Corrected every Thursday.

—A good span of mules for sale. Inquire of E. A. Bigelow, Harrison, Neb.

—Old papers for sale at THE JOURNAL office. 5 cents per dozen.

—Dr. Phinney reports the arrival of a son at the home of Jack Riederhoff on Tuesday.

—If you want to sell your land, list it with Simmons & Smiley, real estate agents.

—160 acres adjoining Harrison for sale at a bargain, if taken soon.

SIMMONS & SMILEY.

—All kinds of wood work done at Priddy's blacksmith shop, opposite THE JOURNAL office.

—Jack Bogart will live on the McCrea place until he gets his own house completed.

—A wedding is arranged to take place near Bodarc today but as we go to press a little early we cannot give particulars.

—While returning from the country Tuesday night one of Dr. Phinney's horses was taken sick and died in a few minutes.

—Take out a policy in the Preferred Mutual Accident Association. It is cheap and reliable. L. J. SIMMONS, Agent.

—Postmaster Marsteller's little girl has been struggling with an attack of something bordering on lung fever, but is better now.

—The near approach of Thanksgiving leads us to remark that a nice fat turkey or goose for that occasion would be appreciated by THE JOURNAL family.

—Samuel Jenkins, practical boot and shoe maker. Cowboy boots a specialty. Repairing promptly and neatly done. Satisfaction guaranteed. Shop second door south court house.

—Dr. J. S. Romine, dentist, of Chadron, Neb., will personally visit Harrison, professionally, in the near future, and notice of the exact date will be given later. He will have with him every pain and labor device known to the profession. Dr. Romine is well known to many of our people and has done work for some of them so that his ability is established.

—We are in receipt of word from Iowa that a good many new settlers expect to come from there to Sioux county next spring. The people in the east have become very tired of the fun of paying high rent and then getting little or no crop and have determined to come west and take their chances with the rest of the pioneers. In this country if but little is raised it does not all have to be given to the owner of the land for rent.

—On last Sunday THE JOURNAL family spent the day with Mr. and Mrs. E. E. Livermore at their home a few miles southwest of town. The owner has not made much fuss about it but has been at work and has fitted up one of the most comfortable places in this locality. He has almost all his buildings of logs and they are models which other settlers would do well to pattern after. The house is the best constructed log building we have ever seen and must be seen to be appreciated. The stables, granary, tool house and sheds are also built of logs and put up in a workman-like manner. A good well and windmill are items not to be overlooked and of late he has been preparing to engage in the poultry business quite extensively. A large, well arranged house has been built connected with yards covered with wire netting to prevent hawks from capturing the fowls. An incubator and brooder are used and a large number of chickens were raised for market the past season. He intends to add a fine quality of ducks to his stock the coming season and says that he now has his arrangements so that he can raise poultry at a profit. Among his stock at the present time are about two dozen geese which will not raise a neat profit when sent to market.

—Remember that THE JOURNAL office is headquarters for job printing.

—The county board was in session on Tuesday and Wednesday and put in most of the time on road matters.

—On account of the sickness of his children Rev. Kendall was compelled to close his meetings at Pleasant Ridge. At last accounts the little ones were improving.

—It is passing strange how some people oppose anything which would benefit those for whom they have professed such great interest in just as soon as they find that they cannot run everything just as they please. Such actions show the calibre of a person.

—On last Saturday Joseph Parsons brought us a load of wood to apply on us subscription and remarked that he had brought "black wood" this time as he was in mourning over the defeat which the democrats in the various states sustained on November 7th.

—From what can be learned a number of our farmers will try alfalfa next season. If it does half as well here as it has in other places it will prove a saying crop. It is hoped that many will experiment with it next season and then they will know just what it will do.

—The interest in the creamery project is growing right along. There is scarcely a day in which some of the farmers do not inform us that they are making arrangements to get more cows as soon as it is certain that a creamery will be erected. They know that it will be a good thing for them and for the entire community.

—The Norfolk sugar factory has worked up 16,000 tons of beets this season and made 3,000,000 pounds of sugar. Eight thousand tons of beet are now on hand to be made into sugar, which will keep the factory running until about Christmas and will make the output of the factory this season about 4,500,000 pounds of sugar. That is quite a lot of sweetening.

—The editor of THE JOURNAL expects to start in a few days for the eastern part of the state where he will meet V. A. Hester and together they will try and get the creamery matter in some shape so that the people of this locality can have some definite proposition to act on. It will not be long until it will be settled one way or the other and as soon as possible the whole plan will be given in the columns of THE JOURNAL.

—On Tuesday W. S. Johnson brought us fifty pounds of the cheese made at the factory conducted by himself and sons at Glen. They have had a very successful season and have disposed of all the cheese they made and have orders for hundreds of pounds which they cannot fill. The firm has built up a reputation for making a superior grade of cheese and people appreciate good things.

—This is admitted by all to have been a pretty poor year, but it seems that all did not make a failure. Henry Covey came here last spring and located on his homestead east of town and has been busy there the most of the time. He has been in town but twice in nearly two months and says he has not got his work near done yet. He has built a neat and comfortable house, had a well put down and a windmill erected and raised a crop. In that line he has to show for his work 150 bushels of oats, 140 bushels of potatoes, 20 bushels of buckwheat and 100 bushels of corn, which yielded 30 bushels to the acre and got fully ripe, so that is pretty good evidence that corn can be raised on the table. In addition to the above mentioned Mr. Covey had a lot of cabbets, turnips and other truck so that taking it all around he has done very well. The place he farmed last year in the east part of the state yielded fifteen bushels of corn to the acre so he thinks he is ahead by having come to Sioux county, even if the past season was a poor one.

—The farmers are getting more and more interested in the creamery matter as they inquire and learn of how it works and the benefits which they will derive from an institution of that kind. Almost every one who is talked to expresses the hope that it will be secured and agrees to furnish the milk from a number of cows. Of course there are some who know something of the work of the old style creameries who do not take kindly to the plan and there are some who try to discourage it because they are mad. The latter are not worth any notice and the former class as soon as they learn of the improvements that have been made and how remunerative it is to the farmer take a different view of it. It is quite likely that the matter will be definitely settled before the first of the year so that all will have an opportunity to prepare to derive benefits therefrom. In discussing the matter a few days ago a gentleman who has had

a good deal of experience with creameries informed us that in a locality where he formerly lived cows were selling for twenty dollars when there was no creamery. An establishment of that kind was put in operation and in three months the same class of cows were in demand at thirty dollars a head, and the capacity of the creamery had to be increased after the first season. If it did not pay the farmers such results would not follow.

PERSONAL.

Miss Anna Price was in town Saturday.

Miss Minnie Crane came up on the train yesterday morning.

J. W. Sherrill gave us some cash on subscription Monday.

C. L. Phillips, of Bodarc, was in Harrison Monday and called to see us.

B. E. Brewster called for a short chat while in town the first of the week.

Misses Wanda and Myrtle Pontius returned from Omaha yesterday.

Mrs. E. Rohwer and children spent Sunday at Crawford with friends.

Attorney Daily, of Crawford, was doing business in Harrison Friday.

C. W. Smith was visiting his sister, Mrs. J. E. Marsteller, the last of the week.

Mrs. Davis, mother of Superintendent-elect Davis returned from Alliance on Tuesday.

John Minehart was in town Monday. He has not fully recovered from his recent sickness.

The name of C. H. Taylor, Minneapolis, is ordered added to our list of readers.

The editor and his wife went to Glen last Friday evening and visited Mr. and Mrs. Thomas Devenport.

Mrs. D. H. Griswold's mother and sister arrived from the east yesterday and will make an extended visit.

Mr. and Mrs. L. Gerlach returned yesterday from Iowa. Their little boy is greatly improved in health.

THE TOLEDO WEEKLY BLADE

And a Book Containing all the Nasby Letters for One Dollar.

In answer to a general demand from all parts of the United States the Toledo Blade has published in one volume, cloth bound, all of the "Nasby Letter" ever written by the late D. R. Locke, omitting perhaps a few unimportant letters on local or forgotten topics. Only a few of these letters were ever published in book form. Every body has read some of them, but who has read all of them? The book contains over 500 large pages, and all the Nasby Letters written during a period of twenty-five years; also a portrait of D. R. Locke from his last photograph. It will sell at one dollar or more, but will never be placed on sale. One hundred thousand copies are now being printed and bound, and one copy will be sent postpaid by mail free to every person who this winter remits one dollar for the Weekly Blade one year. Every body invited to send for a specimen copy of the Weekly Blade, when will give a full description of the book "The Nasby Letters."

The Toledo Weekly Blade is the best and most popular weekly newspaper published in this country. It has the largest circulation of any weekly newspaper, and goes to every state, territory and nearly every county in the union. Only one dollar a year, including the above mentioned book free. Send postal to the Blade, Toledo, Ohio, for a free specimen copy of the paper. Send the addresses of your friends also.

PATENTS

FOR INVENTIONS

PROCURED BY THE

Press Claims Company.

Equal with the interest of those having claims against the Government is that of INVENTORS, who often lose the benefit of valuations because of the incompetency or inattention of the attorneys employed to obtain their patents. Too much care cannot be exercised in employing competent and reliable solicitors to procure patents, for the value of a patent depends greatly, if not entirely, upon the care and skill of the attorney.

With a view of protecting inventors from worthless or careless attorneys and of seeing that inventions are well protected by valid patents, THE PRESS CLAIMS COMPANY has retained counsel expert in patent practice and is therefore prepared to

OBTAIN PATENTS, CONDUCT INTERFERENCES, MAKE SPECIAL EXAMINATIONS, PROSECUTE REJECTED CASES, REGISTER TRADE MARKS and COPYRIGHTS, RENDER OPINIONS as to SCOPE and VALIDITY of PATENTS, PROSECUTE and DEFEND INFRINGEMENT SUITS, ETC., ETC.

If you have an invention on hand send THE PRESS CLAIMS COMPANY a sketch or photograph thereof, together with a brief description of the important features, and you will be at once advised as to the best course to pursue. Models are not necessary unless the invention is of a complicated nature. If others are infringing on your rights, or if you are charged with infringement by others, advise the matter to us for a reliable OPINION before acting on the matter.

THE PRESS CLAIMS COMPANY,

616 F street, northwest

P. O. Box 466.

WASHINGTON, D. C.

JOHN WADSWORTH, managing attorney.
