-Harvest is coming on and BARTELL has plenty of twine and will sell it right.

-We were informed quite recently that Mr Hester's niece who is sojourning here for her health is much better than when she came here. So much for our climate.

-A most little camp took place in the North Branch of the river last Saturday afternoon between Messrs. Will and Richard Zerkel resulting in a knock-out for Zerkel. Boys don't fight any more, it is naughty.

-Harrison boys walked off with the 4th of July at Montrose; we understand the Anderson boys were more up in their hands, three cheers for Harrison. Imagine to the final round up side, Harrison of Lincoln Neb.

-Dr. Johnson of Cheyenne, Wyo., who is stopping with Coffey Brothers out on their Hat Creek Ranch for a much needed rest called in company with the latter gentlemen and paid their respects to the JOURNAL force last Tuesday. The Dr. is of the school of physicians, called Osteopathic, only just coming into prominence and which bids fair to revolutionize the medical world. They use no drugs in their practice whatever. Dr. Johnson may possibly locate in Chadron, he has not fully decided yet.

-Samuel and Jonathan Jacoby also H. W. Haxton of Sand Creek precinct called at the JOURNAL office last Friday and got acquainted with us editor. We were pleased to meet and get acquainted with at least three of the thirty-five or more young ladies and gentlemen who are attending the summer school at the Hub from different parts of the county. We would be glad to meet each one of the students personally and may yet before the school closes, thus far however we have not had that pleasure, as we are and always have been interested in the welfare of our young people who are thus striving to prepare themselves for teaching, and trust they may succeed in getting schools in their own county and not be obliged to go among strangers to obtain a position.

White River Crosses.

Mr. Chas. Dippert thinks the office of Assessor is not at all desirable since that of County clerk is so near at hand.

We noticed that the old school house in district no. 1, has lost some of its beauty the roof is gone and windows taken out who owns the logs they alone remain, the question is where shall we vote? but I forget Dippert will likely see that we have a place to vote.

We understand that Mr. Davenport is an aspirant for county commissioner. It is likely that it will be on the Republican ticket, as we are not scared very badly McKinley prosperity is most too weak for the Republicans to have a walk away.

Our B. S. convention was a success in every way, we regret very much the inability of our president to be present, we had several speakers from outside and we wish to thank them all for the able manner with which they handled their respective subjects. O. A. Ramsey of Crawford also Mr. Ueo. Gorton of Crawford Rev. D. J. Clark of Harrison Rev. E. G. Rice and wife of Cottonwood and B. F. Thomas of Warbonnet delivered very correct and eloquent discourses all seemed to vie one with the other, we thank Mr. A. E. Fisher of Chadron for his kindness in leading the choir, also Mrs. Franzer our organist. Mrs. Wallace of Harrison was chosen President for the coming year, Vice president Mr. Ferguson of Cottonwood, Secretary and Treasurer Mrs. C. E. Rice. Nearly one hundred people were in attendance, and we regret very much our not being able to accommodate visitors as we would like but they will have to accept the will for the good, Mr. Mason excelled in getting the crowd to and from the church to his house and seeing that everyone had something to eat. Everybody at Glen feels well paid for their time and trouble, a great deal was learned that we had not even thought of before, and we hope that those from abroad were equally as well paid as we were.

-It was a sleepy crowd that arrived from Montrose at 8:30 Tuesday Morning -School opened again July 24th with a good many absent on account of the train being so late in the day but the attendance in the afternoon was some better, still some were to sleepy to attend school.

-Mr Geo DeGroff of Cotton wood this county and All Fisher of Chadron enrolled Tuesday afternoon in the summer school.

Women as Journalists" is the subject of an interesting symposium in DEMOCRATS MAGAZINE for July, to which a group of the brightest women in the profession contribute, each discussing the topic from the standpoint of her personal experience, it will well repay reading.

WOMAN'S COLUMN.

The king was in the counting-house, Counting out his money; The Queen was in the parlor, Eating bread and honey. Oh why could not his majesty Have graciously bestowed a Nickel on her majesty, To buy an ice-cream soda?

In the house, fumigation is the only manner of gaining relief from the persistent flies and mosquitoes. Procure for the purpose any ordinary iron spider, using either charcoal or live coals.

Twice a day—once in the morning for flies and once at night for mosquitoes—fumigate thoroughly. Lavender may be mixed with the camphor or a little dried pennyroyal. The best mixture for fumigation is equal parts of camphor, dried pennyroyal lavender and incense. all of these are perfectly harmless. The rooms should be tightly closed during the fumigating process.

Very few lives are free—free to go and come, travel, read, study, write think paint and sing at will, in the lives of most women these gifts are as aside in life as it were an underbreath. Most of us are beset with loving calls of toil care responsibility and quiet but, which we must recognize, heed and obey, we must love our mothers more than our Greek. If their instinct of daughter, sister, wife or mother dies out of a college-bred woman, even in the course of a most brilliant career, the world will forget to love her; it will scorn her, and justly.

If she does not make her surroundings homelike wherever she is whether she be teacher artist, musician writer, daughter, a thome or a mother in the household and if she herself is not cheery and loving, dainty in dress, gentle in manner, and beautiful in soul, an every true woman ought to be, the world will feel that the one thing needful is lacking: vivid, tender womanliness, for which no knowledge however profound, can ever compensate. It is better for a woman to fill a simple human part loving, better to be sympathetic in trouble, and to whisper a comforting message into but one grieving ear than that she should make a path to Egypt and lecture to thousands on ancient Thebes.
