Dr. Clark.—Our little girl Emma had catarrh from a nursing baby. It made her ears run matter and she was so deaf she could hardly hear a steam whistle or thunder. We recommended using your catarrh remedy and I feel thankful to say her ears are well. She can hear even a whisper now. She is fourteen years old and I think her catarrh is well. MRS. ELIZABETH DOUGHERTY, Crawford, July 20th, 1896.

We mean the school bell well, it rang out for the little ones on last Monday morning, after several weeks vacation. —Perry White has rented the John Stratton house, and will move his family to town in about a month. In the mean time the children will drive from the canyon to school. —Notice—I tan cattle hides and all kind of skins with hair for robes, or without or leather. See sample and prices in J. H. We take this opportunity to thank her. —Mrs. Will Hough, daughter of Mr. and Mrs. Peter Bourrette, who was near death's door last Friday morning is reported to be out of immediate danger and will doubtless be up and around in a week or ten days. —Perry White, was obliged to go to Crawford last night to get some repairing done for his engine and also have the foundryman come up with him and assist him to overhaul the mill and put it in best of order, as he has orders for lumber to keep him sawing until snow flies. —Olney Kendall left last Tuesday morning with his mother for Chadron where he will attend the academy during this scholastic year. We are informed that George Williams, will later on this fall go to Chadron to attend the same school and that he and Olney will rent a room and board themselves. —Mr. and Mrs. William Bourrette, who were married in Harrison last Thursday and who went to Chadron the same evening to spend the honey moon for three or four days returned last Monday noon, while there Mr. and Mrs. Bourrette purchased some fine house furniture which arrived on the same train with them. Hence, Mr. and Mrs. Bourrette will be at home at their Running Water residence from this on where they have set up house keeping for the future in the new house which Will had just completed for the occasion. —The JOURNAL family are indebted to Mr. Perry White and his estimable wife for a pleasant trip to their hospitable home on Spring Creek last Sunday, Perry having come in to town after us with his team in the early morning and then brought us home again in the evening. To say we were treated as Kings and Queens by our host and hostess is only putting it mildly. Their table was filled with the best that could be had, on which the inner man feasted, while the outer man feasted on mountain scenery.

Dr. Clark discovered the catarrh Remedy now sold under his name in 1878 and has used it in his private practice until he thought the public should have the benefit of his discovery and wherever introduced it has surpassed every other Catarrh Remedy on the market. Catarrhal matter on examination, was found to contain germs and cholesterina which proves it to be a germ and blood disease; and the mistake of catarrh specialists is that they only treat for one of the causes. Read the following testimonials. M. D. CLARK.

Lewis Gerlach of this place for representative at Crawford next Saturday. Sioux county is entitled to the candidate. —Capt. J. J. Adams and F. E. NOTICE.—Until the Bodarc post office is reestablished the JOURNAL subscribers will be obliged to get their papers at the Harrison office. It is to be hoped the department will arrange matters pretty soon as it is not only doing an injustice to the patrons of the Bodarc office but it does the JOURNAL an injury as well as most all the business houses in Harrison. —The Post Office Department have notified postmaster Bogart of Harrison, that he should, Sept. 3rd, discontinue to supply the Bodarc office from and after the above date. Hence, Judge Hunter has a post master's commission, but no mail to hand out to the public. How to Tell To-Morrow's Weather. A short, clear, entertaining and valuable lesson for amateur weather observers is given in the September Ladies Home Journal in the form of a series of pictures of clouds, with brief explanatory notes. The page is well worth examining and saving, for there is nothing in the article which would not be understood by anybody, even a child and a little close study will make one qualified to form better opinions than ever before as to what the weather will be.

A CRITICAL TIME DURING THE BATTLE OF SANTIAGO.

Sick or Well, a Rush Night And Day. The packers at the Battle of Santiago de Cuba were all heroes. Their heroic efforts in fighting Anauition and Rations to the front saved the day. B. E. Butler, of pack-train No. 3, writing from Santiago, De Cuba, on July 23d, says: "We all had diarrhoea in more or less violent form, and when we landed we had no time to see a doctor for it was a case of rush and rush night and day to keep the troops supplied with ammunition and rations, but thanks to Chamberlain's Colic, Cholera and Diarrhoea Remedy, we were able to keep at work and health; in fact, I sincerely believe that at one critical time this medicine was the indirect saviour of our army, for if the packers had been unable to work there would have been no way of getting supplies to the front. There were no roads that a wagon train could use. My comrade and myself had the good fortune to lay in a supply of this medicine for our pack-train before we left Tampa and I know in four cases it absolutely saved life." The above letter was written to the manufacturers of this medicine, the Chamberlain Medicine Co., Des Moines, Iowa. For sale by Dr. J. E. Phinney.

Some Plain Facts. Grave errors, injustice, wrongs of greater or less degree, arise from lack of knowledge of the truth, and more frequently from deception. The most infamous case on record of deception and injustice is the attempt to demonetize silver as a money of final redemption in the United States. There is no learned judge, skilled lawyer, or court of justice that is capable of reconciling the effort with the constitutional laws that govern the issue of money in this country. The people have been deceived, officials in power, chosen to administer justice under the laws, have ignored their sworn duty, and given aid to the scheme that has paralyzed industry, reduced property values one-half, and beggared millions. There is no authority of law, either specific or by inference, by which gold alone is made the only money with which to discharge debts, either public or private. The effort to make it so is unconstitutional and a national calamity. Plain and ample information, facts, and truth, concerning this almost successful scheme to corner the wealth of the people, is now being printed in the Cincinnati Enquirer, a newspaper which the combined power of money has failed to muzzle or buy. The Weekly Enquirer is only 75c. a year. The Address is Enquirer Company, Cincinnati, O.
