

# NOT THROUGH YET

## ADMIRAL DEWEY NOT SATISFIED WITH LAURALS GAINED

Follows up his Signal Triumph and Threatens to Bombard Ports of the Philippines - Cables Cut - Spain Acknowledges Her Fleet's Destruction.

MADRID, May 3.—El Liberal says Dewey has demanded the surrender of all Spanish vessels in the Archipelago, threatening to bombard the ports if refused. The formation of a new national ministry is possible.

LONDON, May 3.—The Daily Mail has a dispatch from Hong Kong dated Monday, saying Dewey's fleet is off Corregidor island, hotly engaged with forts there. Electric experiments show the cable to be cut at or near Manila.

NEW YORK, May 3.—The central cable office of the Western Union Telegraph office this afternoon issued the following notice:

"We are officially advised by the Eastern Extension company that the cable between Hong Kong and Manila is interrupted."

LONDON, May 3.—An official news agency's dispatches from Madrid says Sagasta has gone to the palace. It is understood he will communicate dispatches announcing that the town of Cavita has been razed, unfortified part of Manila burned.

Official news agency dispatches from Madrid say Americans fired petroleum bombs. An extraordinary cabinet council was convoked at 7 o'clock last evening.

MADRID, May 2.—Romero Robledo will question the government in the senate today on events at Manila.

Peoples' minds are too full of the disaster to think of anything but avenging the surprise at Manila bay.

Governor Aguilera's entire energy is required to watch popular feeling. The people are certain to require a propitiatory scapegoat.

S. A. M.—The Spanish admiral acknowledges his fleet has been completely demolished. The United States fleet is blockading Manila. The bombardment of Manila is expected to take place.

LONDON, May 3.—A dispatch to the Daily Mail from Madrid dated yesterday morning says: The cabinet ministers admit that the naval battle of Cavite ended in utter rout, but they are resolved to spare no efforts in the defense of their country.

MADRID, May 2, 8 a. m.—A dispatch to the Liberal from Manila says Admiral Montojo, the Spanish commander, acknowledged that the Spanish fleet has been completely defeated. He adds that the crew of the Spanish war ship Minillano has been saved.

The British consul at Manila, E. H. Rawson-Walker, has conferred with Commodore Dewey. The object of their conference is not known.

Further advices from Manila to the Liberal says the United States fleet has taken up a position in front of Manila and has established a blockade of the port. The population of Manila is fleeing from the city. A bombardment of the town is expected to take place today.

### DISPATCH FROM ADMIRAL MONTOJO SHOWS HIS UTTER ROUT.

MADRID, May 3.—While ministers Sunday evening were dismissing Governor-General Augusti's dispatch rumors reached the cabinet that the newspaper men had received news of the second engagement. General Cerrea and Admiral Bermejo immediately communicated with their departments, and found that a fresh dispatch was being despatched. Premier Sagasta ordered the dispatch brought to the council for deciphering. The contents of the message showed the state of mind of the sender, Admiral Montojo, but finally its contents were elucidated and demonstrated the complete destruction of the Spanish squadron.

General Cerrea and Admiral Bermejo went straight to the queen regent, who was terribly distressed.

Madrid was not excited this morning, but sad faces were to be seen everywhere. The newspapers censure the street demonstrations made last evening against the cabinet and in front of General Weyler. A crowd of people gathered before General Weyler's residence, cheering for his former captain-general of Cuba, and another crowd assembled before the house of Premier Sagasta and hooded him.

The prefect ordered the crowds to be dispersed. Several arrests were made.

### Prepared for Immediate Action.

WASHINGTON, May 3.—When asked if the army was preparing for an invasion of Cuba as an early date Secretary Alger replied:

"We are preparing for immediate action and we try to keep so prepared, but plans made today may of necessity have to be changed tomorrow, and that is why we are compelled to keep absolute silence, for every detail that becomes doubtful necessitates another change."

### Prospects of Another Battle.

RIO JANEIRO, May 3.—The Spanish gunboat Temarrio has arrived here and a fight is expected.

The Spanish gunboat Temarrio still remains at Enseada, on the La Plata, where she has been for a day or two undergoing repairs of her machinery.

### To Protect American Interests.

VIENNA, May 3.—The Austrian cruiser Maria Theresia has been ordered immediately to Cuba to protect the interests of Austria-Hungary.

# DARK FOR SPAIN

## Madrid Turned Over for the Military to Rule.

LONDON, May 4.—A special dispatch from Madrid says martial law has been proclaimed there. The customary proclamation was posted last night.

Military patrols have just appeared in Puerto del Sol, the principal square of Madrid.

The proclamation of martial law is due to the attitude of certain political parties, since the news from Manila. The whole garrison is ready in the barracks. It is suggested at Madrid that the half-breeds at Manila arsenal, insurgents at heart, cut the cables connecting with the submarine mines, enabling Dewey to force the harbor in safety.

Another dispatch states that all classes in Madrid, especially politicians, hope for intervention of continental powers, especially Germany and Russia. The Madrid correspondent of the Standard, telegraphing at midnight, says:

"Enor Aguilera, the civil governor of Madrid, has just posted on the walls of the home office the customary proclamation intimating that the home office authorities consider the circumstances justify the handing over to the military authority the mission of keeping order."

Le teniente-General Faban, captain-general of Madrid, has assumed charge and the first military patrols have just appeared in the Puerto de Sol. The measure has been taken in consequence of the attitude of certain political parties since today.

MADRID, May 4.—The cabinet council after a late session decided to proclaim a state of siege immediately. Ministers deny the existence of a cabinet crisis.

### MOB STONE A THEATRE

The mob last night attempted to break into the Apollo theatre and hold a manifestation. The police prevented the attempt from being successful, but the crowd broke all the windows before they were dispersed.

Immediately after the declaration of martial law large numbers of the police and the civil guards occupied the principal streets. The Puerto del Sol is held by a squadron of the Princess Hussars, while the Pavia Hussars, dismounted, are in the Poncejas square near the telegraph office. Considering the extraordinary precautions that have been taken there are remarkably few people about.

### Will Hold to Philippines.

WASHINGTON, May 4.—The cabinet is expected to decide whether troops shall be sent to assist Dewey in retaining possession of Manila.

The president will await advices from Commodore Dewey before deciding whether to send troops to Manila.

The administration has practically decided to uphold the Philippines with a strong military force as soon as possible after Commodore Dewey's report, which is expected today, has been received. For this purpose Pacific slope troops will be used, and it is expected that at least 5,000 will be en route within the next ten days.

There does not seem to be any doubt as to the government's purpose to hold the islands pending a final settlement with Spain, when they will be used as a collateral to secure the payment to the United States of a war indemnity. High officials are of the opinion that none of the powers will seriously dispute our right to make such a final disposition of the islands. The purpose in the enforcement of our claims against Spain and in any event the government will be prepared to contest any point which may be raised on this score.

As indicated in Secretary Long's request yesterday for an emergency appropriation, the government will take steps at once to supply Commodore Dewey's fleet with provisions and other supplies, including ammunition and coal, and to this end will dispatch at the earliest possible moment a sufficient number of ships to supply amply all possible needs of the Asiatic squadron. These supplies will be forwarded at once without awaiting a decision of the question as to whether or not troops should be sent out to relieve the commander of the necessity of paying Manila with the men from his fleet. One ship has been secured already as a collier. It is said to be a much faster vessel than those usually so employed, but it will take about three weeks to reach Manila and it may stop en route at Honolulu to replenish its own coal supply from the large accumulation held there by Admiral Miller.

It may be that the department, in case of further need, will try to secure more coal for the American Philippine fleet from a nearer and cheaper source than C. H. Florida. It is believed that there is nothing in the neutrality laws of most nations that prevents a merchant from shipping coal to a belligerent power, though a warship of such belligerent is restricted in taking on such coal in the neutral port. Of course the merchant would make the shipment at his own risk, for coal probably would be held to be contraband by the Spaniards.

### No Prospect of Intervention

VIENNA, May 4.—It is positively denied in well-informed circles that the powers will intervene at the present juncture. A disparity of views is held such as makes co-operation of all six powers in any diplomatic step highly improbable.

BERLIN, May 4.—It is believed in political circles here that America has gained the prize she really had in view having promised not to annex Cuba, and giving no promise as to the Philippines.

# MANY WILD RUMORS

## BATTLESHIPS LEAVE CAPE VERDE BUT DESTINATION UNKNOWN

Dewey's Fleet Near the Philippines—Austria Partial to Spain—The Panther Safe.

WASHINGTON, April 30.—Yesterday was a day of alarming rumors, running all the way from the blowing up of a big monitor to the detection and punishment of traitors, but fortunately all of them turned out on inquiry to be without foundation. Actual events of importance were few in number.

The news of the day of most interest was the departure from Cape Verde of the Spanish fleet, the story of which at St. Vincent has been a source of anxiety on the part of the officers here, because it seemed to indicate the sympathy of Portugal for Spain might lead her to wink at a violation of neutrality laws in favor of Spain. Late in the afternoon a cablegram came to the state department from Cape Verde, bearing no signature, announcing that four battleships and three torpedo boats had started north and some of the transports for Cuba, and that the northern fleet returned shortly, having been in collision. Because there was no signature attached the officials did not know what importance to attach to this message, as these are not times to act on what appears to be information without due scrutiny.

Captain Sampson sent an official telegram regarding the firing at the Matanzas forts, but it was disappointingly lacking in detail, but the few words contained in the dispatch went to confirm the view that the affair was nothing more than a naval reconnaissance.

No news came from Admiral Dewey's squadron, now on its way to the Philippine islands to do battle with the Spanish fleet. One official pointed out yesterday that if Admiral Dewey succeeded in defeating the Spanish fleet, the Spanish officials who control the cable connecting the island with the rest of the world in all probability may suppress the news or distort the facts into a Spanish victory. Presuming that the admiral is bound directly for Manila, the calculation made at the navy department shows he will arrive about 2 o'clock Saturday morning, Manila time, which is about twelve hours earlier than ours.

Dewey's Fleet Arrives of the Philippines. HONG KONG, April 30.—It is reported from Manila that the American squadron has been sighted off Bolinao, north of Manila, but the weather is too stormy for the fleet to communicate with the insurgents.

MADRID, April 30.—Dispatches received here yesterday from Manila, the capital of the Philippine islands, says the United States fleet is expected to arrive at Manila on Sunday. The Spanish fleet has been divided into two squadrons. Two cruisers, the Castilla and other vessels, remain near the front of Manila. The remaining Spanish warships, under Admiral Montojo, are patrolling the eastern coast awaiting the arrival of the American ships. The Spanish fleet, it appears, has been reinforced by a large auxiliary cruiser, said to be capable of steaming twenty knots and armed as a warship. It is known as the Montevideo, and an examination of the maritime registers fails to establish its identity. It is asserted, however, that it is a very large vessel.

LONDON, April 30.—According to a dispatch from Singapore to the Daily Mail, the French steamer Saigon and the Spanish steamer Espana have arrived there from Manila, both crowded with refugees from the Philippines.

### Austria Partial to Spain.

LONDON, April 30.—The Vienna correspondent of the Morning Post says: "Emperor Francis Joseph privately contributed \$100,000 to the national naval subscription in Spain and has further shown his sympathy by permitting a number of Austro-Hungarian officers to join the Spanish flags. The Archduke Eugene has gone to Madrid to stay with the queen regent during this critical period."

"Austria maintains the strictest neutrality, but I am informed from the best sources that in the event of a revolution in Madrid the Austrian forces will be at the disposal of the queen regent. The emperor is determined that her majesty shall have the benefit of his fullest protection."

MADRID, April 29.—Spanish residents in Mexico have cabled the government offering to send the necessities of life to the Cubans.

### Freight Train Wrecked.

FLINT, Mich., April 30.—Fifteen freight cars of an extra train on the Flint & Pere Marquette railroad were wrecked in a collision here Thursday morning. The rear portion of the train had become detached. The forward portion was at a standstill when the rear cars dashed into it, demolishing fifteen cars and piling up a mass of wreckage. Four tramps are believed to have been caught in the wreck.

### The Panther Safe.

KEY WEST, April 30.—The troop ship Panther arrived at 11:10 yesterday morning from Hampton Roads with 800 marines conveyed into port by the Montgomery.

VALLEJO, Cal., April 30.—The cruiser Charleston will be ready for sea service in a few days. It has been painted the usual war color. Work on the Yorktown and Philadelphia is being expedited. The number of men employed at Mare Island navy yard is 1,766.

# BATTLE OFF MANILA

## Dewey Meets the Enemy's Fleet in the Philippines and Wins a Victory

WASHINGTON, May 2.—The first notable naval battle of the war was fought Saturday off the Philippine islands between the United States Asiatic fleet, Admiral George Dewey commanding, and the Spanish squadron, commanded by Admiral Montojo.

Unprejudiced advices indicate a victory for the American fleet, one unconfirmed report declaring the Spaniards were utterly routed and their squadron totally annihilated. The only official reports from other than a Spanish source are the following:

"Lisbon, May 1—11 p. m.—Reliable news received here that Spanish fleet was completely defeated off Cavite."

### SAILED TO AVOID CAPTURE.

MIDDLBURGH, An official telegram, received at a late hour from the governor-general of the Philippines, says:

"Admiral Montojo has transferred his flag to the cruiser Isla de Cuba from the schooner Reina Maria Christina. The latter was completely burned as was also the cruiser Castilla, the other ships having to retire from the combat, and some being sunk to avoid their falling into the hands of the enemy."

### One Shot Stopped It.

NEW YORK, May 2.—A Key West special says that the torpedo boat Foote has brought in a steamship which she captured while the warship was trying to enter Havana harbor Saturday. The Foote fired a shot, which caused her to stop and a prize crew was put aboard.

### Madrid, May 1.—An official dispatch from Havana says:

"An American ship has bombarded a battery at the entrance of Cienfuegos, but it was driven off by three of our gunboats, and put out of the harbor in a western direction. She maintained some slight damage. Other men-of-war have threatened the Mariel coast. Troops have been raised, many Cubans at Havana offering their services to repel the American attacks and they will be incorporated into a Cuban brigade, which is now being formed."

### No Mercy on Spanish Spies.

READING, Pa., May 2.—A heavily armed squad of a dozen men went on duty at Carpenter's street works yesterday in consequence of reports from elsewhere of suspected Spanish spies in the vicinity of other establishments which are engaged on government work. The guards have orders to shoot any suspicious characters who fail to depart after fair warning.

### Thinks the Spanish Fleet Defeated.

LONDON, May 2.—While it is quite clear that the Spanish squadron has suffered a crushing defeat, the dispatches leave unclear the intensely interesting question whether the American squadron has suffered material damage.

All news thus far comes from Spanish sources, but it is so evident that Commodore Dewey is in captured Manila. Unless he is able to make another attack and capture the town he will be in an awkward position, having no base upon which to retire and to refuel. Probably, therefore, the United States squadron will be obliged to make for San Francisco, as the entrance to Manila bay was heavily mined with torpedoes.

Commodore Dewey displayed great pluck and daring in making for the inner harbor. According to private valuations received from Madrid the United States Cruisers Olympia, Raleigh and two other vessels, the names of which are not given, entered the harbor. No dispatches give details as to the vessels actually engaged on either side.

It appears to be incorrect that the American ships finally anchored behind the merchantmen to the east side of the bay.

Probabilities point in the direction of the second engagement having occurred through the Spaniards trying to prevent the landing of the American wounded.

### A Panic in a Theatre.

SAN FRANCISCO, May 1.—Toward the close of the operatic performance by Madame Melba in the California theatre last night the bursting of a steam pipe in the adjoining building caused a quick fire. The old wooden building was soon in a blaze and the people in the crowded theatre, seeing through the windows the reflection of the flames, disregarded the reassuring statements of the management and attempted to rush from the building. A panic followed and many women fainted, but miraculously none were injured. Ladies in their wild attempts to escape from fancied dangers left purses, bonnets, wraps and jewelry. These were trampled under foot and many valuables were stolen.

Madame Melba fainted on the stage. The fire department building was gutted, as was also the St. George's stables. The damage to the theatre was slight, caused by smoke and water. Loss, \$15,000.

### Naval Officer Disciplined.

WASHINGTON, May 2.—Lieut.-Com. Charles A. Adams, attached to the receiving ship Independence at Mare Island, was convicted by court martial of intoxication and sentenced to dismissal. The president has mitigated the sentence by dropping the officer forty-nine numbers and putting him at the foot of the list of lieutenant-commanders. The commutation was made because the officer's splendid past record.

# GONE TO PORTO RICO

## REAR ADMIRAL SAMPSON PUTS TO SEA FOR A DOUBLE PURPOSE.

Sending Gun Dons the Glory Which Dewey Has Shown on the American Navy Spanish Fleet Remoteness of New Cadiz—Mexico Calls a Halt.

LONDON, May 5.—A dispatch to the Daily Mail from Key West, Fla., sent by way of Tampa, in order to escape censorship, asserts of positive knowledge that Rear Admiral Sampson's fleet will steam at full speed to Porto Rico, either to destroy or to occupy the coaling station as a naval base before the Spanish squadron arrives, and then to put to sea and try to engage the Cape Verde fleet.

Key West, May 5.—10:40 a. m.—Rear Admiral Sampson's fleet has sailed and an important engagement is anticipated in the near future.

This harbor is again empty. Rear Admiral Sampson's fleet has sailed and the situation is one of renewed expectancy. There is a strong impression prevailing that the next news from the fleet will tell of an important engagement of the same character as the Asiatic squadron's Manila victory. Until then no interesting developments are expected except possibly the bringing in of new prizes.

### SHORT SCHEDULE FOR AMERICAN NAVY.

LONDON, May 4.—Vice Admiral Philip Howard Colomb, retired, the inventor of improved systems for signaling at sea, and the author of a number of naval works, in an interview on the subject of the splendid victory of the United States fleet at Manila, is quoted as saying:

"I doubt if there ever was such an extraordinary illustration of the influence of sea power. A superior fleet has attacked and beaten a Spanish fleet supported by batteries, and, it now appears, it passed those batteries and has taken up an unassailable position off Manila. The boldness of the American commander is beyond question. Henceforth he must be placed in the Valhalla of great naval commanders. Nothing can detract from the dash and vigor of the American exploit or dim the glory which Dewey has shed on the American navy. It may be bad for the world, for assuredly the American navy will never accept a subordinate place after this exhibition of what it can do."

### Spanish Fleet Start for American Waters.

LONDON, May 5.—News has been received here to the effect that the Spanish Cape Verde squadron has returned to join the Spanish fleet near Cadiz, which is nearly ready for sea. It is added that the combined fleet of Spain will shortly start for American waters.

NEW YORK, May 5.—The Spanish fleet which was at the Cape Verde islands, consisting of the Vizcaya, Almirante Oquendo, Cristobal Colon and Maria Theresa (all first class cruisers), accompanied by the torpedo boat destroyers Terror, Terror and Pluton, left St. Vincent, Cape Verde islands, on April 29, destination unknown. The distance from the Cape Verde islands to the Canary islands is about 876 miles and the distance from the Canary islands to Cadiz about 700 miles. The Spanish squadron, being five days out from St. Vincent, could have made Cadiz by this time, steaming at the rate of about 300 miles a day, or a little over twelve knots in an hour. But the Lisbon dispatch does not say distinctly that the squadron has reached Cadiz. It announces that the squadron "has returned to join the Spanish fleet near Cadiz" which may mean that the news comes possibly from the Canary islands or from some other point.

At Cadiz the Spaniards are understood to be fitting out the battleship Oquendo, the first class cruiser Cardinal Cisneros, Emperor Carlos V., Giuseppe Garibaldi and Alfonso XIII., besides the war ships Numancia, Vittor a Destructor and several auxiliary cruisers and a number of torpedo boats and torpedo gunboats.

### Mexico Calls a Halt.

CITY OF MEXICO, May 5.—The government has stopped the contemplated meeting of Spanish clerks here for the purpose of raising money and volunteers for Spain. The police were ordered to prevent the meeting as contrary to obligations of a neutral nation. There has been great excitement here over the naval victory and its moral effect will be great, for the Spanish local papers and other journals under Spanish influences have confidently anticipated a triumph for Spain in the first encounter on the ocean. Resident Europeans who have been predicting the defeat of the Americans are chastened. There is intense commercial jealousy of Americans and this hostile sentiment is displayed in the papers here. The Spaniards are predicting an unexpected blow by the cruisers at some point on the Atlantic coast.

### McKinley Starts to Go.

WASHINGTON, May 4.—President McKinley last night opened the electric eye position at Madison Square garden, New York, by pressing a gold telegraph key in his office at the White house.

### A Floating Hospital.

WASHINGTON, May 5.—The warship Vigilance has chartered the steel ship Vigilance, to be used for the purpose of a floating hospital to accompany the array when it undertakes the occupation of Cuba. The Vigilance's gross tonnage is 4,115 tons, length 321 feet and beam forty-five feet. The Vigilance will also serve as a supply depot, from which requisitions for medicines for use of the troops in the field will be filled.

# Nebraska Notes

W. H. Taylor's general merchandise store at Exeter was broken into one night last week and quite a haul made from the jewelry department. An entrance was effected by prying up the lower sash of one of the back windows in the store room and the door between this room and the store proper was opened without difficulty. Three gentlemen's gold watches, one of them having a chain and chain attached; three brass gold rings of various designs and six or a card of stock pins have thus far been found missing. The men's underwear and shoes had also been overhauled, the thieves evidently fitting themselves out with what was needed in this line. The store also had been tampered with. Aside from this Chas. Royce had a sorrel horse taken from his stable evidently by the same parties. The animal was given to bucking and due to this Mr. Royce succeeded in tracking it to some distance south of town where the trail was lost. It is generally believed that the guilty parties are a couple of quite respectable looking tramps who were seen around town Sunday evening.

Persons wishing to experiment this year with best growing corn obtain free sample of seeds, sufficient for planting one-twentieth of an acre, by addressing Prof. H. H. Nicholson, State University, Lincoln, Neb. Early application should be made as the amount of seed available is not large and requests will be honored in the order of their reception. Analyses of seeds raised will be free of charge by the department of chemistry. Brief directions for planting and cultivating and blank form for reporting results will be sent with each package of seed.

The Nebraska University regents have decided to open a school of domestic science next year with Miss Rose Boston, for several years one of the instructors in the department of chemistry, an instructor in charge. The design is to make this school similar in its work to the school of agriculture for young men. An ordinary English education will be sufficient for admission to this department. It will be thoroughly practical in its work and will try to give scientific training in the practical field it enters upon.

The new city council of Tekamah took charge of their offices Thursday night. A petition was presented with a large number of signers asking the council to call a special election for the purpose of voting on the question of granting saloon licenses, which was rejected by a unanimous vote. The new council also passed an ordinance prohibiting the running of a board or pool hall in the city. The mayor appointed all committees and city officers with the exception of street commissioner and city marshal and adjourned to Wednesday evening.

Mayor Fisher of Hastings inaugurated a reform movement that will be heartily endorsed by the believers in Sunday observance. Saturday he issued an ultimatum against paying cards on the Sabbath hereafter and every raffle dazed joint in the city remained closed from midnight Saturday night until opening time Monday morning. The mayor insists that he will pursue this policy throughout his administration.

Guy Murray, employed in the elevator of the Standard Cattle company at Ames, was seriously injured last week. He was found in the engine room in an unconscious state and was taken to the hospital in Fremont, where it was discovered that his jaw was broken in two places besides many bruises. No one was with him at the time of the accident so it is not known how he was injured.

Ed Minnick of Auburn, who has for many years been before the courts on a charge of unlawful selling of liquor, Friday morning appeared in district court and pleaded guilty on two counts and was fined \$100 and costs on each. Other old counts against him are still standing to his credit. The complaints on which he pleaded guilty came up from Julian.

George Kenworth has been arrested at Beatrice for alleged boot-legging. Recently J. R. Hoagland, father-in-law of a man named Armstrong, prevented the latter from buying liquor, and it is said Kenworth bought the stuff for him. In default of \$300 bond Kenworth lies in jail.

A thief by the name of Busse was tried in the county court at Tekamah last week and sentenced to thirty days in the county jail, two days of each week to be placed on bread and water. Busse was tried for stealing a harness and wagon a year ago.

The safe in the law office of Francis Martin of Falls City was broken Thursday night and all the valuable papers were taken. These were found at the Missouri Pacific stock yards Friday morning unharmed.

Albert Scott of Loop City, while coming home from Sherman's ranch at 11 o'clock Friday night was held up one mile south of town and relieved of \$230. Mr. Scott moved here from Richardson county about six weeks ago.

The vacancy caused by the threat of R. A. Wherry, supervisor from Falls City, has been filled by the appointment of W. W. Jenne, who was recently defeated for city treasurer.

The Geneva Odd Fellows celebrated at Exeter Friday, the attendance and interest being decidedly affected by the war excitement and the call of the militia.

Sheriff Ogg of Geneva has offered a reward of \$25 each for the apprehension of the prisoners who broke jail there last week.
