Get the BEST near home and save freight or express. Send for price list to NORTH BEND NURSERIES, North Bend, Dodge County, Neb. [32]

NOTICE TO SETTLERS.

The rules of the local land office have recently been amended so that settlers to make final proof shall settle with the publisher before sending in their application. All parties desiring to make final proof can have their papers made out at THE JOURNAL office, free of charge, and promptly transmitted to the land office so that no time will be lost.

—John Davis was at Andrews last Monday.

—Still they come to BARTELL'S to buy millinery.

—Warner's Health corsets for sale at BARTELL'S.

—Clothing, hats and neck-wear cheap, at BARTELL'S.

—W. E. Bigelow went to Chadron Tuesday night.

—Old papers, five cents per dozen at THE JOURNAL office.

—Grant Guthrie moves his family into the Simmons house for the future.

—Why don't you run your stock brand in the JOURNAL? It will pay you, try it.

—The grass has been making a wonderful growth for the past four or five days.

—E. W. Daily was up from Crawford last Tuesday looking after legal business.

—Fred Blomberg of Glen has filed on one hundred and sixty acres of Nebraska soil.

—The grangers have been busy for the past week or more putting in their small grain.

—Eggert Rohwer and family will occupy the rooms just vacated by Grant Guthrie and his family.

—S. E. Eldridge of Kirtley was in Harrison last Saturday doing business, staying over Sunday and returning home Monday morning.

—The officers of the F. E. & M. V. Railroad company went through Harrison this morning going west on a tour of inspection of its road.

—J. W. Scott, who is a member of the school board, reports a large number of applications coming in for the fall and winter term of the Harrison school.

—Landlord Rohwer is vacating the hotel today and Moravick of Warbonnet is taking his place and will wash up sweet viands to the public hereafter.

—Mr. John Ostrander and Casper Witting of Ardmore were in Harrison Monday looking after business matters. They report the grass much further advanced in their locality than around Harrison.

—Bert Hamlin returned from Iowa the forepart of the week where he has been to attend the last sickness and funeral of his father, who died a week or more ago. He looks for his brother back the last of this week.

—Lansy Sutton, while assisting Rev. J. D. Clark in breaking a fractious colt got his hands badly burned with a rope, it slipping through his hands so rapidly. He will be laid up for a week or more before he will be able to do much work.

—Especially timely is a paper on "Some Commercial Types," with over a dozen splendid half-tone illustrations, in DEMONSTRATION'S MAGAZINE for May. A study of these pictures will lend additional interest to the current war news from the front.

—Some of our readers who went to the fair at Council Bluffs, where they saw a marvelous performance for holding a man's head in his hands and saw

for the benefit of the range stock to be shipped over the F. E. & M. V. railroad during the shipping season.

Notice.—All parties knowing themselves indebted to the undersigned are requested to call and settle either in cash or with note on or before May 1st. As I have rented my Hotel to other parties I will go out of business at the above stated time. EGGERT ROHWER.

—LEMOREST'S MAGAZINE for May contains nearly 200 graphic illustrations, and there is not a dull page in it. "McKinley's Administration told by the Camera," is alone worth the price of the Magazine, the photographs vividly depicting the whole pageant, and needing no verbal description.

—Mr. Coker a gentleman, who has been stopping at Mr. Patterson's for three or four weeks, and who bought a gold pan a few days ago for the purpose of prospecting out in Sow-Belly canyon soon as the weather would permit, went out last Sunday to make an examination of the ground and if possible to find out whether there was anything there like gold. He returned to Harrison the same evening, but made no report as to what he found.

MARRIED.—Mr. Wilts Earnest of Andrews and Miss May Kinnison of Alliance, Sunday, April 25th. Mr. Earnest and his wife, accompanied with Mrs. Earnest's niece came in on the passenger train Monday morning. They went out to the ranch on Running Water the same evening, and after this will be at home to their many friends.

We desire to extend to the bride and groom our best wishes for their future prosperity and happiness.

—Mr. Samuel Pentecost and John Raffing, who live on Raw Hide creek, south-west of Harrison in Wyoming, about forty-five miles in town yesterday staying over until today. Mr. Pentecost says he lives much nearer Ft. Laramie, and it would be more convenient to do his trading at that place but, on account of exorbitant prices charged for everything that a family or a rancher needs, he can save money by coming to Harrison to do his trading.

—J. A. Hanson, section foreman at Van Tassel, called at our office last Monday and left a cart wheel to pay for THE JOURNAL for the coming year. Mr. Hanson reports wolves and kiotes are very bad in his part of the country. He, with two or three other neighbors were successful in digging out eight young ones last Saturday which were six or seven weeks old. Mr. Hanson is not sure whether there is a bounty on killing wolves in Wyoming or not but he thinks if there is not, there ought to be to encourage the destruction of them by the settlers of the country.

—Mr. Frank Smith, son of W. R. Smith of this place and son-in-law of H. T. Merriam of Warbonnet precinct this county, arrived from Deadwood, S. D., last Saturday on the west bound passenger train. Mr. Smith and wife visited with relatives and friends until last Monday evening when they took the cars for home again. Mr. Smith has valuable interests in Deadwood, he having built a large business house—the best in the city—which cost him something like \$15,000. He rents his building for about \$500 per month besides reserving room enough to carry on a large grain and feed business himself. Mr. Smith and wife have a host of friends and acquaintances in Harrison and vicinity.

—A small neighborhood racket was brought to a focus last Monday, down at Andrews, by A. L. Staudemier coming to Harrison and swearing out a warrant for the arrest of Charles Russell for drawing a gun on him with intent to do great bodily harm. Mr. Russell was brought to Harrison and appeared before his honor Judge Wilson and asked for an immediate trial, but the complaining witness did not show up, so the attorney for the defendant with the consent of the county attorney the trial was set for Wednesday May 5th and it was decided by the Judge that if the plaintiff did not appear for trial a bench warrant would be issued and placed in the hands of an officer compelling him to appear and show cause why the defendant should not be released. The defendant in the meantime was put under one hundred dollar bonds to warrant his appearance at court.

—Frank Tinkham and Jackson Kreisler, have been developing a gold and copper mine out in the Wyoming mountains, about 125 miles west of here drove in last night and will stay here until the snow goes off in the mountains so they can go back to work again. The boys say there is about three or four feet of snow there yet and since it commenced to melt it was flooding the mine so that they were obliged to suspend for a time at least. So they will in the meantime put in a small crop and then return to the mine for the balance of the summer. The boys brought some fine specimens with them, leaving some at THE JOURNAL office where the public is invited to call and examine them to their own satisfaction. Mr. Tinkham and Mr. Kreisler, both think they have a prospect of something pretty good, and we think so ourselves, for the ore would indicate it.

Warbonnet Warblings.

Charles Biehly is home this week sowing his grain.

Homer Priddy faced the wind to Harrison last Monday.

Jim Nolan made a short call at Mr. Wilcox's last Tuesday.

Dan Slatterly is working for Sam Leeling, helping him put in his crops.

Lon Wilson was down to Mr. Oscar Garton's last Wednesday after a disc.

Mr. and Mrs. Oscar Garton spent Sunday April 25th, with Mr. and Mrs. Corwin Lewis.

Mrs. Lillian Daut and Miss Ketchum are visiting with Mr. and Mrs. Leonard Daut this week.

S. L. Ellis was hauling slabs from the old saw-mill site, in Warbonnet canyon Tuesday April 20th.

Mr. and Mrs. F. D. Smith of Deadwood made a short visit at the home of Mrs. Smith's father April 25th.

Mr. H. T. Merriam, Mr. and Mrs. O. A. Garton and Marcus Valdez were among the Warbonnetites that were in Harrison Saturday April 24th.

Mr. James Merriam is recovered so far from the rheumatism, that he expects to commence hauling lumber from White's mill to Harrison Tuesday or Wednesday of this week.

We were very much surprised to read in the Press that Miss Merriam went to Douglas last Monday, as we positively know, that she never was near there, and has been at home all the week.

Sunday May 2nd if it is pleasant the Warbonnet Sunday school will meet to reorganize their classes and to elect officers. All that are interested in the work will please be sure and remember and be on hand if the day is pleasant.

The ladies of Warbonnet precinct will each one and all give to the gentleman of this precinct a vote of thanks for the promptness in which they turned out to work the roads in Monroe canyon since the late storm. They have not been so good this year, not even when the ladies worked them, we therefore return to them their laurels. We also hope that this will be an incentive to them to let the good work go on.

ECHO.

"Live to Learn and Learn to Live"

And the Cry is "Still They Come."

Have you answered all these questions? If not, why not? Don't throw them away but ask your neighbor to answer them.

No. 15. Why, if the United States is the most progressive country on earth has she increased her circulating medium only \$2.67 per capita during the last 24 years, while Great Britain increased hers \$10.70; Germany hers 5.69; Belgium hers \$14.95; the Netherlands \$7.50 and Italy hers \$5.98? What does this showing prove?

17. If the silver dollar is not money, who made it less than money? If there is too much of it used as money, who is to blame for having it minted? moreover, if law does not make money, by what power came all the money now in use?

18. If the National Banks must hold 5 per cent for reserve, what secures the 95 per cent without a reserve?

19. If an individual must give three to five times the value of a loan as security, what ought a bank give a depositor for security?

20. If our circulating medium can stand on \$100,000,000 gold deposit, why could it not stand on all the United States?

21. Why do 150,000 Americans spend annually \$175,000,000 beyond the Atlantic when they have never seen the one-thousandth part of their own country?

22. Why, if France and Germany can produce sugar and ship it here and pay 40 per cent duty on it, it cannot be produced here where everything is cheap without a 2 cent bounty?

23. Why are cattle 50 per cent higher now with a \$2-ahead tariff, than they were four years ago with a \$10-ahead tariff?

24. If a tariff of \$25, ahead should be placed on horses imported, would it increase their value that amount? If not, why not?

25. If there is 15 cents a bushel tariff on corn why does it sell in Iowa now, at 5 to 10 cents a bushel? Will Canada "dump" her surplus on us and "bear" the market?

26. If tariff on anything should be so high as to forestall imports, how will the revenue be raised?

27. If revenue is to come by direct taxation, who should pay it? Those who have, or those who have nothing?

28. Is not a tariff on anything produced in this country, manufactured or otherwise, a tariff of protection? If so, is it not intended to enhance the value that much? If so, is it not a sort of "combine" between the producer and the government and then a trust? What then? Will the government prosecute itself and break up the trust?

29. Who imported the first pauper wage-earner (1866) and who said (1868) "For once, it seems that America has more labor than she can employ"?

30. The wage-earner is now sold, bought and delivered by the plutocrats. What the middle man, (man of small

capital) are likewise, "then all of liberty will be lost" and our government become a high oligarchy.

31. "The farmers must sell and become tenants, in place of owners of the soil—the hoarded idle capital must be invested in lands." Flooding driftwood shows where the current is strongest. Alas for "The land of liberty!" (And still there is more to follow.)

Colonel Maher's Airship.

Lincoln, Neb., April 19.—To the Editor of the World-Herald: There was some doubt in my mind as to the airship we read so much about until I read a dispatch in your Sunday paper from Harrison, Neb., about several eminent gentlemen seeing it at that point. All doubt as to its genuineness has been removed, although they differ in their description. I know that not one of those men "ever touch a drop," neither would they say they saw it unless they had, and as Colonel Maher your correspondent, is known all over the country for his truth and veracity, it will no longer be questioned. In the first place, it would be about the time of night that my old friend John Tinnen, would be prowling around the chicken coop, Charlie Coffey would naturally be out at midnight looking after the wheel of his windmill, Mr. Habegger would be out letting the wave of prosperity blow through his whiskers. I can prove that by El Rich of Omaha. Ernest Dailey would be out about that time of night watching patiently for Mr. Whipple to return with some of his free silver that was deposited in Whipple's bank and Judge Bartow would be out watching for the federal appointment that John M. Thurston is to get for him as soon as he gets all of the boys at Grand Island fixed up in good shape. No doubt about it, the airship is genuine.

JAMES C. DAHLMAN.

Grant's Achievement as a Peacemaker.

The honors and attentions showered upon General Grant during his tour of the world are, perhaps, unequaled in the history of kingly hospitality. He was relieved everywhere as the greatest soldier of his time and as the foremost living American. Hon. John Russell Young, who accompanied General Grant throughout the famous journey, graphically recalls, in the May Ladies Home Journal, its conspicuous incidents: the receptions, dinners, fetes, balls, etc., given in honor of the illustrious American. It is said that Mr. Young brings to light a fact that has received but passing attention; that General Grant was instrumental in arranging the terms of a treaty of peace between China and Japan, which prevented an outbreak of war between those nations.

Reporters Privileged Characters.

Four Buffalo newspaper reporters were caught by the police at a prize fight, and arrested along with the other spectators. The court, however, refused to hold the reporters, saying it was a principle of law, as well as common sense, that three kinds of men were permitted to go anywhere without blame—doctors, clergymen and reporters. Buffalo reporters now wear badges signifying their calling, as a protection from arrest.

Progress of Exposition.

Estimated already submitted fix the probable cost of putting the Exposition grounds in shape for all purposes at \$550,000. The fence enclosing the grounds nearly completed, will be about five miles in extent.

Nearly \$1,000,000 is in sight, from all sources, for the Exposition. This sum is being constantly added to and it is expected will be more than doubled by the end of 1897.

The railroads in this territory have already subscribed \$76,000 for the Exposition. Other railroad subscriptions will double this amount.

The wealth, resources and advantages of every county in Nebraska will be set forth in the State exhibit, compared with which all former exhibits will be dwarfed into insignificance. The state commissioners, appointed by the governor, will be charged with this work. For these positions most active competition is being made by prominent men all over the state.

Lenten Penances.

It really requires careful thought and considerable ingenuity for a fashionable woman to think out some honest means of penance whereby, during Lent, she may save for her Easter offering. This season the special form of self-denial must of course differ from that practiced during any foregoing Lent; and after due consideration jewel wearing is the cause which will swell many an Easter fund. From Ash Wednesday to Easter Sunday not an ornament can be worn save on the payment of a fine. Wedding and engagement rings are permitted only by virtue of a weekly fine, and any gems used as adornment, besides these tokens of vows, must be paid for at the rate of five per cent. of their value. The woman who makes a gift of a jewel must deposit a fine for the act in her Easter box; she who receives the gift of a jewel must also pay the penalty into her fund; while false jewels, ornamental hat-pins, necessary little stick pins, a watch, or even a garter buckle, all come under the head of prohibited jewels. In consequence of this new rule, which will hold until Easter Sunday, smart women are wearing natural flowers, California violets being the most popular blossoms, keeping only their watches, belt buckles, hat-pins and wedding rings in use, for comfort's sake, and as a means of increasing the spring offering.—From "Society Fads," in Democrat's Family Magazine for April.

Where are you going? We are on our way to the RANCH SUPPLY HOUSE. THEY SAY EVERYTHING IS SO CHEAP AT THAT STORE.

My wife wants one of those beautiful SPRING HATS and dry goods provisions &c. I need a Spring SUIT myself and we think we can save money by trading at the

Agricultural Society Meeting.

Summer School.

There will be a meeting of the Sioux County Agricultural Society in the office of the sheriff at the court house, in Harrison, on Wednesday, April 14, 1897. Let all interested in the success of the society be present, as there will be important business to transact.

Arrangements have been completed for the holding of a summer school at Harrison for the benefit of teachers and others who might desire to attend such a school. It will begin June 14th, and continue four weeks, followed by two weeks normal institute.

For full particulars write.
