OFFICIAL PAPER OF SIOUX COUNTY.

Geo. D. Canon, Editor.

Entered at the Harrison post office as second class matter.

The Journal stands fairly and squarely on the Chicago platform, but will not hesitate to support and work for the election of candidates for the various offices to be voted for this fall no matter whether they are Democrats, Populist or free silver Republicans, if endorsed by all the reform parties, conditional, however, that they advocate bi-metallicism, the income tax law, opposition to national banks of issue, are opposed to the retirement of the greenbacks and treasury notes, favor government control of railroads, telegraph and telephone lines and the establishment of postal savings banking system, and also are opposed to the issuing of national bonds in time of peace.

It looks as if the money power had got in their work in congress.

Gov. Holcomb will not be a candidate for the re-election this fall.

The Populist National committee will meet in Omaha, some time in June.

The senate resolution was concurred in except the first paragraph acknowledging the independence of Cuba.

It is evident that the president has carried his point in having congress pass such resolutions as suits his fancy.

The concurrent resolution passed, both houses of congress at 1:30 o'clock Tuesday morning which means that the Spanish will have to get off the island of Cuba sooner or later.

Senator Hale's remarks in the Senate on the 16th inst. shows the vindictiveness of the man and his spirit which he holds against political opponents when their services are needed.

Under the state administration of the reform forces in Nebraska, the state debt has been reduced over a half million dollars and the disbursement to the public schools increased to \$247,252.51.

Hon. Theodore Roosevelt, assistant secretary of the navy may possibly resign his position, in event of war with Spain he will tender his services to the government to help reduce the Spanish forces in Cuba.

The Journal believes president McKinley had it about right when he said it was a executive act to acknowledge a foreign republic. But it is also the opinion of the JOURNAL that he ought to have acknowledged the Cuban republic soon as he took his seat or at least six months ago.

Senator Foraker dealt the president a severe blow in the senate by engineering his resolutions through that body, but the president with the help of Hanna and Elkins lapped it to Mr. Foraker in the end by the adoption of the house resolution in both branches of congress on the 19th inst.

Following is how the Washington news bureau sizes up the Populist representatives in congress:

The Nebraska delegation in the lower House of Congress are all Populists but two, and are among the very ablest men in that body. Judge Maxwell heads the list in age, he has had a life's experience on the Judicial Bench, is in every way a very conservative, able man.

Judge Stark is also an ex-judge of first-class ability. His work in Congress shows him to be one of the ablest as well as industrious men in the House. Always cool and collected, in a running debate he has but few equals. Judge Stark is almost always right in every question and by his equitable character has gained friends and influence which has enabled him to accomplish good results for his people.

Hon. R. B. Sutherland has distinguished himself as the orator of the delegation besides he is an able influential member.

Hon. W. L. Green is a rough-and-ready fighter, an able orator, active and industrious.

The Nebraska Populists are a credit to any state, and are the equal of any delegation in Congress.

WAR NEWS.

A PROSPECT OF WAR.

As indicated by the daily Press.

Senate Passes Davis Resolution with the Turpie-Foraker Amendment.

Late last Saturday evening the U. S. Senate passed the following resolution acknowledging the Republic of Cuba and the driving of the Spanish from the western hemisphere by a vote of 67 to 21:

Resolved, By the senate and house of representatives of the United States of America, in congress assembled:

First—That the people of the island of Cuba are, and of right ought to be free and independent and that the government of the United States hereby recognize the republic of Cuba as the true and lawful government of that island.

Second—That it is the duty of the United States to demand, and the government of the United States does hereby demand that the government of Spain at once relinquish its authority and government in the island of Cuba and withdraw its land and naval forces from Cuba and Cuban waters.

Third—That the president of the United States be and he hereby is directed and empowered to use the entire land and naval forces of the United States and to call into actual service of the United States the militia of the several states to such an extent as may be necessary to carry these resolutions into effect.

Fourth—That the United States hereby disclaim any disposition or intention to exercise sovereignty, jurisdiction or control over said island, except for the pacification thereof, and assert its determination when that is accomplished to leave the government and control of the island to its people.

The above resolutions were concurred in by the house, excepting that part of the first paragraph, which acknowledged the republic of Cuba and was signed by the president Wednesday.

The congressional Cuban resolutions in connection with president McKinley's ultimatum as directed by congress was called to the Madrid government yesterday and the ultimatum gives that government 48 hours to comply with the demands of the United States. Tomorrow night at 6 o'clock the time limit will be up, and unless a satisfactory reply is at hand by that time, instructions will be given to the U. S. naval forces to blockade the harbors of Cuba, when hostilities will commence. About Sunday or Monday of next week the American guns will be playing on the city of Havana. We believe Spain will back down.

Everything here indicates war and the independence of Cuba—The tents and equipments of the 9th U. S. cavalry were loaded at Ft. Robinson last night as we came down, and I talked with Corporal Jenkins and Sergeant Goodenow of G. troop, who said they were to move tomorrow morning.

Yours truly,
B. F. Thomas.

Ed. JOURNAL,
Sir:

In taking a trip to Gering last week mostly for pleasure we were struck favorably with the lay of the country. No doubt the Platte Valley, both east and west of Gering will make as fine a farming country as can be found in the west. Especially, when all the irrigation ditches new under construction are complete. Gering itself is nicely located; it has 27 windmills and the man who has no windmills has no standing in society. We found the citizens of Gering very cordial, also highly moral; they must be very kind hearted or there would not be as many cripples as there are in town, altogether a bright future without doubt is in store for the people of Gering. I do not think there is quite as much gold there as some thought there was.
