Important Notice.

A polite but firm intimation has been received from the county treasurer by the publisher of THE JOURNAL to call and settle some delinquent taxes. To do that cash is needed as the county treasurer will not take wood, garden truck, etc., in payment of taxes. THE JOURNAL has hundreds of dollars due and when a demand is made for settlement of our debts we must pass the demand along, and we hope that those indebted to us will bring or send in the amount due without further notice.

Largest Circulation in Nebraska.

It isn't much wonder that the State Journal now has the largest circulation in Nebraska. It has reduced its price to 65 cents a month with Sunday, or 50 cents without Sunday; it has been spending more money for Nebraska than any other paper; it has on its staff such men as Bixby, Walt Mason and Annin. The Journal is being pushed at every point and is climbing steadily and surely away ahead of the other state dailies. People like a Lincoln paper. Especially when it is as good as the Journal.

NORTH NEBRASKA.

Sioux County,

THE LAND OF THE HOMESTEADER.

Free Homes for More Than 5,000 Men.

A new county with schools, churches, railroads, etc.,

AND 800,000 ACRES YET OPEN TO HOMESTEAD ENTRY.

Contains over forty-five miles of railroad and has no county bonds.

NO BONDS, NO DEBTS, LOW TAXES

Fuel, Posts, Logs and Lumber Cheaper Than at any Other Place in Nebraska.

Sioux county is the northwest county of Nebraska. It is about thirty miles east and west by about seventy miles north and south and contains

OVER 1,300,000 ACRES

of land. There are more bright, sparkling, small streams in the county than can be found in the same area elsewhere in the state. It has more pine timber in it than all the rest of the state combined. Its grasses are the richest and most nutritious known so that for stock-growing it is unexcelled.

The soil varies from a heavy clay to light sandy loam and is capable of producing excellent crops.

The principal crops are small grain and vegetables, although good corn is grown in the valleys. The wheat, oats, rye and barley are all of unusually fine quality and command the highest market prices.

The water is pure and refreshing and is found in abundance in all parts of the county.

The county is practically out of debt and has over forty-five miles of railroad within its borders, has a good brick court house and the necessary fixtures for running the county and there has never been one dollar of county bonds issued and hence taxes will be low.

The Fremont, Elkhorn & Missouri Valley railroad crosses Sioux county from east to west and the B. & M. about fifteen miles of its line in the northeast part of the county.

The climate is more pleasant than that of the eastern portion of Nebraska.

There is still

OVER 800,000 ACRES

of land in Sioux county yet open to homestead entry. It is better located and more desirably located than that which such rushes are made on the opening of a reservation. There is no good land in the county [illegible] reason its settlement has [illegible] no special effort to get settlers made, as was done in the [illegible] the settlement of the eastern portion of the state.

Good deeded land can be purchased at reasonable rates with government land adjoining so that a person who wishes more than one quarter section can do so if he has a little means.

There are about 2,500 people in the county and there is room for many more.

Harrison is the county seat and is located on the F. E. & M. V. railroad and is a good [illegible] as the county seat [illegible] is almost every settlement [illegible] kept up with the times.

All who desire to get a homestead or buy land cheap are invited to come and see the country for themselves and judge of its merits. Homesteads will not be obtainable much longer and if you want to use your right and get 160 acres of land from Uncle Sam free it is time you were about it.
