A repair shop 12x16, a box stall 16x16 and 9 double stalls occupy one side and 1,600 ft of cattle shedding the other side; while the main room will hold 175 tons of hay, the probable cost is about \$750.

WOMAN'S COLUMN.

Edited by Mrs. Geo. D. Canon. Short articles from the ladies of Sioux county are solicited.

The Only Way.

Continued from last week.

Recovered from a sickness of any kind, he must kill a Mohamedan. If he is a braver man he will be a better devil worshiper if he kills himself afterwards. In speaking of the following, his satanic majesty, I have used the personal pronoun of the masculine gender because in Persia the women are not supposed to have a soul, unless they are successful in stealing one from a devil worshiper when he is praying. In which case the man loses his soul and the benefit of his prayers. This is done by simply touching a man while he is at his devotions.

The devil worshippers meet once a day on a little kind of a knoll, where they can see in all directions, and in a place in the open air set apart for this particular purpose. They kneel around on the ground so as to form a circle each man with his gun by his side and if at any time while praying they should see a woman approaching the one who sees her first, rises and takes his gun and shoots her, and then kneels down and goes on with his prayers. In this country it is different, the women are treated differently.

They are supposed to have as much soul to save as men and in all religions and in every thing in their field save that of politics the doors standing open to her as well as the men. Yet this Persian gentlemen who understands all the doings of the devil worshippers in his own country, says we devil worshippers here only we dont call them that. Saturday night July 17th demonstrated this fact with out any further argument.

In foreign countries where the people worship any one but our God the people are heathens. Here the people worship the same way and are called christians.

There is some difference between the devil worshiper here and those of Persia.

In Persia the devil worshippers publicly proclaim their allegiance to their satanic host and are proud to own his leadership.

Here the people publicly denounce the ownership of such a leader, and condemn his works as infernal and openly follow in his wake while proclaiming their love to Christ and confessing him to be their one example. These people surely are not seeking the one way, "the right way, the only way" to serve God, and serve him right. But they have found one way and the true way to serve the devil and serve him well. From our county paper we learn that a saloon is soon to be opened here in town. His satanic majesty in the shape of a saloon keeper is coming from Crawford to settle in our midst. If he does he will furnish an excellent opportunity for the people once more to take lessons in doing the works of the evil one and most especially for the little children whose tender minds are more impressionable and easy moulded, will be furnish an ample opportunity to become thoroughly grafted in the devil's works, and the instruction they will receive at his hands are likely to be more lasting than any they shall receive at home, in the public school or in the Sunday school or church. And they will perhaps be prouder of his leadership than are christian people of this present generation. They will have the best chance of their life to learn the one way the only way and the right to serve the false prophet to the best of their ability.

We cannot serve God and mammon. To serve God we must do his will and follow in the path he has made for our guidance. But the only one path and that a narrow one, but it grows brighter and brighter the longer we follow it. We follow mammon and the path is broad and bright at the commencing but it grows darker and darker the longer we follow and its end is darkness. Which way will you choose? There is one right way that leads to a perfect day. There is one wrong way that leads to death. BITTER SWEET.
