OFFICIAL PAPER OF SIOUX COUNTY.

Entered at the Harrison post office as second class matter.

A happy New Year to everybody.

The Chestnut National bank of Philadelphia was struck with a severe stroke of prosperity last week.

The old year, like some of our prosperity banks will close it doors to the world Friday evening.

Kirtz, chairman of the Ohio, republican state central committee, declares that Senator Hanna will be defeated for election to succeed himself in the legislature which convenes in that state Jan. 6th.

Booth Tucker, commander of the salvation army in the United States, left New York city on the 28th inst with a colony of salvationists for Monterey, Cal., where they have secured several hundred acres to make their future homes on.

The report that secretary Gage of the treasury was about to resign, has been denied by the assistant secretary of the treasury, Mr. Vanderlip; he also makes the statement that the views of the president and Mr. Gage exactly agree on the financial policy.

On December 24th the Chicago Coliseum that immensity structure, which was twice as large as the Madison square garden building of New York became a total ruin. The fire ignited, and was over in about one half hour. It was the quickest ever witnessed in Chicago (which by the way) is noted for her rapidity every thing. At least ten persons are missing and the injured will number about twenty-five.

According to a statement made in the New York World of the 22nd inst, 92,000 people in New York City alone are without visible means of support during the winter, and those figures may be augmented by forty or fifty thousand more by next spring. If this is true, and we do not doubt it, where is that wave of prosperity that was to strike this country, soon as McKinley was inaugurated on the 4th of last March.

If editor Rosewater, of the Omaha Bee, and Judge Keyser, could read the comments made by the editors of the country press and how they feel in regard to injunction processes as a last resort to silence free speech and the press as printed from day to day in daily and Sunday World-Herald they would conclude at once that the people and especially country newspapers which represent the sentiment of the country are opposed to disreputable methods used by certain kinds of politicians, trust companies and monopolies in order to gratify some motive that could not be attained in a fair and honorable way. But such acts as government by injunction which the gold standard people are resorting to in their last day's of rule and ruin, is opening the eyes of the great mass of the people and before another four years has passed away the party represented by such men as Judge Keyser and E. Rosewater of the Bee, will have been numbered with the dead past, for behold old things will have past away and all things will be come new.

Only two weeks ago 28,000 cotton operatives of Fall River, Mass., had their wages cut 10 per cent. Now, on the 20th inst the Manchester (N. Hampshire) mills have declared a 10 per cent, cut in the wages of its operatives effecting 20,000 hands. Also at Sun Cook, N. H., 10 per cent cut of wages has been declared affecting 1500 hands at that point; And at Pawtucket R. I., the Royal Weaving Company have shut down their mills because the weavers would not stand a cut in wages of 15 per cent. It is said by the managers of the several Companies, the cause for cut in wages and shutdown was over production. Yet, the Dingley tariff law is intended to stimulate production. A little more high protection stimulation, and legislation in the interest of National banks, trusts, monopolies and corporations and the laboring class may be able to get work at 60c and board themselves. The laboring class ought to keep right on voting for high protection and the single gold standard. Oh yes vote her straight.

China stands a good show of being divided up among the different nations of Europe.

Boston went democratic last Tuesday by 2,300. McKinley's majority in November, 1896 was 180,242.

Should the ex-captain general wylor of Cuba plan an expedition against the United States and carry it into effect this country will be safe so long as captain Lovering lives. He would soon dispatch the bloody Wyler.

Another huge Octopus in the form of a coal trust has been formed to control the coal mines of Illinois, Ohio, Indiana, the Virginia's and Pennsylvania, which will absorb \$44,600,000 from the people and turn it into the coffers of J. Pier Morgan & Co. This man Morgan controls 40,000 miles of railroad in the United States, and not content with that he is now turning his attention to getting hold of the natural resources and public utilities of the country besides he has his hand on the finance of the nation. What are the people thinking about? If corporations, trusts, and monopolies continue in the future as they have been in the past two years, what will the next four bring fourth.

On the 20th inst senator Chandler published or rather, permitted a personal letter to be published warning the administration and congress that gold monometalism would defeat the republican party in 1898 and also, in 1900 if the President and secretary Gage's financial policy was persisted in longer. Then follows senator Walcott's protest threatening to resign his seat in the Senate if the president was determined to ignore bi-metalism, and assist Wall Street, corporations and trusts to the exclusion of all other interests and the people of the west and south.

Will these men be denominated cranks and anarchists by their constituents? No we do not believe they will, because in our opinion these men, though they have given the administration the benefit of every doubt, they now have arrived at the point where the two ways part, and are justified in standing for the interests of the masses—the wealth producing, who are the laboring class and which represents 85 per cent of the population of the nation. Bi-metalism is coming as sure as the sun rises and sets.

The protest of Charles U. Grove and others against the establishment of county road, commencing at the north-west corner of sec. 16, Township 32, Range 32, running thence one and one half miles north to connect with road No. 22, was presented and all papers relative to said road were taken up and after due consideration the protest is hereby rejected and the county Clerk ordered to appoint appraisers to view and appraise the line petitioned for.

The claim of Henry Kreeman of \$60.00, for the completion of county Bridge on Section line between Sections 31 and 32, Township 34, Range 51, was presented and on motion allowed and warrant ordered drawn on Bridge fund of 1897 for same.

The affidavit of H. L. Whitney, agent of the Pioneer Town Site Co., alleging that Lot 7, in Block 9, of the Village of Harrison was illegally assessed as an improved lot, and after due consideration the Board find that the facts stated are true and on motion the county Treasurer is hereby authorized to reduce said assessment to \$20, the same as other unimproved lots.

On motion Board adjourned till 9 a. m. Dec. 30, 1897. M. J. BLEWETT, Clerk.
