The last issue of the *Nebraska Editor* was the best one of its existence. It is making itself indispensable to the fraternity.

Two weeks from to-day is the day set apart for giving thanks and now is the time to look up what you have to be thankful for.

When a man starts in to do up every one whom he cannot compel to do his bidding he is apt to find that his business in that line increases the longer he works at it and in the end he will be buried.

H. G. Stewart met his Waterloo in Dawes county on election day. He worked the voters of Sioux county until they got onto him and then he moves into Dawes. Last year he worked the voters of that county but this year he let him down. He will now most likely move to Sheridan county. He would be more at home, however, should he take up his residence in Holt county.

The investigation of the gold fields recently discovered near Milford in Seward county has resulted in their being pronounced as immensely valuable. It is singular fact that the find is located on the old trail across Nebraska to the gold-fields of the west and that thousands of gold-hunters have passed over without dreaming of the existence of the precious metal there.

The later returns from the election confirm what was said in THE JOURNAL last week with the exception of the result in the case of Judge Bartow, who was defeated by Westover by eleven votes. The republicans elected supreme judge and regents and made a gain of a number of district judges. The defeat of Bartow cannot be claimed as a victory for the populists, but the result of disappointed litigants who saw a chance to get even to the extent of voting against the judge who presided.

The West Union (Custer county) Gazette, a popular paper edited by Jim Woods, calls on O. M. Kem to resign the office of congressman, and urges the people of the district who elected him to circulate a petition requesting him to let go of his \$5,000 a year job. It would be a good thing if such an object could be accomplished, as a vacancy is preferable to a vacuum, but it would be hard to find enough men who would plead guilty to having voted for Kem to make much of a showing.

Our neighboring counties of Box Butte and Dawes furnish some very good illustrations of how little party ties held in county matters at election. In the former the republican candidate for county judge was elected by 235, while the democratic nominee for superintendent received a plurality of 185, thus making a difference of 420 votes. In Dawes county the republican candidate for clerk was elected by a majority of 390 and the populist nominee for superintendent had a majority of 245, making a difference of 635 votes. The Australian law makes it so that the voters do very much as they please when they make out their ballot.

Ever since Sioux county has been organized it has had a reputation for its political tactics but be it said to the everlasting shame of the creatures who resorted to it that the campaign just closed contained work of a lower, more despicable character than any of its predecessors. There is no occasion to mention names or go into details but let those who engaged in the ghastly methods read their condemnation in the verdict of the voters, and let them realize that their dirty work was repudiated by decent people and when they meet those against whom their hell-born tactics were directed let their faces crimson to the consciousness that the work of which they are guilty brands them as being too low to be worthy to be called men.

A complete and immediate revolution of transportation methods, involving a reduction of freight charges on grain from the west to New York of from 30 to 60 per cent, is predicted in the November Cosmopolitan. The plan proposes using light and inexpensive corrugated iron cylinders, hung on a slight rail supported on poles from a cross-arm—the whole system involving an expense of not more than fifteen hundred dollars a mile for construction. The rolling stock is equally simple and comparatively inexpensive. Continuous lines of cylinders, moving with no interval to speak of, would carry more grain in a day than a quadruple track railway. This would constitute a sort of grain-pipe line. The Cosmopolitan also points out the probable abolition of street-cars before the coming horseless carriage, which can be operated by a boy on asphalt pavements on a total expense for labor, oil, and interest, of not more than one dollar a day.

Knights of the Macabees.

The state commander writes us from Lincoln, Neb., as follows: "After trying other medicines for what seemed to be a very obstinate cough in our two children we tried Dr. King's New Discovery and at the end of two days the cough entirely left them. We will not be without it hereafter, as our experience proves that it cures where all other remedies fail."—Signed F. W. Stevens, state com.—Why not give this great medicine trial, as it is guaranteed and trial before sale at the Pioneer Pharmacy, regular size \$1.00, and \$1.99.

Don't forget that THE JOURNAL has large clubbing list and when selecting advertising matter for the coming year call and give us your order. We can save you money.
