The George Knight-Arlington fire case was settled in the district court at Blair by Knight pleading guilty to the charge of arson. The compromise came about through the attorneys on both sides. Knight's sentence will be one year in the penitentiary. This ends ington county's famous case and the compromise will save the sounty some 2,000 of costs and everyody seems satisfied with the result.

Elizabth Hawes, aged 14, a domestic at the Kyrd hotel at Fairfield, attempted suicide by shooting herself with a 33-caliber revolver. She had evidently laid deliberate plans to kill herself, as during the day she had asked the exact location of the heart and if a builet through the heart would kill at once. The builet passed through the left lung and lodged in the muscles of the back. The will likely recover.

A new ruse in shoplifting was sprung on one of the clerks in an Omaha hat store Wednesday afternoon by a man with a big head. A well dressed young man entered the store and asked to be shown some Fedora hats. The clerk observed that he wore a hat of that style, apparently new and a size un-usually large. The customer was shown the contents of several boxes, but none of the headwear suited and he went out without making a purchase. The crush to get aboard the Olympia never abated for a minute, and as great indulgence was shown by Admiral Dewey a goodly share of those who besieged the gangways got aboard. Owing to the stream of official visit-ors, the roar of salutes continued al-most without interruption all day. Ma-jor General Nelson A. They were received with all the honors betting their rank, but the climax was not reached until Gov-ernor Roosevelt came down the bay in the afternoon on the yacht Wild Duck. London.-(Special.)-That the Trans-vaal situation is increasingly gloomy is due to the fact that much seems to rest upon the character of the Boers' an-swes to last Friday's dispatch. Yet the latest news from Pretoria affords no clew to the nature of that reply. Symp-toms are not wanting of a hostile spir-it. The Pretoria News attempts to car-ry out a jingo policy by insisting that the Transvaal government notify the British that a further dispatch of troops will be taken as a casus belli. PEACE ADVOCATES KEEP BUSY. It seems to be the general impression also that advice of the same tener has been sent from Berlin to President Kru-ger. The friends of peace in London continue their unwearied efforts. Strong letters appear in the Times from Sir William Vernon Harcourt and Arthur Elliott, while "Diplomaticus," an anen-ymous, but influential, writer in the Fortnightly Review, presents strongly his view of what he terms Chamber-lain's mistakes. For years the Boers have been crying: "Throw the uitlander into the real' and 'Out with him!' Possibly they are not so virile as during the last war, but there is little difference. My idea is that if the Boers were caught in the open once or twice the thing would be ended. Kill 500 of them and all that would remain for England to do would be to send a few shiploads of crape. They never have stood in the open, and if war comes now, they will have to do more than stay in the hills. This is not optimistic twaddle, but an opinion bas-ed upon my experience in campaigne against the Boers. I haven't the slight-est fears for the safety of my colony or its towns. Form the mass into several rolls about as long as the width of each strip of wall paper and two inches in diameter. Wrap some write cotton cleth around each roll and stitch it in place, and then boil about three-quarters of an hour. By that time the dough relis are firm, and the cloth covering can be removed. These rolls of hardened flour and pumice stone are then used for rubbing over the selled portions of the paper. Not only will ordinary dirt spots beremoved, but grease will be absorbed by the rolls. After the rubbing the paper should be dusted off carefully with a clean cloth, and if any dirt remains the process should be repeated. This removes dirt much better than the bread process.

> From the Ladies' Home Journal: "A woman who is not strong, and yet has to perform the multifarious duties of house-mother and home maker, must earn to recognize her limitations or she cannot get through her task with satisfaction to herself or her family. She must learn to economize her health and not fritter away her strength in doing unnecessary things, which some one else can do as well, that she may have enough left for the important demands that no one else can satisfy. She must balance the claims of charity, society, and her own howsehold, and resolutely refuse to be pashed beyond her powers of endurance. It is hard to shut one's cars to what seems a call of duty, but to the wife and mother home is the first duty, the special field given her to cultivate, and her part may be only to train and support the workers whose business and duty lie outside in the world."
