OFFICIAL PAPER OF SIOUX COUNTY.

Geo. D. Canon, Editor.

Entered at the Harrison post office as second class matter.

Carter H. Harrison, the Democratic free silver candidate for mayor, was elected by a majority of 2,162, over all other candidates. With all the villainous mud slinging that was possible for them to do, besides the entire metropolitan press of the city of Chicago, and all the outside influences that could be brought to bear against Mr. Harrison, and then they were unable to defeat him.

Of course the free silver candidate was our choice for mayor of Chicago, but we are well pleased to know that Mr. Hession was badly beaten. He will certainly lay down this time.

The floods along the Missouri and Mississippi rivers are destroying lots of lives and property this spring. The high water of the spring of '81 has been out done already and the worst is not over yet.

Yale Triumphs Over Harvard in a Debate on Currency.

BOSTON, Mass., March 26.—Yale defeated Harvard to-night in the annual debate at Sanders' theater on the subject, "Resolved, That the United States should adopt definitely a single gold standard, even if Great Britain, France and Germany should be willing to enter a bimetallic league." Harvard had the affirmative and Yale the negative.

It was a signal triumph for the advocates of the white metal and the debate was by invincible logic. The result is a sore disappointment to Harvard, the home of the goldbugs. The Harvard speakers who supported the affirmative were Sidney R. Wriglington, '97; G. H. Dorr, '97, and Fletcher Dobyns, '98. The Yale men were C. S. McFarland, '97; I. U. Clark, '97, and C. H. Studingki, '97. Governor Wolcott presided and the judges were Professor Davis R. Dewey of M. I. T., Professor Franklin H. Goldings of Columbia and Judge E. Aldrich of the United States circuit court. After the debate there was a supper in honor of the Yale men and the judges at the Colonial club.

National Association of Democratic Clubs Spends Out the Goldbugs

The executive committee of the National Association of Democratic clubs has been reorganized on a distinctly silver basis. All the Democrats who did not support Bryan have been removed. Wilson, Dickenson, Watterson and Black are among these incontinently dismissed for treason. The new committee is a strong one, the names indicating unusual aggressiveness on thoroughly Democratic lines. Each of the gentlemen named on this committee gave loyal support to the candidates and platform of the party in the last presidential campaign.

The selection of the new committee has been very deliberate. Instead of naming the committee in the midst of the campaign of last year, President Black pursued the unusual course of going on with the work of the association without a committee in complete harmony with him and the party. The committee controls the Democratic club organization. It will hold its first meeting in Washington on the 12th of April, the day before Bryan appears at the Jefferson banquet.—*Rookley Mountain News.*

The National Democratic Club Association have done just what they ought to have done one year ago, and that was to excommunicate all the gold bugs from the Association. A traitor to a party is like a traitor to a country, they can never be trusted, and ought always to be summarily dealt with.

The Right Kind of a Wife Makes the Right Kind of a Husband.

"If you wish to be a good companion to your husband study to make each 'Good morning' that you say to him an incentive to a better life," is Ruth Ashmore's advice to young women, whom she addresses upon "The Profession Marriage" in the April Ladies' Home Journal. "Learn to make each 'Good morning' a benediction of love for the day's work, the day's loving and the day's sympathy. Look for his good qualities. He is like you in having faults; with very little trouble you can see his faults, and by

talking about them and reminding him of them you can make your married life unendurable. You can bring about heart burnings, you can cause strife, and before you know it hatred may take the place of love. Look for his virtues, and, seeking always for goodness, you will grow better every day just as certainly as you would grow bad if you looked only for that which was wicked. Remember there is much that will have to be forgiven in you, and whenever you feel inclined to remind Tom of a weakness read the book in which is set down your foibles and your follies. A woman who, even after her marriage, carefully studies her profession, can make her husband what she wishes him to be. Everything that is good is contagious, and the right kind of a wife makes the right kind of a husband.

"Respect the rights of your husband; he is a man, not a child, and how can the world honor him when you, who are his closest companion, do not? Do not, even in jest, deride or underrate him, people are slow about deciding when one is jesting or when one is in earnest. And what you meant to be funny may cause some stupid person to say, 'How horrid Tom must be! Why, his wife says dreadful things about him!'"

"Live to Learn and Learn to Live"

EDITOR JOURNAL: The above words are taken from many of the trite sayings of Goethe. We think them as good as they are old. There are several ways to learn; viz.—1. By observation; 2. by interrogations; 3. by reflections; and 4. by experience.

Some people learn by one way, some by another and some by all these ways. Rule: Keep alive; ask questions; when you can't learn in any other way, think much, and take your experience as it comes and profit by it.

Josh Billings said it was more blessed to give [advice] than to receive it. Now will some one bestow the blessing on an anxious enquirer? Theory without practice amounts to little. Here is what I wish to know: 1. Why farm values in the U. S., for the last 25 years, has decreased at the rate of nearly \$1,000,000 a day or \$6,000,000,000 while the farms have increased 250,000 in number and the people 90,000,000? 2. Is this sign of increasing greatness? 3. Why the estimated wealth of the country in 1890 was \$65,000,000,000 and now it is only \$49,000,000,000; and what has become of the missing \$16,000,000,000? 4. Why it takes a half million acres to support one man when millions are deprived of a single acre? 5. Why it takes \$137 a day (and \$45,000 a year thrown in for extras) to keep the president when thousands of poor families, of six or eight, are expected to live and be happy and prosperous on 50¢ a day? 6. Why, if there is to be immediate prosperity, that Mark Hanna should compel his coal miners to sign a contract, covering the next year, to get out coal for 60¢ instead of 75¢. 7. Why we should pay interest on \$5,000,000,000 of foreign bonds when the bankers of N. Y. can loan \$50,000,000 to England? 8. Why 22,000,000 acres of our realm should be owned by non-citizens and non-residents of the U. S.?

B. F. THOMAS
(To be continued.)

Sioux County,

A new county with schools, churches, railroads, etc.,

AND 800,000 ACRES YET OPEN.

NO BONDS, NO DEBITS, LOW TAXES.

Contains over forty-five miles of railroad and has no county bonds.

Fuel, Posts, Logs and Lumber Cheaper Than at any Other Place in Nebraska.

Good Location for Stock Growers.

Sioux county is the northwest county of Nebraska. It is about thirty miles east and west by about seventy miles north and south and contains

OVER 1,300,000 ACRES

of land. There are more bright, sparkling, small streams in the county than can be found in the same area elsewhere

in the state. It has more pine timber in it than all the rest of the state combined. Its grasses are the richest and most nutritious known so that for stock-growing it is unexcelled.

The water is pure and refreshing and is found in abundance in all parts of the county.

The county is practically out of debt and has over forty-five miles of railroad within its borders, has a good brick court house and the necessary fixtures for running the county and there has never been one dollar of county bonds issued and hence taxes will be low.

The Fremont, Elkhorn & Missouri Valley railroad crosses Sioux county from east to west and the B. & M. has about fifteen miles of its line in the northeast part of the county.

The climate is more pleasant than that of the eastern portion of Nebraska.

There is still good deeded land can be purchased at reasonable rates with government land adjoining so that a person who wants more than one quarter section can obtain it if he has a little means.

There are about 1,500 people in the county and there is room for thousands more.

Harrison is the county seat and is situated on the F. E. & M. V. railroad, and is as good a town as the thinly settled country demands.

School houses and churches are provided in almost every settlement and are kept up with the times.

All who desire to get locations suitable for stock raising and buy cheap land are invited to come and see the country for themselves and judge of its merits.

Final Proof Notices.

All papers having final proof notices in this paper will receive a marked copy of the paper and are requested to examine their notice and if any errors exist report the same to this office at once.

Land Office at Alliance, Neb.,
March 4, 1897.
