MARRISON. NEBRASK

If 1 and exactly a chip that Canada is wearing about on its shoulder it may be spoken of, perhaps, as a large chunk of wood pulp.

If Inventor Edison can evolve from his intellectual workshop an invisible balloon that will carry a few hundred pounds of dynamite he will solve the coast defense problem in one move.

Jameson, it is said, stands a good chance of being shot. Considering the diotic way in which he inaugurated the invasion of the Transvaal, the impression prevails that he was about halfshot when he started out.

England has added ships so rapidly to her navy that the supply of sailors has run short. When the Magnificent and Majestic were put into commission recently crews were taken from other ohips, which will now be manned with inexperienced seamen.

A man named Anson is said to have told a New York newspaper reporter that the Chicago baseball club is going to win the championship this year. There is something strangely familiar in this statement, but-Anson? Anson? Where have we heard that name before?

The corn crop of 1895 turns out to have been one of the three largest on record; but the amount of it that has been marketed is comparatively small. Past experience has taught the farmers the importance of holding surplus crops for higher prices, and there are more cribs of corn on Western farms at the present time than has ever been known before.

The Rev. Dr. Parkhurst is getting the ox and the goat mixed up in his theological zoology. To the young men of the Students' Club, whom he addressed at New York, he said: "Any ox can devour the painting left upon the easel out in the pasture where he is grazing. but that does not help to make the ox esthetic." Dr. Parkhurst has confound ed the ox with the goat. We ask me Doctor's pardon for correcting him so far as to say that no ox could possibly consume an oil painting and live. With the goat, according to the humorous papers which have made a study of the subject, an oil painting or a measure of nitroglycerine are mere delicatessen.

The many friends of Martha E. Holden, who has contributed so largely to the newspapers of Chicago over the well-known signature of "Amber," as well as the many who have read her communications, will be pained to learn that she has passed away after an illness which at the last was brief, though she had been a sufferer for a considerable period. She had worked hard and bravely to support herself and children in various avocations before doing reg-

his soldiers, may possibly decide that it is high time to declare the republic, and his imperial occupation will be gone. He would better remain William the Cranky, and not try to ape William the Conqueror .- New York Journal.

By refusing to permit the Red Cross Association to distribute the supplies that Christendom has gathered for the relief of the Armenians, the Turkish Sultan has condemned the Armenian race to death by famine, by cold, and by the sword. Compared to this last outrage against God and nature all other crimes become venial. The Sultan deliberately contemplates the massacre of a nation. It is an insult to the intelligence of the world when the Turkish Sultan's agents plead his ability and willingness to relieve the Armenians. By his connivance, if not by his direct orders, the sword has destroyed thousands of them, the famine has slain other thousands, the cold of the Armenian mountains has killed others, and the pestilence that follows these horrors has well nigh completed the work of destruction. The Sultan nelther has been able nor willing to ameliorate these infamies of agony. He

cratic "subjects," as distinguished from

made professions of willingness when it seemed likely that Europe would unite to compel him to keep his pledges of Armenian reform, but as soon as the complication of affairs in Africa and Venezuela made European activity on behalf of Armenia doubtful, the Sultan assumed his old attitude of despotism. With the Venezuelan and African questions out of the way the Armenian issue will regain its international import-

ance. Never before has a government that professed civilization hindered the benevolent work of the Red Cross. Its philanthropic work was approved by our own administration in the yellow fever smitten districts. Russia welcomed its agents in a season of famine. Spain and Italy welcomed them in time of cholera. Turkey alone has

denied to them the exercise of their benevolent functions. No special pleading will avail to mitigate the crime of the Sultan. He has decreed to murder a race.

WOULD NOT SING WITHOUT PAY.

Trouble Which Chorus Girls Brought Upon the Opera Managers.

There is trouble in the ranks of the grand opera chorus singers at the City. The decision of the management to give Sunday night concerts in which the chorus should take part was followed by an order for the chorus girls to appear upon such occasions. This provoked some indignation, which became dire wrath when it was made

known that, while the Italian members of the chorus would receive \$2.50 for this extra work, the American girls would not get a cent extra. This discrimination against home talent nearly provoked a strike, especially as an apneal to the management secured no redress. The American girls were told that if they did not sing Sunday nights they would not be permitted to sing other nights and their places would be This threat stopped the threat

DON'T LIKE TO HURT SPAIN'S FEELINGS

CLEVELAND TO ACT SLOWLY

H- and Olney Disposed to be Couversative With Regard to the Recognition of Caba's Belligerancy.

WASHINGTON, March 5 .- What will the president do with the Cuban resolutions should they ever emerge from the conference committee and reach him? The fact that it was an open secret that the president and Secretary Olney were disposed to proceed in a very conservative manner in regard to Cuban recognition, fully appreciating the many difficulties surrounding the question, was stated in the United press dispatches of February 28 last, and has since been repeated and conürmed from other sources. It is well Quiebra Hacha, understood in congress that but for a knowledge of this fact, and a consequent indisposition to embarrase the executive, a joint resolution, instead of a concurrent resolution, would have been adopted by both houses. It is ber guns. felt by leading members of the house that the president can be depended upon to do what is proper, and that the action of the two houses in passing resolutions favorable to the Cuban insurgents gives him the indorsement of those bodies should be deem it proper to issue a proclamation of beiligerency.

But will he take such a step? That question was put yesterday by a United press representative to a number of prominent republicans and democrats in the house. The republicans claimed to have no knowledge of the executive's intentions and said the only person competent to speak with intelligence upon the subject was Mr. Cleveland himself. The democrat leaders were equally uncertain. In their opinion the president will study the situation carefully, and if he should be satisfied from the official correspondence that Weyler proposes to inaugurate a reign of terror in the island, he will incline more strongly to accord the insurgents belligerent rights than would other wise be the case. It is not believed that under any circumstances he will Metropolitan Opera House, New York act upon the matter for several weeks, should he do so at all.

Editor and Lawyer Fight

BENTON HARBOR, Mich., March 5. Attorney Edward S. Kelley of St. Joseph was attorney for the plaintiff in an assumpsit case against Harrison C. Hobart, city editor of the St. Joseph Press, in a justice court in this city resterday. After the case was decided the attorney and city editor engaged in a heated debate, which resulted in a two-round bout without gloves. The attorney was severely choked, but the city editor had the and of his little finger bitten off, his face sadly disfigured and a bump on his head from behave the other arrested. They are church members and Hobart was a delegate to the Y. M. C. A. convention last week and is a very prominent ma".

DENVER, Colo., March 6.-Cardinal Satolli visited parish schools, hospitals, colleges and received calls and petitions all day yesterday and every moment from early mass until a late hour in the evening was busily employed. The most important petition was presented by a delegation of wealthy churchmen calling the attention of the cardinal to troubles arising out of the year's controversy between Bishop Matz, his priests and members of the church in Denver. The parochial schools, the complaints of the priests and the delorable financial chaos of the docess were all reviewed and the cardinal was asked to make a decision that would effectually and all the difficuities. Cardinal Satolli said that he would be in Washington on the 12th inst, when he would lose no time in examining fully the Denver situation. He departs to-

ble incident:

ular newspaper work, in which last she made a more than local reputation by her cleverness, unconventionality, and cheerful optimism, which, now that she has passed away, appears in a still stronger light by reason of the suffering she must have endured so long and with so much courage and patience.

Much interest will be developed in the scheme of electric lighting by the act of the Mayor of Buffalo in signing the Ningara Falls power franchise, for it secures the introduction into that city of electric power developed at the falls. The proposed plan will bear upon the problem of the economic distribution of power produced at a distance from the point of application. If successful it may be expected largely to increase the use of water power. In all of the older States of the country may be found many abandoned mill sites on streams-abandoned because distance from markets and supplies overbalanced, in cost of transportation. the difference in cost of production between the use of steam and of water power. With a demonstration of economical distribution of electric power over a wide radius, these abandoned mill sites will have a new value Power developed there will be used by the manufactories situated miles distant on the lines of transportation.

Everybody knows that Wilhelm, the German Emperor, estimates himself at his full value, and sometimes overshoots the mark a little; but no one has ever supposed that he regarded it as a part of his destiny to become William the Conqueror Number Two. Recent statements lend color to this notion. The German military party has many times boasted that, in spite of fortresses and channel squadrons, it is far easier to invade England now than it was in the time of Julius Caesar, or in the days when William of Normandy pushed his hardy warriors the English beaches, and pressed DD on to fight the great battle at Hastings. When the Germans were in France, wenty-five years ago, they went to eppe, and, looking across the "silver "longed to be launched forth Inst the Britons. Gen. Von Blumenthal used to say that there was an official plan in the German War Office for invading England by overrunning Holland and Belgium, seizing all the transport vessels which the industrious Lowlanders possess, and then crossing the North Sea, with a couple of hundred thousand men, and landing in Britsin with an irresistible force. In case young Emperor were able to put plan into execution, he would ably insist on baving the British which be claims a family t. But if he attempts any expediorguest in the direction of Ento his empire, his social-demo- ter to ask a blessing.

ened strike, and the American girls have accepted the ultimatum with resignation. In the meantime the Italian singers have been viewing the troubles with much complacency, if not with actual pleasure. "De maka me stanca-what you say

for stanca-tired?" said one stout old contraito with a growth of sliky black mustache over her upper lip that would have done credit to a basso-profundo. when a Sun reporter asked her what she thought of the American girls in the chorus. "Dey no sing words. Dey stand and say only 'la, la' for alle opera, and I singa at Le Scala, Coventa Garden, and know alla words, and dey know only 'la, la.' And dey will pusha me back where nobody seea me, and dey standa in de fronta rowa with only der 'la, la,' Whatta you say in Ainglish? Nitta? I say 'Nitta' to dem, I in de backa row for a lot of girls who singa only 'la, la.' I say once more 'Nitta!" "-Troy Times.

A Newspaper on Linen.

A novelty in journalistic enterprise comes from Spain. It is a weekly illus. trated "paper" printed on linen. The journal is appropriately entitled La Tela Cortada and is sold at 2½ pence. The price is modest enough in view of the peculiar advantages which are offered to subscribers. From an ar-

ticle on "Hygiene and Journalism" we learn that the reader has but to send his copy to the laundress after perusal in order to transform it into a superb pocket handkerchief. It will, moreover, he useful for dusting one's hat, wiping away a tear, making one's tender adieux, taking part in popular demonstrations and "preserving diplomatic documents." Although its special applicability to the last-named purpose is not very clear, the Tela Cortada must be credited with considerable originality in its aim of extending the sphere of usefulness of the press.

Removing Chamois Skins.

Chamois skins that have become much soiled in cleaning brasses, etc., may be softened and cleaned thoroughly by washing in tepid water and household ammonia. Use for several skins six tablespoonfuls in a quart of water. Soak an hour, and press them out in the water with a fork or spoon, so that there will be as little rubbing as possible. Rinse in several waters, each of them tepid.

British Columbia and Italy. Sir Charles Tupper recently said that he found vegetation of all kinds much more advanced in Victoria, British Columbia, in April than in Italy on the same date in the following year.

Probably a woman's really fondes and proudest moment of her husband is when he voluntarily asks the minus

To Protest to Grover.

MADRID, March 5 .- It is asserted, upon good authority, that Spain is now in communication with the several European ministers, with a view of securing their agreement to a joint protest in the event of President Cleveland declaring the belligerency of Cuba. Demonstrations and meetings of pro-

test against the action of the American senate and house of representatives continue in the provinces. They are almost wholly participated in by students. None of them were of any particular importance, and they were all easily dispersed by the police. Armed trans-Atlantic stesmers will begin on March 20 to act as cruisers.

Italians in Trouble.

ROME, March 5 .- The republicans and socialists organized demonstrations Tuesday evening in several of the principal cities and towns of Italy, and denounced the African policy of the ministry. A crowd in Milan, in attempting to break through a cordon of troops, became so frenzied that they hurled themselves against the bayonets of the soldiers. One man was killed and seven were wounded.

PARIS, March 5 .- A dispatch from Aden to the Matin says that the Itallans lost 5,000 men in last Hunday's battle with the Abyssians.

Saw a Wreck

GALVESTON, Tex., March 5 .- The steamer Pensacola, which returned here yesterday from a relief trip to the Texas and Mexico coasts, reports that she sighted the wreck of the schooper Willie Ann, which has been missing one month. The four persons on board were drowned. They were: Capt, Simon Baker of Lake Charles.

Seaman Larry.

La

William Anderson, cook. M. Moguat, a passenger, of Rockford, Texas.

Cancel an Agreement.

CHICAGO, March 5 .- All western roads have given notice of their intention to cancel the rates and agreements made for the Baptist anniversaries at Portland, Ore., the Baptists having decided to hold the conventions nearer the centre of population. A special meeting of the western pessenger asso-ciation has been called for next Tues-

yesterday morning that in the event of the United States government declaring its recognition of the belligerent rights of the Cuban rebels, the government will prepare a memorandum mak-

ing an energetic protest against such action and send it to all of the European ministries.

Demonstrations against the action of the American senate and house of representatives were held in Toledo, Seville, Granada, Cadiz and Malaga Wednesday evening. The only one of special importance was that at Malaga, where the police were obliged to charge States consulate.

Johnstown has a Big Fire.

JOHNSTOWN, Pa., March 6 .- Fire Wednesday night between 10 and 3 o'clock destroyed the Hannan block surance, \$20,000; Johnstown Democrat, \$20,000, insurance, \$4,000; H. M. Benshaff, job printer, \$6,000, insurance, \$1.000; Nathan Miller, grocer, \$5,000,

Insurance, \$2,000. The fire started in Miller's grocery store and the flames spread so rapidly and burned so fiercely that for several hours it was feared the entire business portion of the city would be destroyed. There was great excitement and the wildest scenes witnessed since the terrible night of the flood in 1889 prevailed.

The tiremen worked heroically, how. ever, and, with the assistance of volunteers, the finnes were finally controlled. A number of firemen were slightly injured by falling walls, but no one was seriously hurt.

Encounters & Gale.

SAN FRANCISCO, March 6.-The coast defense vessel, Monterey, arrived ple than the battle. in port yesterday from San Diego. The Monterey had orders at San Diego to proceed to Puget Sound, and was or her way there when she encountered a gale off Santa Barbara and lost two of her boats. The seas swept entirely over her decks, carrying everything moveable before them. The Monterey put in at Santa Barbara.
