THURSDAY, NOVEMBER 22, 1884

The Hemingford Guide makes a roar about Daugherty being knifed by Kaykaid's friends in Holt and lawes count ies. The official records of the votes do not show that any such work was done It costs pothing to be fair in these matters and nothing is gained by engendering hard feelings between different parts hand. of the district.

The decision of the administration to certain extent but the relief will be but temporary and then the condition will is needed is that every effort be made to able and entertaining reading of a characbe exported and make the balance of trade with Europe once more in tayor of this country. That will cause the stream of gold to come this way.

It is reported that Daugherty will contest Kem's title to a seat in congress. The grounds on which the action is based are not given, but it is hoped that unless there are good reasons for it that no fight will be made. The same should govern in the matter of governor. If Holcomb was fairly elected he should not be disturbed. A groundless or purely partisan contest would do no good but much harm. Of course, if fraud or crooked work caused the returns to appear different from what they should an investigation should not be opposed, especially by those who are leaders of a party whose chief claim is that it is for

Of all the unreasonable things in the line of politics that has occurred in this state is the attempt the make a senatorial candidate of Tom Majors. It is true he has many warm friends who are wore over the result of the election and who would like to see their hero avenged, but there are others whose rights are entitled to be respected. The fight on the senatorial question was squarely made between Thurston and Bryan and the complexion of the legislature-elect is clearly in favor of the former. The republican

will consider that it will be a great step if they belp prevent the recurrence of such conditions as now exist in many portions. Two things can be done which will go a long way in that direction. One is to make good irrigation laws and provide for experiments for artesian wells.

The total property of the many branks, property of Rosetta M. Mason (deceased).

It is therefore ordered: That all persons interested in said estate appear before me at the above time and place and show the publishers invite any person to send in a long list of addresses to whom they will mail sample copies. They would be debts of the estate and expenses.

Dated Nov. 16, 184.

[11-16]

ALFRED BARTOW,

Junge of the District Court.

K. W. Date. vide for experiments for artesian wells and the other is to provide a liberal bounty on beet sugar, such bounty to be paid to the grower of the beets. As the morthwest districts are represented by an Notice for Presentation to and Hearing element opposed to such things the proper steps should be taken by those who have been elected from other districts. but whose range of vision and thought extends beyond themselves.

To any one who carefully surveys the existing conditions in the United States three things become very evident. 1. That there is a feeling of unrest among the people never before known. 2. That it will require careful and bonest effort to overcome the difficulty. 3, That the remedy must be outside of odition! lines.

The first condition noted seems to be, to a very great extent, chargable to the mancial condition, but this is greatly augmented by the general business deression which has prevailed for about two years. In the past the great politi-

mes beckers adjust themselves to any hedry advanced for the relief of the about if it appears to them at all likely which them to get into office, and to have in their official heath they foran about their promises in their of laying plans to be returned to

The above also applies to a great ex-is to the third proposition, for the most given show that it will be alappearable to bring about the

personal preferment of more importation than public good " this nation there has now observe a choice and it may entite exist report me which has not developed a man equal same to this office at once. to the requirements and it is safe to say that it will not be long until some one will be found to take the lead and guide the nation out of the slough of despond in which it has been for some time, and he will not be a man who has been seeking office either. There never was a time when the demand has been greater than now for men who have the ability to grasp the situation and who are not bound by any political ties or aspirations to band themselves together as philanthropists and bring about a condition of affairs which every fairmended and humane person desires to

The Prospectus for the volume of 1895 announces an unusual array of attractions; fourteen serial stories, a wealth of short stories, anecdotes, humorous sketches, adventures, science and home articles, timely editorials on all important questions, and more than two hundred original poems of the highest class.

Full Prospectus and specimed copies sent free on application. New subscribers who send \$1.75 now vill recieve the paper free to January 1, 1893 and one year from that date. It comes every week. Finely illustrated.

The Youth's 'ompanion, Boston, Mass.

The Tolede Weekly Blade.

Of the now nearly twenty thousand regular publications in the United States there but two or three weekly newspapers published for general circulation in every state and territory, an of these the Toledo Weekly Blade is the best and most popular of them all. It is the oldest, and best known, and has the largest circulation. For more than twenty-five years it has been a regular visitor to every portion of the Union, and it is well known at every one of the sixty thousand odd post offices of the country. It is made especially for fami-ly reading. It gives the entire news of the world each week, in such condensed form as will save reading scores of pages of duly papers to get less information. Republican in politics, temperance in principle, always on the side of justice and right, it is just the paper for the When the legislature convenes and lakes up the question of making provision for the drouth-stricken portions of the state, it is hoped that the members will consider that it will be a great step if they help prevent the recurrence of such conditions as now and the state of the state, it is the recurrence of such conditions as now and such cond the price is only one dollar a year. Address The Blade,

Advertising matter and full informaion about trains and rates on application. J. Francis, G. P. & T. A. Omaha, Neb.

Always A Reason Why.

This has been a year of wonderful growth for the Lincoln State Journal. Its aggressive methods have pushed it to the front. One thing that accounts for this is The Journal's principles. It is republican, 'true and blue' but first of all it is a great newspaper and considers news the essential feature. It prints more state telegraph news than either of the Omaha papers. The business interests of the state recognize in The Journal the only state paper which is standing up for the welfare of Nebraska. You can see how The Journal is growing in your own town. It is gaining in every other town in the state just as Contains over forty-five miles of much. The reduced price is only 50 cents per month without Sunday, or 65 cents per month with Sunday. This also accounts for the big growth. The semi weekly Journal has the largest circulation of any Nebraska paper. It has completely routed its old-fashioned oncea-week rivals. It is being sent from now until January 1st. 1896, for \$1.00. This carries readers through the coming legislature and through the next presidential campaign. It gives readers two complete papers each week for the price of one. Gov. Furnas is farm editor, and 1. L. Lyman, poultry editor. -It is published at the state capital and is a paper for Nebraska.

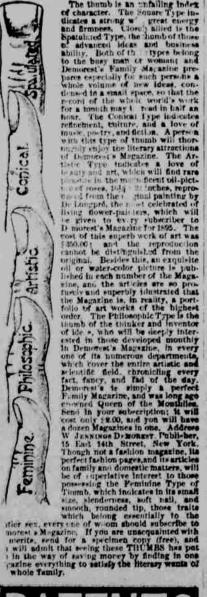

Just From the Press.

A very attractive publication has past been issued by the passenger department of the Burlington Route. It bears the title "The Newer North-west" and describes in a most interesting and readable fashion those portions of northern Wyoming and the Black Hills of South sakota which are reached by this company's lines.

The scenery, towns, mines, people and industries of these two remarkable sections of country are treated of with absolute fidelety. 200 pages with illustrations, sent on receipt of 10 cents in J.FRANCIS, G.P.& T. A.
