course it is like coming home to him. Frank is engaged as sawyer on a saw mill near Hill City.

-Mrs. G. W. Hester left last Tuesday for Greenfield, Mo. for a visit of two or three months. Mr. Hester only just returned from a business trip and a visit to see his aged father and so of course turn about is fair play, hence Mrs. Hester is taking her outing.

-Judge Woods of Chadron, came up to Harrison on Tuesday of this week to look after a court case in connection with county attorney Guthrie, who represents Sioux county as defendant vs Ed Satterlee plaintiff, which was to be tried before Referee J. J. King on the 18th inst.

-It is rumored that one of our young business men and an esteemed young lady were about to try the realities of connubial bliss. Whether there is any truth in the report or not we have been unable to find out at the county Judge's office, who usually grants licenses for such ventures.

-The three sons of B. F. Thomas, B. O., A. M. and A. B. Thomas, have gone west to look up a location. They are not sure as to just where they will go or just where they will stop, but will keep going until they find a place that they are satisfied to make their future home in.

-Mr. Chas. Marsteller, the principal of the school here, has been requested to help conduct the summer school which convenes here on the 10th of June and continues for six weeks, by Prof. Gray who will soon be here from DuBois, Neb., to commence the term. But Charley says he will not except the offer as other business matters will not permit.

-Mrs. Sherrill, mother of J. W. Sherrill of this place, died May 11th, in Danbury Ia., of tumor of the shoulder. Little over a week ago Mr. Sherrill received word from his folks that his mother was at the point of death. Mr. Sherrill at once made arrangements and took the train the following day for his former home, but his mother was dead and buried before he got home. Mr. Sherrill will not return before the first of next week.

-Quite a spirited contest took place at the county treasurer's office Tuesday afternoon over a piece of school-land of forty acres, wherein three different parties were interested in leasing the land and, of course resulted in running the premium away up. Mr. McCoy, Anton Kratz and A. McKinley, were the gentlemen who were after the coveted prize but Mr. McCoy was the successful bidder, the amount being \$101, as premium thus knocking out the two other men.

-Dr. Bradley of Casper, Wyo., who represents the New York Mining and Milling company, passed through this place yesterday on his way to Crawford, where he takes the train for Colorado to look after their interests there. He has been looking up the mining business in the Big Horn mountains for his company with the intention of developing mining property there if his reports would warrant it. Dr. Bradley thinks there is good ore in the Big Horn mountains, but believes it will take lots of capital to make it pay in that locality.

-N. D. Hamlin and family, who have made their home in Harrison for the last nine or ten years, left for Brayton, Ia., last Saturday evening. Pretty near the entire town's people turned out to bid Mr. Hamlin and his esteemed family a hearty farewell, as they left at the depot, which shows the high esteem in which Dug. as he is called here—and his family was held here by all his neighbors and friends of Harrison and vicinity. We hope that it will not be long until Mr. Hamlin will return and take up his abode with us again. While the town of Harrison is made up of first class people, yet we have none to spare, the loss is imparable.

-Last Sunday a big wolf hunt was engaged in by over thirty men and women and several children. The hunt took place between Bob Neece's and A. McKinley's. The parties were provided with eight or ten hounds and a plenty of guns and ammunition but, nary-a-wolf did they get although three or four were seen. The party took their dinner at Mr. Neece's, and Mr. McKinley informed the reporter for THE JOURNAL that another wolf hunt would come off next Sunday and that the hunters would take their dinner at his place. There is some talk of the boys going down to take a hand in the hunt from here, whether they do or not remains to be seen.

The hunting of wolves and a general war of extermination of all their species is a grand good thing and every stock-raiser in Sioux county ought to take a hand in getting rid of the pest. But we deplore the fact that no other day than the Sabbath can be found to do that kind of work, or to have that of pleasure, which most of the boys consider it to be. While we do not profess to be any better than the general class of people, we do believe that a better example should be set before the rising generation. What THE JOURNAL has to say is not ment for any particular person or persons, nor to any particular neighborhood and none, we hope will take any offence about what THE JOURNAL has to say.

AN ASSAULT CASE.

Mrs. Wadsworth Files a Complaint of Assault Against Her Husband.

C. R. Wadsworth figured prominently in two cases brought in Judge Hoge's court Wednesday. The first one on a complaint sworn to by A. L. Lewis, wherein he was charged with carrying concealed weapons. For lack of evidence as to concealment of the weapon he was discharged. It is understood Mr. Lewis will file a complaint against him charging him with assault with a deadly weapon. Mr. Lewis claimed that Wadsworth went to his place and in a quarrel over a business matter drew a gun on him.

The second case was tried in the afternoon. C. R. Wadsworth's wife, Gertie Wadsworth, had him arrested on the charge of assault with intent to do great injury and the case began about 3 o'clock Wednesday afternoon. Mrs. Wadsworth testified that her husband had been drinking, and came home to supper in an ugly mood. Trouble ensued and after a quarrel he struck her, called her names and otherwise abused her. He struck her, she claimed, three times with his fist, and exhibited marks, in the court room, where he had scratched her on her arm. She also said he threatened to "smash her through the floor" with a flat-iron. Her father came in about that time with a drawn hammer and stopped the fight.

In his testimony Mr. Wadsworth denied the assault on his wife and claimed she assaulted him with the flat-iron. Nearly every important allegation of fact made by her as to assault was denied.

Judge Hoge found him guilty and bound him over to the district court to answer the charge, imposing on him a peace bond of \$100.—Kearney Daily Hal.

Consciousness.

Within the silent rock exist A billion yearning lives. Man is a petty egotist To think he only strives— To think he only struggles up To God through toil and pain; He is but one drop in a cup Filled from the mighty main.

The Flowers have tender little souls That love, repine, aspire. Each star that on its orbit rolls Feels infinite desire.

The diamond longs to scintillate When hid beneath the sod. The universe is animate With consciousness of God. [—Eda Wheeler Wilcox in Collier's Weekly.]

Additional Locals.

—John Marsteller moved his family into the Jameson house yesterday.

—Egbert Rhower, who first moved his family into the rooms back of the Ranch Supply House, removed to the Dug. Hamlin residence yesterday.

—Since the two little showers of yesterday and day before the grass has made great progress.

—W. H. Davis has been made deputy post-master of the post-office at this place.

What They Said.

Thomas Jefferson said that patriotism could be measured by the number of free homes there were in the country —What did he know about politics any way.

Daniel Webster, who served this country from 1817 to 1850, in various ways said, "Liberty can not long exist where the tendency of legislation is to concentrate the wealth of the nation into the hands of the few". Webster was a lawyer, then how could he be able to see this fact? James Otis (1776), declared that England had as well try to dam the Nile with bullrushes as try to quench the spirit of independence in America —Was he one of those fellows who asked King George the third if he might sign the Declaration of Independence, or whether he might change the denominations of our currency or regulate its value?—Not he. I think, Lyman Beecher, viewing with prophetic eye, the great and growing west said, "We must educate, we must educate or perish by our own prosperity." He was one of those fellows who would not keep still—He kind o' agitated the country.

Thomas H. Benton, the illustrious senator from Missouri, (1820 to 1850), said that if we would educate the masses the country would be safe.—Now who wants to be safe? Then let him educate. Henry Villard received \$80,000, as salary while president of the N. P., railroad while those who built the road lived in dug-outs and worked for 90c a day while it was cold enough to freeze the nozzle off a brass whistle. "Oh how pleasant it is for brethren to dwell together in unity". How much it takes to feed and clothe some, and how little it takes for others. Our patriotic ones told us the public domain should be kept as free homes for the people. The N. P. railroad says you can have our share of it when you pay us \$7.50 to \$15.00 an acre for it—and come quickly for it is going to rise". Hoke Smith told us "twelve years more and all the available public domain will be taken. What then? I repeat it, what then?"
