Every body who has a spark of patriotism about them should not fail to be present on that memorial occasion.

The old soldiers who saved this Union and helped to maintain a glorious republic in 1861 to 1865 should be honored once a year at least. Let every body come and strew flowers upon the graves, the hallowed spot where he last remains of one who served his country when it was in peril.

Another One Gone.

E. J. Wilcox an old soldier and G. A. R. comrade has, since the last memorial and decoration day when he was present and helped to decorate the last resting place of some of his old comrades in arms and pay tribute to their memory, passed to the great camp ground on high. Thus it is the old soldiers one by one are dropping out of the earthly ranks and are filling up the ranks on high of those who have gone on before. And now others who are left to fight their last battle will strew flowers upon his grave in memory of his services to his country and to his fellow-man. Only a short time ten or fifteen years at most will have closed the earthly career of them all. A special invitation is extended to members of a school-board to come and visit us, and encourage the teachers to greater efforts than ever before, by showing an appreciation of their efforts in giving them their hearty support. It is only right and just, that the teachers, who spend their time and money each year that they may be better prepared themselves for their work in the school-room, should have a first choice in our public schools. However the sole aim and end of right education is not just to teach school. The true aim of right education is to assist in the development of all the mental and physical powers. The end of right education is the complete development of those powers. I hope to meet many others at this Institute besides those who expect to teach school. Visitors will receive a hearty welcome.
