The Sioux County Journal.
(ESTABLISHED 1868.)
Subscription Price, \$1.00
OFFICIAL PAPER OF SIOUX COUNTY.

Geo. D. Cannon, Editor.

Entered at the Harrison post office as second class matter.

Ex-Auditor Mayhew of S. Dakota who was being tried for embezzlements was acquitted by the jury on the 22nd inst.

Japan wants \$200,000 indemnification from Hawaii to pay for damages caused by the Hawaiian immigration exclusion act.

London England has had a \$10,000,000 fire—one of the worst fires for many years. Few, if any fatalities to life has been reported.

Austria-Hungary has called down the Ottoman government for a national insult according to dispatches Abdulhamid has come to time like a little man. This time it was not little Greece.

Huntington, the president of the Central Pacific Railroad is now bending every nerve to have the sale of his road extended till 1901 so that he will have a better opportunity to defraud the government out of its equity in the road. A powerful lobby will be in Washington this winter to work the congress.

In one small county or parish in the Island of Cuba only 50,723 people have died within a period of 23 years, and something like 6,000 have been actually starved to death within the past 18 months. Should the United States tolerate such barbarous acts? That is what the Cleveland-McKinley administration have done and is doing today.

De-president Cleveland's foreign policy was a waiting one; president McKinley is pursuing the same kind of a policy. He is waiting until the Cubans are all starved and murdered and our trade relations with the Island are destroyed because he will not act. Mr. McKinley is carrying out the home and foreign policy of Grover Cleveland to the letter. Compare their administration as far as president McKinley's goes and draw the comparison.

The Republican papers point with pride—some of them at least—how president McKinley has saved the federal government's claim in full, when in reality the New York World was the prime factor in doing the saving business for the government. To prove it, after the New York World went after the syndicate and showed it up with the administration the syndicate raised their first bid eight million dollars did McKinley do it? he did not.

President McKinley said in his message to congress in recommending a new tariff measure last march the purpose of the law was to provide sufficient revenue without delay, hindrance or postponement. The law has been a success only to trusts and corporations who, of course must have a recompense for this part. It took in facting out the people the republican party, together with the continuation of the single gold standard. How do you like it?

For the four months that the Dingley tariff law has been in operation it shows a deficit of an average of \$10,439,730, or a total of \$41,719,000, since the law went into effect. If it should continue to fall short for the next eight months as it has for the last three months and a half the amount will reach the enormous deficit of \$138,177,000, which exceeds the deficit of the Wilson tariff measure for any one year while in operation more than six million dollars think of it you high protectionists.

Like a crowing, the leaders of the Republican party in this state are grasping at straws. After being fairly beaten at the polls. Nov. 2nd; they come now protesting against overruling the vote of about 21 counties which would defeat the will of the people in the election of Judge Hullman and the two reform members of the State University. Of course this is the preliminary step toward "overruling by injunction." It may be that the majority of state Porter has done wrong, if he has he ought to be punished but it is our opinion that the majority porter has doubtless performed his duty according to law and believe we are sure that the majority will have done what the majority in the past have done.

Just about the time congress is ready the Spanish government gets wood-ruffly humane in order to have a quieting effect on the members of congress.

The competitor crew captured by the Spanish government in Cuban waters as filibusters a little over a year ago and sentenced to death by that government, has been pardoned by the Queen R-gent. The crew are now on U. S. Soil.

The republicans of Ohio voted the old Soldiers at the Dayton Ohio Soldiers Home which is a federal institution. It now appears that the vote cast from that institution is to be contested by the Democrats on the grounds that the votes cast by its inmates could not vote there but should have come to their own homes to cast their votes the same as all federal officers or employees. Should it prove to be good law and sustained by the courts of the land it will reduce the republican majority in the Ohio legislature at least five which in that event, would elect a democrat U. S. Senator.

No Compromise Here.

It is surprising to note how very little it takes make some people smile and look happy. If it were before election it would be nothing at all strange but after the election is over to think that a little item in the newspaper relative to a similar election in another county should stir up the defeated party that they imagine they can see through smoke and gloom a faint dimish gleam arising ray of hope. Drowning people will catch at a straw so it is said. This seems to be the case with the non-elected party in this county they are in water to deep to wade through, and they cant swim and under such circumstances they realize that it is only a question of time, and only a very short time at that.

Then they will have sunk so deep and far out of sight that there will not be even a ripple in the water to tell where they went down and so, to buoy up their sinking spirits and to resurrect their dead hopes, they catch at everything however frail that comes within reach. Hoping that by so doing, one member of their party may be able to pass safely through the dark waters of despair and be the means of prolonging the life of their party. And they hint that even at this late day is not too late conveying the idea that it might yet be able to patch up matters in some way or other, so that he could assist or have a voice in the management of the office to which he aspired.

And they never stop to think how embarrassing and annoying it must be to such a one after having been defeated by the defeated party to have ones own party show so little feeling and sympathy. Because the opposing candidates in Bart county concluded, just before election, that two could run the office better than one and so up and got married in order that both might win the election is no reason why one's own party need to be so unsympathetic toward their defeated candidates. In this county the idea of a compromise of any kind is all one, equally ridiculous, laughable and imbecilic to the lady superintendent elected in this county, as it is annoying and embarrassing to her defeated opponent.

But should any such a compromise, as the defeated party hint at, be effected, Bart county will know that the earth is off her track without any bombarding from Sioux County at all and that the final smash up of the entire universe may be expected any second.

Mrs. ELsie MERRIAM.

To the Readers of The Journal.
Ft. Collins, Colo. Nov. 17, 1897.

Ed. JOURNAL: I have thought you might be glad to hear of my observations and experience in Colorado. Coloradans are Americans with true yankee push, and patriotism. Citizenship here means freedom of speech, press, and sex to the fullest extent for all. There is no taxation without representation here. It was a pleasing sight on the 2nd to see husbands and wives coming locked arm or in carriages and making out their franchise together; there were no drunkards nor fights, nor brawls, but the business was done as decently and orderly as going to church. Hurrah for universal suffrage! I have looked over considerable country here, the climate and scenery is very much like the Hat creek Basin, only that it is enlarged and intensified; the mountains are higher, with some leaning to the east. The degree of cold is lower in winter, coming down to 24 or more below zero. They have the advantage of larger streams but not one-fourth so many of them. The plains are smoother; and the people about twenty years ago began a work is earnest to take out ditches and build reservoirs. I have inspected one reservoir north of town that covers about 600 acres at an average of 18 feet, the city park at Denver contains about 100 acres, and by ditches, more or less

for the park but artificial ditches made the lakelets. It is a beautiful place; so that that day will come when an enterprising people will so appropriate our streams and fresh flows, in the "basin" as to fairly irrigate all the valuable lands there, which will make it just as good or better than this, millions have been spent here to store and direct the waters of Colorado, and a happier and more hospitable people it has never been my good fortune to meet.

Yours Truly, B. F. THOMAS.

Warbonnet Warblings.

Omaha peddlers were doing business in the valley one day last week.

Mrs. Leslie Crane is recovering from Lung fever and whooping cough.

James Merriam is suffering from an attack of rheumatism, but is still able to be up and around.

Dan Slattery is back in the valley once more having returned Iowa last Saturday.

The whooping cough has made its appearance in the family of Sam Leeling. Several of the children are down with it.

Gene Figow and family visited with Mr. and Mrs. Priddy a few days last week.

Mrs. Alice Kutzer has decided to remain all winter at the home of her father H. T. Merriam visiting her relatives and friends and looking over the country.

She continues to like Sioux county; by Spring she may decide to locate here.

R. B. Koel, Lion Ellis, Mr. and Mrs. Priddy, Mrs. Garton and several others from this burg were doing business at the Hub last Saturday.

Ella Neorah had the misfortune to get thrown from a horse and hurt her arm quite badly, so she has been unable to attend school. At this writing she was on a swift path to recovery.

John Anderson and Sam Leeling have been hauling cord wood from Warbonnet canyon during the past week.

Ecno.

Montrose Clippings.

These mornings are quite cold on the mail carrier.

Jacob Henry, Sr. will move his cattle from near Ardmore to his ranch on square creek tomorrow.

Low Gayhart went to Elgmont last Friday to pay his Bro. a visit.

Mrs. J. J. Henry from Antelope creek has been visiting her parents in south-bly canyon.

F. Pickenbrock is building a new barn on his place near Montrose.

There were twenty grey wolves seen south east of Montrose last week. The neighbors all turned out last Saturday after the wolves but we did not hear the result.

SAGE.

How To Find Out

Fill a bottle or common glass with urine and let it stand twenty-four hours, a sediment or settling indicates an unhealthy condition of the kidneys. When urine stains linen it is evidence of kidney trouble. Too frequent desire to urinate or pain in the back, is also convincing proof that the kidneys and bladder are out of order.

What To Do.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp Root, the great kidney remedy, fulfills every wish in relieving pain in the back, kidneys, liver, bladder and every part of the urinary passages. It corrects inability to hold urine and scaling pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to get up many times during the night to urinate. The mild and extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists, price fifty cents and one dollar. You may have a sample bottle and pamphlet both sent free by mail. Mention THE SIOUX COUNTY JOURNAL and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The proprietors of this paper guarantee the genuineness of this offer.

A Grand Opportunity.

There are today thousands of young people on the farms and in the villages who are tied down by lack of education to work they heartily dislike. Are you one of them my friend? If so, the Grand Island Business & Normal College can put you on the road to success if you are ambitious and willing to study. It makes no difference how backward you are provided you are plucky and mean business. We teach everything necessary for a successful start in life. If you are short of money we will accept a good note without interest for tuition or if necessary we will furnish everything—tuition, board, and books and give you time to graduate and pay for your education. Business Normal and Short-hand courses. \$1.50 per week. Established 1878. College Record sent free on application. 5 cents in stamps. This is a chance of a life time. Will you reply? Address: A. W. HANCOCK, President, Grand Island, Neb.
