had been employed for over a year and the miners have been digging away blindly and without direction in the bowels of the earth. Erickson, the superintendent of the Mansfield mine, arrived yesterday from Chicago. He is not a practical miner, however, and only a short time ago was driver of a delivery wagon in this town. There will be a rigid investigation and a large number of damage suits will follow.

A Strange Accident. RIPON, Wis., Oct. 2.—An accident occurred at Kingston which resulted in the injury of a score of persons, at least one of whom will die. The funeral of Mrs. Bow, wife of Arsenyambow Bow, who died Thursday, occurred here. The services took place at the family residence and were attended by a large number of friends and neighbors. The house was crowded. The services had hardly been begun when there was a cracking of timber, followed by a crash and the floor of the building collapsed. Under the main department, in which nearly all the congregation were assembled, was a cellar, and into this fully 100 persons were precipitated. When the rescuers had assisted all from the cellar it was found that fully one-third of the number who went down with the floor were hurt, twenty receiving severe bruises and cuts. Mrs. Van-Berg, who was badly crushed and injured internally will die.

Storm of Lake Michigan. CHICAGO, Oct. 2.—The southeast gale which began Friday evening and continued with increasing violence through the night and Saturday, resulting in a long series of wrecks being added to the remarkable heavy roll of marine losses for the present season of navigation on the lakes. The storm seems to have been most severe on the west shore of Lake Michigan, from Racine north to Green Bay. The aggregate of the losses so far reported is about \$65,000. The crews of all the wrecked vessels were rescued without loss of life. Many more crafts suffered minor losses. In fact few of the vessels in the lumber fleet on the lake escaped without dropping deck loads or parting with rigging and canvas.

Looking to Resumption of Work. DENVER, Oct. 2.—The silver mine owners at Aspen have made a proposition to the miners looking to the resumption of work in all the idle properties. When silver is less than 90 cents an ounce for a month the men will receive from \$2.50 to \$4.50 per day, according to the class of work; when silver is 83 1/2 cents, 25 cents a day will be added; when silver is 83 cents, then 50 cents a day will be added. The acceptance of this proposition will give work to 700 men. Over 1,000 returned to work in the Leadville mines recently on the same scale.

Will Resist a Cut. DENVER, Oct. 2.—Upon the arrival today of the proper representatives of the different railroad employees' organizations interested in the federation of the Denver & Rio Grande railroad employees, the question of a general reduction in wages is to be settled. The employees are stubbornly resisting a cut and openly declare that no one will vote for the proposed reduction. This organization has taken the position of resistance.

A General Uprising. NASHVILLE, Tenn., Oct. 3.—There are indications all over the country, especially in the middle states and along the main branch lines of the L. & N. railroad, that a general uprising against P. M. Arthur, chief of the brotherhood of locomotive engineers, is about to take place. In fact the bitterest feeling is being aroused against him, and after thirteen years in the executive chair his head may be chopped off at the annual meeting next winter. So far as the L. & N. railroad employees are concerned, some boldly claim that Arthur and the chief of the trainmen did not give them a fair deal in the recent conference with the L. & N. management. They say that the chief of the trainmen declares that the vote against the cut was not taken according to the provisions of the constitution and that he would refuse to call out his men in case the officials insisted on the cut. It is claimed that Arthur joined him in this action. After the members had held several meetings Arthur and other chiefs, it is also claimed, suggested that the matter of treating with the officials should be left to them. The request was finally granted and the existing agreement followed, although in fact every branch of the service had voted against accepting the reduction. This is one ground of the complaint against Arthur and it is also alleged that he has not acted for the best interests of the men on several occasions.

Aroused a Mob. PITTSBURG, Kas., Oct. 3.—Every since the importation of negroes from Alabama for the mines the negroes have been in the habit of hiring livery rigs and riding about the country. This afternoon several were pursuing the practice and when riding through Chicopee a mining camp, opened fire on nineteen-year-old James Harrison and shot him four times. Marshal Memester and a posse caught the fugitives and lodged them in jail. Large revolvers were taken from them. It is said the attack on the boy was without cause and that the negroes shot as if they enjoyed it. When it was known that the criminals were being brought to Pittsburg a large crowd gathered and it was difficult for the officers to get them to jail. Cries of "Hang them!" "String them up," etc., were heard on all sides, and only the coolness of the officers prevented a lynching. The feeling against the importation of negro miners is greatly intensified by the shooting and there may be trouble before morning. It is reported that the Chicopee miners are coming tonight to lynch the negroes. The jail is being guarded by officers with Winchester.

Dispute Between France and Siam Ended. BANGKOK, Oct. 3.—The final settlement of the questions in dispute between France and Siam were concluded today. The agreement will be signed on Tuesday morning and in the afternoon Le Myre de Vilers, France's special envoy, will leave the city probably for Saigon.

LONDON, Oct. 3.—The Times correspondent in Bangkok says: The draft for the treaty is comparatively satisfactory and embodies the ultimatum, but the convention attached in entirely unsatisfactory. The latter contains terms exceeding and contrary to the ultimatum stipulating that France shall occupy Chantaboon after the original stipulations shall have been carried out and until the left bank of the Mekong and reserved zone shall have been completely evacuated and pacified. Unless France faithfully fulfills the pledges given by M. de Vilers Chantaboon will long remain in the possession of the French. The process verbal accompanying the convention stipulates that France will evacuate Chantaboon as early as possible under the agreement. Siam has agreed to all largely owing to the king's resolve not to sacrifice the Danish officers.

A Terrible Storm. SAN ANTONIO, Tex., Oct. 3.—A special from Querretaro, Mexico, says the town of Japlan, situated in the northern part of the state, was visited by a terrible storm a few days ago, the particulars of which have just reached here. Scores of houses were completely demolished and many people killed and injured. The crops in the pathway of the storm were destroyed and there is much suffering among the people.

Distinguished Foreigners at Denver. DENVER, Oct. 3.—A distinguished party of foreigners are occupying a private car at the Rio Grande depot tonight. They consist of Franz, archduke of Austria and successor to the Austrian throne, Count Wurmbrand, two officers and two friends. They landed at Vancouver several weeks since, and have been hunting and fishing in the northwest. They came down through Yellowstone park, then to Salt Lake, then to this city. They will spend tomorrow seeing the city and on Tuesday resume their journey east over the Burlington.

Fell From His Window. BUDAPEST, Oct. 3.—A sensation was caused here by the strange death of the vice president of the lower house of the Hungarian Diet, Count Andassy Bokros. In some manner, as yet unexplained to the public, Count Bokros was found dead on the pavement below his residence. A second story window was open, and the police are of the opinion that he overbalanced himself while looking out of the window and that he fell into the street and was killed.

Great Anarchist Sensation. BARCELONA, Oct. 4.—Another great anarchist sensation was created here today by the publication of a circular emanating from the anarchists of Calannia, of which province this city is the capital. The circulars in the most heated terms incite the people to rise up and revenge themselves upon the upper and middle classes if the death sentence is carried into effect. The writers call upon the people to use all means to wreak vengeance, and declare that dynamite, petroleum, the dagger and poison should be used, claiming that when the government employs rifles and produces a famine, the anarchists should resort to dynamite and the torch.

In addition to the dynamite bomb found under the palace walls the police have discovered and taken possession of ten dynamite bombs, unexploded, near and in the most prominent buildings of Villa Nueva. These bombs had been lighted and only failed to explode owing to the fact that the fuses were defective.

MADRID, Oct. 4.—It is stated that the supreme council has been notified of the sentence of Pallas and that he will be executed at an early hour Tuesday.

The Valkyrie in Dock. NEW YORK, Oct. 4.—Fully 5,000 people took a look at the Valkyrie in the dry dock today, after the water was all pumped out. Designer Vreeland said: "She's the slickest thing that ever came over here to race, and she will give the Vigilant a great race for the cup. There's nothing to stop her anywhere in her lines and she goes in very fine. But she's an American though, and a good American at that."

There is a great resemblance in her to the Herreshoff models, especially in the shovel-nosed bow. No adverse comment was heard during the day, but on the contrary, her lines provoked universal admiration. The Vigilant had a trial with her new hollow boom this afternoon and the result was satisfactory. Both of the crafts will be measured Wednesday, and it is estimated that the Vigilant will have to allow the Valkyrie over a minute on a thirty mile course.

Ex-Commodore Smith, chairman of the American cup committee, tonight gave a dinner to Lord Dunraven, at which members of the New York yacht club were present.

In the Treasury. WASHINGTON, Oct. 4.—The public debt statement shows a net increase, less cash in the treasury, during the month of September, of \$834,793. There was a reduction of \$408,277 in the cash balance. The interest bearing debt is \$855,037,740, the debt on which interest has ceased is \$1,984,770, and the debt bearing no interest is \$374,374,264, a total of \$961,386,775. The certificates and treasury notes offset by an equal amount of cash in the treasury show an increase during the month of \$4,610,482. The gold reserve stands at \$93,582,172. The total receipts of the government since July 1 have been \$79,379,417, and the expenditures \$98,459,127. In the same time the receipts from customs fell off over \$13,000,000 compared with the corresponding period of 1892, and the internal revenue receipts nearly \$6,000,000. The expenditures for pensions in these three months were about \$350,000, 000 less than the same time last year. The total increase in the circulation of the national bank notes the past year has been \$35,911,254.

Investigating Affairs. ALEXANDRIA, Va., Oct. 4.—There were two strangers here during the last week presenting themselves as newspaper men. Their business seemed to be to learn something of the Burson family, of whom they inquired very closely. They visited the Burson home, which is a spacious old-style brick mansion, two stories high, with a broad hall running through the center, and surrounded by a half square of large shade trees and shrubbery, all inclosed by a high brick wall. They took a good look at the residence and its surroundings. They talked with a number of persons in the vicinity and referred to the affair in Chicago, remarking to one man that they were acquainted with Banker Gage and that he would not hesitate to spend \$10,000 in defending himself against the charges preferred against him by Miss Anna Burson.

A Gastly Find. INDIANAPOLIS, Oct. 4.—Patrolman Beacon made a ghastly find about 2 o'clock this morning in an alley back of a saloon at 33 East Market street. It was the body of a man about 35 years old, who had evidently been murdered after midnight. The skull was crushed and the face was covered with blood. The police think the weapon was a sanbag. The dead man is as yet unidentified. On the body was found a receipt issued by the Germania lodge U. A. O. D. to Christian Boer, and on a fly leaf of a book was printed the name of Taylor Owens. The body was removed to the morgue.

To Investigate the Sugar Trust. WASHINGTON, Oct. 4.—Henderson of Iowa introduced in the house a resolution for the appointment of a special committee of five to investigate and report on the transactions of the sugar trust, with power to sit during sessions of congress, and for persons and papers and to secure the aid of the department of justice, and if the facts warrant, to report a bill to amend its corporate existence.

News From the Conflict. MADRID, Oct. 5.—Further particulars of the fight between Moors and Spanish troops who were engaged in erecting a fort near Mellilla, Morocco, show the fight was of the most desperate character. Three hundred Spanish troops were attacked by 5,000 Moors, armed with Winchester repeating rifles. The Spaniards withstood their charges repeatedly, fighting with the utmost discipline and bravery until their ammunition was nearly exhausted, when they were forced to retreat and at the same time protect the laborers at work on the farm. Again on the retreat on Mellilla the little body of troops seemed about to be overwhelmed by the force of superior number and the fanatical bravery of the Moors, but forming back to back, they fought off their pursuers. They were finally reinforced by a small squadron of cavalry from Mellilla and the most desperate fighting was continued up to the very walls of Mellilla fort, from the rampart of which a continuous fire from rapid firing guns was poured into the pursuing Moors, relieving the stress upon the small body of retreating Spaniards and allowing them to finally get safety inside the fort.

The suffering of the Spanish troops throughout the whole day's fighting, under a blazing sun, without food or water was most agonizing. A number of Spaniards, wounded, whom their companions were unable to protect, were mercilessly butchered by the Moors. It is not known, how many of the Moors were slain as they carried off their dead, but the number must have been great. Eighteen of the Spaniards were killed and thirty-five wounded, some fatally.

The troops at Mellilla are in a precarious condition. As this dispatch is being sent reinforcements are being forwarded from here. Warships will also be sent to Tangiers to demand satisfaction from the sultan of Morocco.

The council of ministers held a long sitting today to discuss the Moorish question. It was decided unanimously that the Moors must be severely chastised for the attack on the Spanish troops. The gunboat Cuero was dispatched to Mellilla. The ship Lelaampi also sailed with troops to reinforce the Mellilla garrison. The latest reports received of the battle say that 100 Spaniards, or about one-third of the force engaged, were hors de combat.

From the Storm. ST. LOUIS, Oct. 5.—A special from New Orleans says: Reports are coming from Plaquemines and Jefferson parishes of damage by the storm of a most alarming character. It is impossible to verify the loss of life reported, but there is no reason to doubt that it is very heavy and that the storm was much worse than around New Orleans.

The worst news is from Bayou Co. whence New Orleans gets its supply of oysters. This is midway between the Barataria bay and the mouth of the Mississippi. Here a colony of oyster fishers numbering 150 is reported to have been totally annihilated, with nearly the entire population killed or drowned. Boats have gone down from New Orleans to the settlement, but it will be impossible to get any news from the relief party before tomorrow.

Later.—The following is a summary of the lives lost, so far as known, up to midnight: Below Barataria bay, 150; at Pointe-a-la-Hache, 4; Empire Mill, 3; Hinges, 2; Daisy postoffice, 5; Pointe Plaquemine, 2; Fort St. Phillip, 1; Casper Smith's; 1; Nichol's postoffice, 3; Fosterling, 4; Grand Bayou and Bayou Shute, 25; St. James, 1; Pemola, 1; Grand Prairie, 4. Total, 206.

Nearly Within Reach of the North Pole. SAN FRANCISCO, Oct. 5.—The United States ship Ranger, which has arrived from Ounalaska, brought the news that Harrison R. Thornton, in charge of the government Indian school at Cape Prince of Wales, was murdered by Esquimaux. It is supposed the murder was committed by drunken Esquimaux, as Thornton has been waging a determined war against the liquor traffic.

The steamer Jeanie, the tender of the Arctic whaling fleet, which arrived from the Herschel islands yesterday, brings the news that Captain Porter of the steam whaler Newport reached 84 degrees north latitude, the most northerly point ever reached by man. The Newport wintered at the Herschel islands and this summer, aided by the open sea, worked her way north while in pursuit of whales to 84 degrees, within six degrees of the north pole. There the ship was stopped. "But it is the opinion that had the Newport been supplied with dogs and sledges the north pole could easily have been reached by travelling over the ice.

Hunting O'Brien's Murderer. MASON CITY, Oct. 5.—Neither of the three men now under arrest, suspected of the murder of Policeman O'Brien, is the party wanted. The chief of the Chicago, Milwaukee & St. Paul road and two special detectives from Chicago arrived this morning and the case has been given over to them. The murderer was about six feet tall, slim, dark mustache, with beard about two weeks old.

Iowa and Missouri Connected. KANSAS CITY, Mo., Oct. 5.—The Missouri and Kansas Telephone company began yesterday to operate a new long distance line which gives Kansas City direct communication with another circuit owned by the company in southwestern Iowa. Fifty-six cities and towns are connected by the circuit, covering one fourth of the states. The line is to be extended to Omaha and Des Moines before Christmas and work is now being done in both directions.

NEBRASKA NEWS.

Westwick has a number of cases of scarlet fever. A new elevator is going up at the brightly town of Brayton.

The Lincoln News is twelve years old. It grows better with age. Grafton's new paper, the Courier, is receiving a liberal support and deserves it.

A volunteer fire company has been formed at Gordon with thirty members.

The farmers of Nuckolls county are sowing bushels and bushels of winter wheat.

The Methodist brethren at Cowles have set about to build a home for their pastor.

North Platte claims to have more secret societies than any city of its size in the world.

The new water works at Gordon have been accepted by the city council after a satisfactory test.

The companions of Harding, the Nuckolls county horse thief, have made good their escape.

Sneak thieves are doing a rushing business in a small way at the prosperous town of Bloomfield.

The Custer County association will meet soon to devise plans to mitigate the evils of the hard times.

The residence of Ellis Shang at Denton was entirely destroyed by fire, but the household goods were saved.

Arcadia boasts of having the largest stock hog in the state. It weighs 900 pounds and belongs to the great Berkshire family.

The Methodist and Presbyterian of Stamford have joined forces and established a union Sunday school. This is a county of the standard brand.

A. J. Arnold, who has been a resident of Columbus more than thirty years, left Tuesday with his family for the Pacific coast. He will settle at Carlsbad, Cal.

J. J. Sidell, from Illinois, has purchased a ranch of 800 acres near Culbertson and will make Nebraska his home hereafter. He was driven from Illinois by the dry weather.

While J. R. George of Shelton was cutting wood in his back yard the ax struck the clothes line and rebounded against his face, cutting a gash that required several stitches.

Eagle has a flourishing lodge of Good Templars composed of people who are total abstainers. In some parts of the world Good Templars have been known to mix a little in the water they drank.

The town of Gandy, Logan county, is without a physician, and in case of sickness must send twenty-five miles for medical assistance or run the chance of getting well on thoroughbred tea and such stuff.

The Fremont Tribune offers a Webster's unabridged to the school in Dodge county showing the highest attendance and punctuality for the term, and the teacher will be given a set of Waverly's novels.

Ken Harding, tough character, who has made his headquarters at Superior is in jail at Red Cloud and has confessed the stealing of a horse belonging to Mr. Jones of Guide Rock. As other horses are missing in the neighborhood he is thought to be one of a gang and the authorities are after the other fellows.

H. Hartley, a farmer living seven miles southwest of Pawnee City, has just received notice of his mother's death in Bolton, England, and that a legacy of which the first payment is \$500 sterling, has been left to him. He left for England to see to the settlement of the estate. There are eight children in the family.

Last winter the members of the Methodist church at Pawnee City were given a dime savings bank, this means being taken to raise the debt of the church. The other night a social was held at the church and the banks were opened and found to contain over \$500, all in dimes. This enables the new pastor, J. H. Preston, to step into the church free of debt.

The College of law connected with the State University, opened on Saturday with a very favorable outlook. Hon. W. S. Strawn delivered an interesting address on "Students and Lawyer," in the chapel, before a large assembly of students. On Monday morning the several classes took up their work. The attendance is constantly increasing, and the outlook is very encouraging.

John McDonald, who returned from Mullen last week, informs us that the gray wolves in the vicinity of Mullen are giving the farmers and ranchmen considerable trouble by killing their cattle, says the Broken Bow republican. One ranchman by the name of Smith, within a few miles of Mullen, had seven cows killed since Sunday by the wolves, and a number of others had lost cattle the same way. The wolves have become very numerous and bold, and instances are related of them attacking horses. The stockmen are offering \$10 reward for a gray wolf scalp.

One of the richest watermelon jokes we have heard this year emanates from the vicinity of Rule. A fellow named that unlucky town was guarding his watermelon patch by day and night and one evening he thought he saw a molen thief moving about in the patch and he raised his trusty shot gun and fired upon the intruder. When the smoke cleared away and the fellow went to see who he had killed he found the likeliest body of a calf belonging to his barnyard.
