If you are going south and want to know what the trip will cost...

NOTICE TO SETTLERS.

The rules of the local land office have recently been amended so that settlers to make final proof...

Will Smoke of Andrews, was in Harrison yesterday.

Mr. and Mrs. Pat Lacy were pleasant callers at this office last Wednesday.

The past week has been bad for making hay on account of so much rain.

Mariamne Wright and Bartlett spent Tuesday at the canyon bringing home quite a lot of cherries and currents.

There will be Mass at the residence of M. J. Blewett's next Tuesday, at 10:00 o'clock a. m., Aug. 17th.

Inidore Reinsten is moving his household goods to Crawford this week, where he will soon engage in the saloon business.

Read the minutes of the Agricultural meetings in this issue and learn how much is being done relative to having a county fair this fall.

It is reported that a young cow boy arrived at Buff Coffee's ranch last Sunday afternoon. Buff, keep your eye on him as he may be a cattle rustler.

Grandpa Merriam of Warbonnet precinct, brought to this office a half peck of as fine, large potatoes raised on his place as we have seen brought to town this spring.

Michael Bruck "Schuster", who has been up near Casper, Wyo., for some time looking after some sheep, came down last Saturday. He owns a valuable claim in Sioux county.

Bob Wallace the slayer of John Brown near Ardmore, S. Dak., some two or three weeks ago was, last week committed to jail without bail until the November term of court meets at Hot Springs. It is evident that the Justice of the Peace concluded from the evidence presented at the trial that murder had been committed, and hence, the holding of Wallace for the crime.

S. Sherman, who lives out on Rawhide creek in Wyoming, about 40 miles from here is now stopping in town for a couple of weeks. He is taking treatment of Dr. Johnson, for paralysis, Mr. Sherman has suffered with the disease for something like nine years. We are in hopes that the treatment will prove beneficial to him and that he may go home a better man physically than when he came.

Chas. Thomas of Warbonnet precinct had the misfortune to get thrown from his horse cutting his hip quite badly last Monday while after a herd of horses in company with Georg Tool and Dan Slatery. He was going around a mill at a rapid rate when his horse stumbled and fell, throwing him on a stony piece of ground which came near proving quite serious for him. When the other boys got to him he was quite unconscious. They brought him part way on the horse and then they got a buggy and came into town, where Dr. Phinney dressed the wounded hip. After the operation Mr. Thomas was sitting fairly well and was able to go home the next morning.

Bartlett Richards of Chadron was in Harrison, last Saturday and Monday on business.

Dr. Phinney is treating his horse to a new coat of paint, hope the disease may prove contagious.

Rev. Ball and family of Douglas, Wyo. passed through this place Tuesday, for Scotts Bluffs county.

Tom Snow of Rawhies brother-in-law of S. Sherman, was in Harrison Tuesday night and Wednesday.

Miss Palmer sister of Mrs. Griswold will teach the primary department and Mrs. Gray the advanced grade.

The special train which passed here during Monday night, killed three head of cattle about two miles east of town.

Mrs. Pat, Lacy was able to come to town yesterday with her husband. She is feeling much better than for a week or two.

Joseph A. Ashton and Peter Bretz of Ardmore, were in town on business last Saturday and called at our office for a few minutes talk.

The Attorneys attending the adjourned term of court held here last Saturday from other places were, J. E. Porter of Crawford and A. G. Fisher of Chadron.

Burt Hamlin of Pleasant Ridge, Wyo. was a pleasant caller at this office last Wednesday. He expects his brother Dug, in about two weeks.

James Hegel of Crawford was in the city last Saturday. While here he took out his citizenship papers before Judge Westover in open court. There were several other gentlemen of Sioux county who did the same.

In the American Monthly Review of Reviews for August the Rev. Dr. Francis E. Clark, of the Christian Endeavor movement, has an interesting account of a visit to "The Two Republics of the Southern Cross," the Dutch Boer government in South Africa.

Judge Westover of Rushville, held a one-day session of court here last Saturday. The only case of prominence before his honor was, Tinnen vs. B. & M. Railroad, the plaintiff asking for a new trial. After listening to the argument pro and con, Judge Westover granted a new trial on the grounds, that the plaintiff should have been awarded larger damages or nothing. So the chances are there will be another long fight in the courts.

Dr. Johnson met with a very painful accident on last Wednesday morning, while going to Mr. Buff Coffee's. Thinking to save time as he was anxious to get to his patients he let down some wire fencing but neglected to drop the bottom wire and the result was the horse in some way threw him down and stepped on him and dislocated three bones in his nose, cut his lip quite badly, and battered him up generally. We hope the Dr. will be alright in a few days.

Section foreman Wright, had a severe sun stroke Wednesday afternoon, while burying the cattle killed by the train Monday night. It was with difficulty that he was able to get home, some man, who was passing along at the time was hailed by Mr. Wright and asked to either take him home in his wagon or pump the hand car for him and he would pay him for his trouble, but he would not or could not, which goes to show how extremely small some people are towards their fellow men.

Rev. James Johnson brother of our Dr. Johnson, came in from Cheyenne, Wyo., last Friday to visit his brother for a day or two. While here Rev. Johnson delivered an instructive sermon in the church last Sunday to a fair sized congregation, who listened attentively to what he had to say on the subject, "Man's Debt to Man"; the text was found in 14th verse, 1st Chapter of Paul's letter to the Romans. Dr. Johnson has just closed a five-year postorate in the city of Cheyenne. He has of course staid the limit of time permitted by the M. E. conference at any one place. Rev. Johnson is a member of the central Illinois conference, and will depart for that state some time during the summer and fall.

Bodarc Doings.

Chas. Coffee goes to his O 10 bar ranch to day.

Born to Mr. and Mrs. Buff Coffee Aug. 8th, a son.

Rev. Mr. Johnson of Cheyenne, was visiting Mr. C. Coffee's family Sunday night and Monday.

Mrs. Hibblein and her mother were visiting friends on Indian creek.

The usual talk among the Valley people is, we need rain and now they say they hope the rain will go around. We have had some hard showers here. Sow Belly was out of the banks yesterday again.

Bad weather for making hay here. The public sale at Doan's was well attended considering the weather, and every thing was sold that was offered at fair prices; cattle brought tip top prices.

White River Breezes.

Miss Carrie Frazier has been engaged to teach the fall term of school in Dist., no. one.

Mr. L. H. Bowdish will furnish the wood for the school in Dist., 19 this winter.

It looks as though the Political states were about ready to be approved or expected by the people in this neck of the woods.

Mr. W. S. Johnson has put out a large amount of strawberry plants this season.

Mr. M. H. Green had a very good crop

of rye this year it was a volunteer crop, he sowed rye four years ago and has had ever since.

The late rains interfere with hay making but it is making late crops grow in good shape.

We understand Dr. Johnson will give a lecture on osteopath practice if he can get the court house hall to give it in. It would seem as if there would be no trouble in obtaining it for a lecture that would be entertaining and instructive to the public.

Montrose Clippings

We have had plenty of rain for the last week.

Corn is doing nicely and if we don't have any early frost there will be a fair crop of corn.

Mrs. H. Zimmerman from Cedar, Co. Nebr., is visiting with her brother Jake Wasserburger.

Mike Jordan has returned from the round-up last week.

Joseph Reinders who had been working in Newcastle had the misfortune of having his arm dislocated. He is at home with his parents.

The game of ball did not come off between Montrose, Bodarc and Ardmore on account of the heavy rain but will be played next Sunday Aug. 15th.

Mr. J. Konrath is wearing a broad smile on account of a girl baby having arrived.

White's Siding Whispersings.

We will try and get in a few items this week. We, us and babies have been quite sick with bad colds, something like la grippe.

Choke cherries are about ripe.

This wet boggy weather is just nice for garden truck, but I suppose the hay makers would rather have sun-shine. Never mind we can have sun-shine when we cannot have rain.

Mrs. Perry White was very sick the fore part of last week.

Mr. and Mrs. W. J. Bogart, and little girls were at the Siding the 25th ult. Mr. and Mrs. Tietze were down this way the same day.

Mr. White and family went to Crawford Friday, and returned Saturday.

Mr. Bomgartner from near Montrose, was at the Siding Saturday.

Mr. and Mrs. White was up to Mr. Pat Lacy's Sunday, and they say Mrs. Lacy was quite sick.

Messrs P. N. Kirkpatrick and John Christian stoned over night at John Finley's last Sunday.

George and Mirtle Baldwin spent Wednesday and Thursday with Mrs. Jones and family.

Messrs Bogart and Varley, were doing business at the Siding Wednesday.

Mr. D. M. Sutton was at the Siding Thursday.

We had an awful rain and quite a hard hail. In 35 minutes after it began to rain the houses were surrounded by water. The creek bed that was dry was rushing head long down the canyon. George and Myrtle Baldwin, who never seen such a sight thought it was grand, and it was really a glorious and inspiring sight to stand upon the bank and see the muddy waters rushing and banking, one wave after another. It looks as if one was trying to catch the other. Pen cannot describe it as it deserves.

WESTLER.

A Grand Opportunity.

There are today thousands of young people on the farms and in the villages who are tied down by lack of education to work they heartily dislike. Are you one of them my friend? If so, the Grand Island Business & Normal College can put you on the road to success if you are ambitious and willing to study. It makes no difference how backward you are provided you are plucky and mean business. We teach everything necessary for a successful start in life. If you are short of money we will accept a good note without interest for tuition or if necessary we will furnish everything—tuition, board, and books and give you time to graduate and pay for same afterwards. Business, Normal and Short-hand courses. Board \$1.50 per week. Established 12 years. College Record sent free or catalogue for 6 cents in stamps. This is your chance of a life time. Will you let it slip by? Address, A. M. HARRIS, President, Grand Island, Nebr.

How To Find Out

Fill a bottle or common glass with urine and let it stand twenty-four hours, a sediment or settling indicates an unhealthy condition of the kidneys. When urine stains linen it is evidence of kidney trouble. Too frequent desire to urinate or pain in the back, is also convincing proof that the kidneys and bladder are out of order.

What To Do.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp Root, the great kidney remedy fulfills every wish in relieving pain in the back, kidneys, liver, bladder and every part of the urinary passages. It corrects inability to hold urine and scalding pain in passing it, or had effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to get up many times during the night to urinate. The mild and extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists, price fifty cents and one dollar. You may have a sample bottle and pamphlet both sent free by mail. Mention THE SIOUX COUNTY JOURNAL and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The proprietors of this paper guarantee the genuineness of this offer.

WOMAN'S COLUMN.

Edited by Mrs. Geo. D. Canon.

Short articles from the ladies of SIOUX county are solicited.

The Young Girl In Summer.

Edward W. Bok, writing under the caption of "Breaking down the Fences" gives some wholesome and sensible advice to young girls in the August Ladies' Home Journal, and sounds a warning against allowing them too much freedom of action—too much liberty. Mr. Bok discerns that summer brings greater freedom to young girls than any other season, and presents to them many more opportunities to unconsciously break down the fences—the barriers—of the best and wisest deportment. "City girls", he contends, "often think they are free to do things in the country or at the seashore than in the city. Little licenses seem so much more natural in summer when we live an outdoor life. It is a magnificent tribute to a girl's character when she can be unconventional and yet preserve in every sense the dignity of girlhood. That is what commands the highest respect for a girl. It is a very fine line which divides unconventionality in a girl's deportment from a certain license and freedom of action, which is so fraught with danger. And yet on one side of that line lies a girl's possession: her self-respect, and on the other side her loss of it. That line is the fence, and a girl cannot be too careful about removing one stone from it. She may think it smart or clever if she just seeks to remove the small stone which lies on the top. But in that very act she shows a lack of cleverness. No greater satisfaction than this can come to a woman: the consciousness that she preserved, at all times in her girlhood, the precious possession of her future womanhood. And one little slip can dim that satisfaction.

Truths Told in a Few Words.

A child's respect for its parents is not secured by over-lencency any more than by over-severity.

A daughter should never seek nor be allowed to "outdress" her mother. In every family the mother should be the best-dressed member.

The discarded finery of a daughter should never constitute a mother's wardrobe. No one feels especially dignified in the presence of one whose old clothes she is wearing, and a mother should at all times preserve her dignity before her children. The mother who never loses her queenliness will never lose her crown.

Preventable misfortunes consist, chiefly, of manifold things, little to do, but immense things to have done.

The man who earns one dollar and spends two, and the man who earns two and spends one, stands on either side of the hair-line between heedlessness and discretion, between ruin and safety.

Parents generally receive that measure of filial respect they deserve—not always perhaps but very generally.

When a mother allows her daughter to appropriate her wraps, gloves, veils, or other articles of personal attire, she begins a policy of familiarity which sooner or later breeds contempt. A respect for one's belongings engenders a respect for their possessor.—August Ladies' Home Journal.

The Only Way.

A prominent educator once remarked to a class in elements of education, "There are a great many methods in teaching, that are used by different teachers with apparent success; but there is only one way to teach and that is the right way; and when you have found that way failure is impossible."

This can be said of every profession or occupation in life, they are all crowded to overflowing with theories, plans and methods of all kinds, both practical and impractical and yet the only way, the right way if it was known, would answer at all times, in all cases, and never fail.

The various nations of the world have each a form of government of their own while in some of them there is a great deal of similarity, yet in each there are some things characteristic of the people of the different nations of the world that show there are many ideas as to the best way of governing the people.

And in every country and every clime there is strife and contention, which shows that wrong is being done the people in one way. It shows that the right form of government has never been established not a right form of government, but the right form of government, which administers to each and every one equal justice and mercy.

When all the world is governed in the right way, then strife and contention must cease, then all will receive equal justice and mercy, and all will be satisfied.

Large volumes have been written on the various religious beliefs of the world many of which claim for their foundation the sacred scripture, and many more of them would fain try to attribute their origin to the same divine agency;

Yet we know that it is impossible for all to be right. Only one plan was given whereby we might inherit eternal

FREE TRIAL. A postage of our medicine for many nervous debility and loss vitality sent free for 10 days, no money required. DR. WARD LEE, 121 E. 2d St., N. Y. C.

Where are you going? We are on our way to the RANCH SUPPLY HOUSE. THEY SAY EVERYTHING IS SO CHEAP AT THAT STORE.

My wife wants one of those beautiful SPRING HATS and dry goods provisions &c. I need a Spring SUIT myself and we think we can save money by trading at the

Queens-ware, Hard-Ware, Dry-Goods, Groceries &c.

I am Agent for the world famed McKORMICK BINDERS and MOWERS. I keep on hand all the time a full line of supplies for these machines.

Last but not Least.

When you are badly in need of the only PERKINS WIND MILL sold in Sioux County, call on me.

J. H. BARTELL.

We pay the freight on this KIMBALL ORGAN In Nebraska and Western Iowa.

You Get \$195 Organ for \$89.

YOU PAY FOR IT WITH A FIVE DOLLAR BILL down and \$5.00 per month. Fully Guaranteed for 5 years.

Now write us for Description and Catalogue. We will tell you all about it. We have been telling our friends about this now 23 years.

A. HOSPE, OMAHA, NEB.

To accept all the different theological theories we make God out a liar and his divine word a fiction. For narrow is the road to eternal life; but broad is the road to destruction. So we find in religion as in all other things there is but one right way. And the divine word tells us to "seek and we shall find" and it shall be opened unto us. A young Persian gentleman delivered a lecture in one of the Lincoln universities a few years ago on the manners, customs and various religious beliefs of Persia. Among the different religious sects, he told of a people known as devil worshippers, who worshiped the devil with many times more zeal than do the professed christians worship God. They believe that the devil and Christ are brothers; and that, before the creation they quarreled and the devil was cast out. But that he will one day be reinstated in the kingdom and will share equally with Christ.

And all who have worshipped him here and have done his will, will also enter with him in glory and have an equal share in the blessings of Christ. There is crime in all history of crime

too revolting to a civilized people for a worshiper to commit.

The more treachery and heartless cruelty he can display the better devil worshiper he is. The will of the devil is to break every command of God and in every thing to be directly opposed to God.

Nikola Tesla's Great Discovery.

NEW YORK, Aug. 4.—Nikola Tesla announces today the completion of his wonderful, new discover, the simultaneous transmission of messages by means of the earth's electrical currents to as many scattered points on the surface of the globe as may be desired. This he regards as by far his greatest achievement. To a few intimates he gave a thrilling demonstration of the operation of his device for arresting and subjecting to control, under natural laws the electrical substances in and about the earth. His latest invention, or discovery, is to produce such a disturbance of the electricity of the earth which can be felt and noted simultaneously at all parts of the globe.—Denver News.
