

Stop Coughing

Every cough makes your throat more raw and irritable. Every cough congests the lining membrane of your lungs. Cease tearing your throat and lungs in this way. Put the parts at rest and give them a chance to heal. You will need some help to do this, and you will find it in

Ayer's Cherry Pectoral

From the first dose the quiet and rest begin: the tickling in the throat ceases; the spasm weakens; the cough disappears. Do not wait for pneumonia and consumption but cut short your cold without delay.

Dr. Ayer's Cherry Pectoral Plaster should be over the lungs of every person troubled with a cough.

PISO'S CURE FOR CURES WHERE ALL ELSE FAILS. Best Cough Syrup. Tastes Good. Use in time. Sold by druggists. CONSUMPTION

Brown cloth gowns seem to have gained favor late in the season, and the special fancy for tailoring is a mixture of orange and blue. Violet cloth, embroidered in white, more applique with black and steel, is also very pretty with brown and the usual accessories of cream lace.

Black and white, always so popular, seem to be such a preponderance of white that in many cases the black figures are trimming than anything else.

Hedges as Vermin Breeders. Nobody now talks about the hedge as a cheap fence, though its other recommendation of being permanent unfortunately still holds good. Except for a border around some suburban residence the hedge is a nuisance, and is now little planted. In the country it is especially objectionable, as it keeps on growing unless cut back every year or two, and its roots extend on either side, robbing the cultivated land of moisture and plant food that the crops require. Most commonly the hedge is built around the orchard, possibly with the idea that it will protect the fruit from thieves. Instead of this, the hedge is apt to stir the ambition of all the boys in the neighborhood to try whether they cannot get through it, and we never saw the hedge that could keep a single boy out of where he wanted to go. But the worst of all the evils of the hedge around an orchard is that it is sure to be surrounded by tall grass, making the best possible harbor for rabbits, which will go through and strip the bark from apple trees. In most cases, too, the rabbit will strip the bark from the hedgerow trees, thus killing them and destroying the hedge.—American Cultivator.

The Lady Apple.

It is probably the small size of this variety, as well as its bright color and good flavor, that make it such a favorite on the parlor table. A plateful will give a taste of apple to a great many people, each taking a specimen. It has a small core, and is easily peeled, though many like the aromatic flavor of apple skin, and prefer to eat it without peeling. Though a small variety, it is a very productive apple, and always brings a good price in the market.

More or less experience is absolutely necessary to making a success with poultry keeping.

America's greatest physicians have conquered La Grippe and its after effects. Their treatment has been thoroughly tested in the hospitals of Europe and of this country, and is embodied in Dr. Kay's Lung Balm.

Rev. H. B. Dye of Morrison, Iowa, writes:—"Mrs. Dye had a bad attack of La Grippe which settled on her lungs. She used Dr. Kay's Lung Balm, with most decided good effects, which is a certain part of experience with her. Nothing is so prompt and positive in its effects on her lungs."

You should write for free advice and a copy of Dr. Kay's Home Treatment, an illustrated book of 116 pages of receipts etc. Dr. B. J. Kay Medical Co., Saratoga Springs, N.Y.

In the process of manufacturing the pleasant family laxative made by the California Fig Syrup Co., named Syrup of Figs, figs are used, as they are pleasant to the taste, but the medicinal properties of the remedy are obtained from an excellent combination of plants known to be medicinally laxative and to act most beneficially. As the true and original remedy, named Syrup of Figs, is manufactured by the California Fig Syrup Co. only, a knowledge of that fact will assist in avoiding the worthless imitations manufactured by other parties. The company has selected for years past the leading publications of the United States through which to inform the public of the merits of its remedy, and among them this paper is included, as will be seen by reference to our advertising columns.

Education means something more than information. It is not small intelligence. It is the process of bringing the individual in harmony with his spiritual environment. The purpose of education is the provision of happiness and contentment of the human family.
