In New York the civil service rules are applied to the subordinates in all of the Judge Kinkaid for the republican nominemployees are the only ones who are exempt. It will be a great day for Nethe appointive offices.

There seems to be a tendency among contributors to magazines and periodicals to urge co-operation among manufacturers and those engaged in other industries. Co-operation in most instances is simply another name for trusts and if there is any one thing that the writers of this country should discourage it is the formation of combinations whose object is to stifle competition.

Auditor Moore is being criticized a good deal for the position he has taken P. Kinkaid for the congressional nomina in regard to the insurance laws. It is mid that his action has been in the interest of the old line insurance companies proper, gentlemen, entirely proper! He's and against the mutual organizations which have grown up in the state of late years, and he seems to have taken upon himself the authority of a court and passed upon the legality of the acts of the legislature. When Gov. Holcomb did that he was severely criticized and Auditor Moore is no more excusable. It is generally supposed that the officials have to see that the provisions of the laws as they appear on the statute books are fulfilled and if any feel that the law in not right he may seek redress in the court. The incurance lobby has been more in evidence at the legislative services of late years than that of the railmost late and also indicating what the result may he if he succeeds at North Platte next August. and Auditor Moore is no more excusable.

The Cubans will never be conquered unless reduced to slavery and it is to be hoped that the civilized nations will interfere before that point is reached, but the non-action on the part of the president of the United States indentes that he cares nothing for the sentiment of the people of his country nor the cruelties practiced by the Spaninrds in Cuba.

A deal was made at Chadron last week whereby the Signal and Recorder were consolidated and in future will be issued national convention, at at its the Signal-Recorder, with A. E. The republicans of northwest Nebraska should profit by the result of the Broken Bow convention and see to it that the same error is not repeated. The popularity of the candidacy of state offices, the office of the executive ation for congress over a large portion having been included at the request of of the district, indicates that the desire Gov.
