ka, greeting: Observing a revered institu se preclamation of the president of the d States, I do hereby appoint Thurs riving and prayer throughout this state. With that sense of gratitude which should With that sense of gratitude which should more a people who, during the year now drawing to a close, have been favored with plentiful crops and an absence of storm and pestilence, let us cease from business on that day and, with one accord, "Offer unto God thanksgiving and pay our vows unto the Most High."

In testimony whereof, I have hereunto set my hand and caused to be affixed the great al of the state. plurality will reach 11,000. The exact figures will not be known until the official count is made.

It is reported that the downfall of the Gladstone administration is one of the possibillities if not a probability of the mear future. While the people of England have had great confidence and respect for the grand old man, yet time brings changes which it is hardly likely that the aged statesman can accomadate himself to.

It is stated that upon the report of those sent to investigate the condition of affairs at Hawaii that Secretary Gresham has reported in favor of the re instatement of the deposed queen. It may be that a vote of the people of the ands will be recommended in order to better obtain their views and desires roing the government under which they are to live.

The action of Congressman Bryan in them: Handsomely bound copy the late election is said to have been such that he has forever killed himself Drummond's Addresses, and the Journal, with the democrats of the state. The result of the recent election is interpreted in different ways by many s of the various parties. The fact that the ways and means committee of congress has decided to reconsider the to that body is pretty clear proof that the members consider the returns as indicating that the people of this nation are not ready for free trade and do not want the tariff tinkered with to any extent for they have witnessed what effect even a prospect of free trade had on the business of the pation and that is enough to entialy them. The result in Nebraska will have a tendency to prevent any adse legislation on the sugar industry and that will be a great thing for the ate. It is considered to be the worst bules ever given to an administration se the government was established. tration will now be very to use every effort possible to regain the following it has lost and in its work for that object it may do something which will benefit the country.

The course pursued by Rosewater in

The signs of the times point to Me Kinley as the candidate of the republi can party for president in the campaign of 1896. In the recent campaign Ohio Neal, the democratic candidate against McKinley, declared the contest to be national and the people of the Buckeye state seem to have taken him at his word and voted in a manner that showed that they prefer the principle represented by McKinley to those represented by the dominent party in the nation. With McKinley as leader in 1896 the party would march to victory.

An Old Friend.

In a series of interviews with members of the last congress, 31 out of 43 remarked that they were readers of the Youths Companion. For definite and trustworthy information on the question of the day it is really unique, while the high character of its stories, the wide fields covered by its special articles, and its contributions from the most famous writers in Europe and America, are well

Its program for next year seems brighter than ever. Some of the important stories are: "The Deserter," by Harold Frederic; a Tale of the Great Mutiny in India, by Sara Jeannette Duncan; several Romances of the Sea, by W. Clark Russell; Tales of the War, and of the Frontier in Early Davs. Hen ry M. Stanley contributes two thrilling narratives from Darkest Africa, and Archibald Forbes writes of his "Closest Call." Naval Battles are described by Admirals, and Military Life by Generals, Then there articles on Choosing an Occupation, Boys Who Should Not Go to College, Physical Training, Recreations of all kinds, and many other practical

Another pleasant feature is the charming picture of a young lady of colonial times, "Sweet Charity," reproduced in colors from a painting by Ferris, which is presented to all subscribers who send \$1.75 for a new subscription or a renewal.

NOTICE TO INVENTORS.

There never was a time in the history of r country when the demand for inven ions and improvements in the arts and sci onces generally was so great as now. The conveniences of mankind in the factory and work shop, the household, on the farm, and to the appurtenances and implements of each in order to save laker, time and expense. The political change in the admin-stration of government does not effect the progress of the American inventor, who be ng on the siert, and ready to perceive the existing deficiencies, does not permit the existing denoisnels, does not permit the affairs of government to deter him from quickly conceiving the remedy to overcome existing discrepencies. Too great care can not be exercised in choosing a competent and skillful attorney to prepare and procedute an application for patent. Vainable interests have been lost and destroyed in incumerable instances by the employment of incompeters counsel, and especially is this advice applicable to those who adopt "No patent, no pay" system. Inventors who entrest their bosiness to this class of attorneys do so at immenent rick, as the present and attength of the patent is never considered in view of a quick endeavor to get an allowance and cotain the fee then dec.
