The beet sugar crop this year in Nebraska amounts to 85,000 tons. It is the most profitable crop that a farmer can raise, making him all the way from \$40 to \$60 per acre.-Atkinson Graphic.

A pop paper down the road says Maxwell has declared himself in sympathy with all of the "criminal" principles of the populist party. The testimony of the witness is not rebutted .- O'Neil! Frontier.

The Chadron Recorder intimates that the home of H. G. Stewart is still in Sioux county, although he is running for office in Dawes county. Sieux coun ty has had about her share of bad repu tation to bear and if the Recorder per sists in its attempt to shove Stewar back onto Sioux county there may be need for chadron's soldiers to be called out. There are some things that even Sioux county cannot stand.

Alfred Bartow, one of the judges o this, the 15th district, and a candidate on the republican ticket for re-election stopped in Norden last Wednesday night on his way from Springview to Valen time to finish the term of court at the latter place. Judge Bartow has shown himself to be among the foremost judgeof the state in his knowledge of the law and the impartial manner which char acterizes his rulings, and we believe the voters in this district will declare in favor of such a man, 'as against one whose competency is unknown .-- Norden Borenlin.

It is toported that the fight latween brbett and Fitzsimmons has been declared off. The governor of Arkanas declared that the fight should not take place within the borders of that state. and the general sentiment of the people throughout the country, outside the tough element, is being expressed as - Editor. opposed to the fight. It is hoped that prize fighting will be prohibited in the United States.

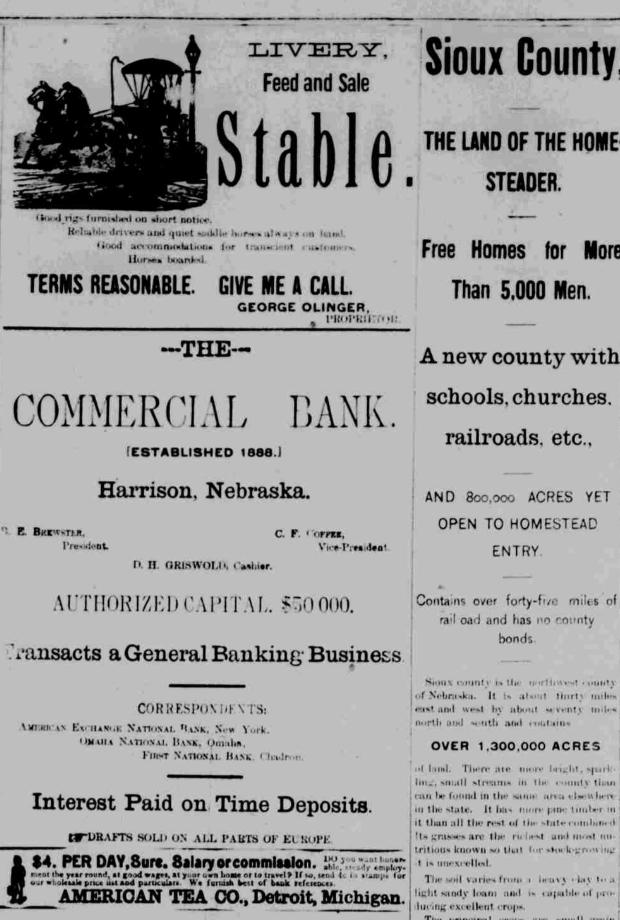

> It is reported that the death rate at the penitentiary has greatly increased since the present warden has been in charge, and that of all the applicants for the position of superintendent of the fish hatcheries not one has ever studied or prepared himself in any way for the position. Such things emphasize what THE JOURNAL suggested last week -that all such institutions should be under the control of a civil service com-Inteston.

There is entirely too much politics in our state institutions. A change is made, perforce, in the head of an institution, and at once the new head begins a cleaning out of people who are particularly useful through experience, and begins to cripple the institution by putting in political favorites regardless of experience or litness. That is what the new superintendent of the blind institute at Nebraska City is doing. It is an evil that ought to be remedied .- Kearney Hab.

The supreme court declined to grant the petition of the Bryan wing of the democratic party which sought to obtain an order restraining the secretary of state from placing the names of the nominees of the administration wing of the party on the official ballots followed by the designation of "democrat". The esult is that the nominees of both demoratic conventions will go on the official pallots with the same designation. The ourt held that it could not go back of the conventions under the present law,

It seems generally admitted that the fact that the democratic judicial conven tion at Chadron declined to endorse Westover and Golden is indicative that the democrats will throw their votes to Bartow and Kinkaid. The democrats do not seem to have much use for the political jumping-jacks who desert their party and go around denouncing it and telling low rotten and corrupt it has become, and then when they have secured the contraction for some important office ney come to their old party and tell nat they believe the same as they alays did and seek to get an endorsecent. it is too much like Maxwell execting middle-of-the-road pops to vote a ham when he declines to even atempt to climb onto the pop platform, a the vain hope that by such a course ie will get the support of both the republicans and pops.

Chadron is still after a sugar factors and now has a name on the string wh says he has sufficient money at his conmand to build and operate a sugar fail tory, and now hauron has to hustle to the bonus. The man visited circuiro some time ago and saw the bests snut ing in the fields and talked with the nu growing them and he then went allthe money and he proposes to pa unough money in the Chadron banks i settle the question of capital as soon a the people come up to their agreement It is boped that this attempt will result fetter than the one hast year.

On last Friday Judges Bartow and Ginkaid were in Harrison and met : number of the people and the forme. vas here on Saturday also. By reason of the letters sent here announcing their stended visit having been worded differ atly than they intended they though int either Friday or Saturday was the trangement. Judge Kinkand had as ppointment for Maturday evening at Hay Springs so he could not remain over Both are so well-known that there is tittle need of campaigning, and the size of the district is such that it forbidmore than a short visit at the numerous inwas which can be reached by rail. The 13th judicial district is about 350 miles long and a number of the counties have a pailmade and when that is considered can realize that but little time so be spent is each place. The records to by these two judges during the in that they have been on the bench such that the people know that with dges each litigant will get to the law and they the that to out, no matter what , social, motal, financial or will mand any better or worse courts over which they preside and well in the maptence court, of their work. The reports from the seal the for as are that anty will do the full share is Sin viertice of Bartow

The people of the 15th judicial district ppreciate Hon. M. P. Kinkaid and Hon. Alfred Bartow for their ability, fairness and fine sense of honor by renominating them for judges. No two men in the district can develop the strength at the them for judges. No two men in the polis that they are certain to receive the oth of November. We most heartily ndorse the nominations, and with our rescribed version, there are no better and in the district.

tion. M. P. Kinknid, of O'Neill, and dired Bartow, of Chadron, bave been commated for judges of the 15th district. uese honorable gentlemen have a great umber of warm friends in the district. ad are undoubtedly the strongest men oat could be nominated by the party ud will therefore be elected. They can ommand a following that no other two in in the district could hope to do. ney have the confidence of the people ecause they have never betrayed their onlidence. They are men of a pure baracter and a clean political record. a point of fitness and ability their sernces on the bench have already shown heir qualifications for the positions. the "Twin Papers" can support them with the same seal they have hereofore

The Fremont, Elkhorn & Missouri Valley railroad crosses Sioux county from east to west and the B. & M. has about fifteen miles of its line in the ourtheast part of the county.

The climate is more pleasant than that of the eastern portion of Nebraska. There is still

of land in Sioux county yet open to nomestead entry. It is better land and more desirably located than that for which such rushes are made on the open ing of a reservation. There is no railroad land in the county and for that reason its settlement has been slow for no special effort to get settlers was made, as was done in the early days of the settlement of the eastern part of the state.
