-Parties who have little feeling for dumb animals, should read the monthly paper published in Boston, Mass., entitled Our Dumb animals. Any body, who will abuse horses, cattle, cats, dogs &c will certainly not be held guiltless of sin by our heavenly Father in that day when He makes up his "jewels" if God created all things—We do not doubt it in the least—then dumb animals which were created for our use and to be our servants, were also created with feelings in like manner as human beings.  
-A very serious and what might have been a fatal run-away, occurred in our city, on last Saturday evening about six o'clock, when Mr. Lacy Sr. and Mr. Johnson, started homeward, a team owned and driven by the former named gentlemen, in some way became unmanageable and dashed from the control of Mr. Lacy throwing both the occupants of the vehicle out on main St. after which the horses ran in the direction of the section house, when in some way they became freed from the wagon, and in a few moments after they were captured. -The city council are now seriously thinking of putting up a windmill for pumping the water for our town, instead of using the steam engine as has been done in the past. W. Hester has made a proposition to put in a 15 foot mill and do the pumping for the town until the mill is paid for, at a certain price, after which the wind mill will be turned over to the city as their property. Good scheme.  
-Hon. Frank Tinkham and "Jack" Krisher, his better half, who have been out in the Laramie mountains mining for the past six months returned home last Monday evening for a rest and vacation. The boys have not been working their own claim to amount to much since they were here the last time, choosing rather to let the company who owns and is operating a mine close to theirs develop the district which will be pretty certain to indicate the value of theirs. They report the prospect in that country good for their mining interests and believe they made no mistake in locating a claim up there every body was glad to see the boys, and the boys were glad to see every body down here. Frank and Jack will remain in Sioux county for two or three weeks.

A special invitation is extended to members of a school board to come and visit us, and encourage the teachers to greater efforts than ever before, by showing an appreciation of their efforts in giving them their hearty support.  
It is only right and just, that the teachers, who spend their time and money each year that they may be better prepared themselves for their work in the school-room, should have a first choice in our public schools.  
However the sole aim and end of right education is not just to teach school. The true aim of right education is to assist in the development of all the mental and physical powers. The end of right education is the complete development of those powers. I hope to meet many others at this Institute besides those who expect to teach school.  
Visitors will receive a hearty welcome.  
ELSIE MERRIAM  
COUNTY SUPERINTENDENT.

**One of Two Ways.**  
The bladder was treated for one purpose, namely, a receptacle for the urine, and as such it is not liable to any form of disease except by one of two ways. The first way is from imperfect action of the kidneys. The second way is from a careless local treatment of other diseases.  
**CHIEF CAUSE.**  
Unhealthy urine from unhealthy kidneys is the chief cause of bladder troubles. So the womb, like the bladder, was created for one purpose, and if not doctor-ed too much is not liable to weakness or disease, except in rare cases. It is situated back of and very close to the bladder therefore any pain, disease or inconvenience manifested in the kidneys, back, bladder or urinary passage is often, by mistake, attributed to female weakness or womb trouble of some sort. The error is easily made and may be as easily avoided. To find out correctly, set your urine aside for twenty four hours; a sediment or settling indicates kidney or bladder trouble. The mild and the extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney and bladder remedy is soon realized. If you need a medicine you should have the best. At druggists fifty cents and one dollar. You may have a sample bottle and pamphlet, both sent free by mail, upon receipt of three two-cent stamps to cover cost of postage on the bottle. Mention the SIOUX COUNTY JOURNAL and send your address to Dr. Kilmer & Co., Binghamton N. Y. The proprietors of this paper guarantee the genuineness of this offer.
