Some of The Laws passed By The 25th Legislature of Nebraska.

What Effect They will Have on Trusts and Combines, Also Monompolies.

The 25th session of the Nebraska legis fature passed more laws calculated to give relief and assistance to the common people of the state than any session in the history of the state. What corporation legislation was enacted was far between the citizen and the corporation. Of course the corporations, combines and trusts fought every inch for their benefit but for the first time in the history of the state the paid emissaries of the monopolies were routed and let it be written in letters of silver and gold to the everlasting credit of the reform forces that the yoke of bondage has been broken and once more a bright light o hope is seen in the east. It is impossible to give a fine account of all the good measures that were passed as more than 188 bills were passed, and although it is charged in some quarters that this legis lature passed no good laws we desire to respectfully in due fairness ask the tax payers and citizens to study the record net, et set, nwis set, et nwis 36-34-54 H.
