OFFICIAL PAPER OF SIOUX COUNTY.

Geo. D. Canon, - - - Editor.

Entered at the Harrison post office as second class matter.

The JOURNAL stands fairly and squarely on the Chicago platform, but will not hesitate to support and work for the election of candidates for the various offices to be voted for in this fall no matter, whether they are Democrats, Populist or free silver Republicans, if endorsed by all the reform parties, conditional, however, that they advocate bi-metallism the income tax law, opposition to national banks of issue, are opposed to the retirement of the greenbacks and treasury notes, favor government control of railroads, telegraph and telephone lines and the establishment of postal savings banking system, and also are opposed to the issuing of national bonds in time of peace.

Wheat full 19c in Chicago yesterday.

The highest point wheat reached last week was \$1.75.

According to report to yesterday's World-Herald a cable has been cut by Spanish in South America waters.

Genl. Fitzhugh Lee is slated for the first military governor of Cuba by the administration, so says the daily papers.

Fitzsimmons and James J. Corbet, it is reported by the daily papers are to have another bout--stakes to be \$25,000.

One more American Naval battle like that of Commodore Dewey's, will no doubt settle the Spanish dynasty forever.

A part of the Nebraska Volunteers at least will be sent to the Philippine islands according to an order from Genl. Alger to Gov. Holcomb yesterday.

Serious differences it is reported by dispatches from Washington have arisen between Gen Alger and Sec. Gage which the report claims will necessitate one or the other to resign.

The daily World-herald shows that her war news is up with any of the great eastern metropolitan dailies. Any person in the North west, who desires to obtain all the news all the time and up to date should take the daily World-Herald.

Those who have not read the true report of the Com. Dewey battle at Manila May first should get the Sunday World-Herald of the 8th and read it, for it is an interesting narrative of the greatest naval battle ever fought on water in the history of the world.

Our noble and heroic Commodore Dewey, after the notable battle at Manila, lost not a moment but like all noble warriors, anxious to crush the haughty pride of castile and free Cuba, and add her star to the american galaxy, under whose fostering care Cuba will blossom as the rose. Three cheers for Rear Admiral Dewey.

As stated some two weeks ago in the columns of the JOURNAL, that bonds would be authorized by congress if the Wall street Spaniards wanted them. The statement will soon be verified; according to late dispatches from Washington six or seven hancrats which means no more no less than a gold republican, will make it possible for the national bankers of this country to get what they want, and whenever they want it at the hands of congress. Greenbacks and treasury notes, the money of the poor people will not give but about sixty million of usurers money to the Spanish bond-holders in this country, hence, the bond issue politics and money seems to be the principle feature with a few of the head men of this nation.

Stray Notice.

Strayed or stolen, from my place near Ft. Robinson, one roan, white-faced Bull, one Year-old, branded, knife blade on left hip and end cut off right ear.

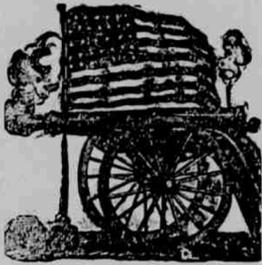

Address, O. E. KALATHUM, Ft. Robinson, Neb.

Miss Helen Gould has set a good example to the rich bond holders of New York and other large cities by donating a check to Uncle Sam for \$1,000,000, actuated no doubt by pure motives and patriotism. What have the national bankers of New York done? simply nothing but to ask congress through the administration to authorize another bond issue. Quite a difference between the patriotism of Helen Gould and the millionaire bankers of the country.

WAR NEWS.

A PROSPECT OF WAR.

As Indicated by the daily Press.

Very little war news has transpired within the past week to be of very great interest to the people of the country. But of course, no telling when some startling news may flash over the wires that a great battle is being, or has been fought.

Last Monday morning report reached here that the cruiser Montgomery had been over taken by a large Spanish battleship and had been sunk with all on board. But, Tuesday's World-Herald special dispatches report the whole story a fake.

5000 U. S. troops landed in the province of Matanzas, yesterday; and 5000 leave Uncle Sam's domain for there today.

A Case of Suicide.

Monday morning early Dr. Phinney received a telegram from Adelia a little village on the B. & M. railroad north-east of Harrison 35 miles saying that James Swinbank had been burned up in his house Sunday night. As Dr. Phinney was county coroner he was requested to come at once and hold an inquest on the charred remains of the deceased. On account of the doctor being obliged to attend district court which was to convene soon as the train should arrive he was detained until near 4 o'clock in the afternoon before he could get relieved from court. But though late he repaired at once to the scene of what proved to be suicide. On arriving there coroner Phinney found that as reported by telegram James Swinbank with the house he and brother lived in with all its contents were burned.

A letter left by the deceased and found probably one hundred yards from the house proved beyond a shadow of a doubt that Mr. Swinbank had committed suicide first setting the house a fire and then shooting himself with a 22 caliber rifle.

The brother who had lived with the deceased was away at Crawford on business and during his absence took this opportunity of self destruction. The short note which was left as stated above and addressed to his brother was to the effect that he thought it was better for him to die than to suffer longer and bidding him with others good bye. Mr. Swinbank was little past 30 years old and had been a patient sufferer with chronic rheumatism which prompted him to close his earthly career.

An inquest was not held as it was thought the note left was conclusive evidence of the suicide. John Mosely a neighbor impaneled a jury and held an inquest but as the coroner concluded it was not legal he did not recognize it as such and besides he did not think it was necessary to hold an inquest under the circumstances. The body what was left of it was prepared and shipped to Illinois the old home of the deceased for interment.

Those who are intimately acquainted with the brother of the deceased, will certainly sympathize with him in his bereavement which will be so hard for him to bear.

War News Twice a week.

The fact that the Omaha Weekly World Herald is issued twice a week gives it an immense advantage over other weekly papers sent out from Omaha. A subscriber to the weekly World-Herald gets his war news twice a week instead of only once. For this service the World-Herald charges only \$1.00 a year, which is less than one cent a copy,

WELL WORTH READING.

Something in This Column That Will

Interest Every Body.

Something to Remember.

Perpetual Motion.

The question of perpetual motion has been solved by a populist genius:

Rags make paper.
Paper makes money.
Money makes banks,
Banks make loans.
Loans make poverty.
Poverty makes rags.

Rags make--well you stop here and commence over again and keep on going until the cows come home.--Kausan.

Belong to the Living.

The supreme court has decided against an income tax. The decision should be reversed if possible. If the constitution is such that the decision must stand, it should be amended so as to allow the Government to get at corporate wealth which is escaping taxation. It is the same with charters. I don't believe in long-time charters. How can one generation of men give away the rights of those who come after them? The right to control the affairs of the world belonging to the living.--Gov. Pingree.

Licking Congress.

"If we can hold congress for twodays," remarks Mr. Steve Elkins, "we have got it licked." That appears to express the dominant idea of the administration. The object is not to "lick" Spain but to lick congress and incidently the people of the United States. And the outlook favors the hopes of the administration.--Chicago Chronicle.

Tyrant or Coward.

Gold is a tyrant in time of peace and a coward in time of war. Gold never did serve as a circulating medium in time of war and it never will.--National Era (Vincennes, Ind.).

The Anarchist Pingree.

That dreadful Michigan anarchist has broken loose again. His latest political heresy is the dogma that every one should be made to pay his just share of taxes.--Journal (Chicago).

The Cause of Crime.

A great deal of crime says Benjamin Swift is due to want of proper nourishment in childhood and youth and to the irritability which results from a starved body and brain.

Best American Thought.

The record believes that the municipality should acquire ownership of the street railway lines as soon as possible. It believes that an honest council will come inevitably to this conclusion when it begins to consider the matter. This is in line with the best American thought on the subject.--Chicago Record.

A Strong Government.

We must have a stronger government. The wealth of the country demands protection. Its rights are as sacred as the rights of the paupers who are continually prattling of the encroachments of capital. Without blood, and rivers of it, there will be no political change. To avert fearful bloodshed a strong central government should be established as soon as possible.--Senator Sharon, deceased millionaire.

Why not.

Some newspapers claim we ought to annex the Hawaiian islands because Americans have thirty million dollars invested there. Well, if that is good logic the united states ought to be annexed to England because the British have over fifteen billion dollars invested here.--Brick-layer's Journal.

Childless.

She stood and watched where little children played.
Her carriage waited for her in the street--

A woman fair by wealth and love Arrayed;

The children of the city at her feet.

As one who dwells with plenty close at hand,

And yet may not be fed or satisfied.

She looked in silence at the little band,

As men must ever look at gifts denied.

They vanished down the street with happy cries;

She turned away and as she raised her head.

I read the language of her wistful eyes;

"I have been cheated"--that was what they said
