The happy couple left last evening for their future home in Indiana, where the groom is engaged in farming. The bride and groom are deaf mutes.

Remember next Sunday will be Easter Sunday. Again the glorious feast of resurrection dawned, and in spirit we were carried with heavenly hosts to the land of the living, because the "goodly show of favour" is among us, truly the feast of the God-Man's triumph.

One of the greatest doctors, as well as one of the most able writers of the Roman church preaching to a vast multitude on the triumph of the risen God, striving to infuse into the hearts of his hearers, a spirit of that divine fire which glowed with such brilliancy within his own breast, enable to control his oration before, burst forth in the following eloquent words:

Mr. Palmer, of Chadron, was a guest at the Hester Mansion a day or two this week.

The state examiner has been here this week checking up the county treasurer, and we understand he found things all O. K.

E. E. Livermore, who has been at Chadron, during the past six or eight weeks taking treatment from an Osteopath there, returned home last Saturday somewhat improved.

Chas. Glass, of Crawford, was in town, the first of this week on business he sold a monument to F. J. Witt, which will be erected over the Grave of Mrs. F. J. Witt.

Mr. Harmon, the Chadron artist who has been in town during the past week is kept quite busy the gentlemen has thus far given satisfaction, and this accounts for his success. We understand he is connected with Mr. McIntyre of Chadron.

As General Otis informs the Washington government, the war in the Philippines is over and peace and quietude prevails, then of course the war revenue tax should be repealed, there being a surplus in the U. S. Treasury of \$24,000,000, with three months of the fiscal year to hear from.

Last Saturday, John Manning of Ardmore, was a Harrison, visitor, and as is wont when here, he called on ye editor, this time however to say good bye, as he informed us he had sold out his interest up in this part of the county to Peter Weidenfeld, and in a few weeks he with his family expects to leave for Platte county, this state where he will engage in farming. We are sorry to see any of our good people leave but of course each one goes with the intention of bettering their condition. We learned the consideration was \$1,000.

Citizen, J. C. Alexander of Ardmore was in our stopping over at the Harrison House last night, he was doing business with attorney Guthrie, J. C. predicts the election of Hon. W. J. Bryan, conditional, however, that the three reform parties nominate him with some good man like Hon. Chas. A. Town as his running mate, integrated as to what he thought of Admiral Dewey's candidacy for president, J. C. said that Dewey had come before the people in the interest of the republican party, thinking Dewey would be able to dislodge Mr. Bryan, but he says it can't be done with a Dewey.

Buff Coffee, who with his family have spent a year or two in Texas, returned to Sioux county, on last Saturday fully convinced that this neck-o-the-woods is just as good, and a little better for them than even Georgetown, Texas. We are sorry to state that Buff's little ones have the Hooping cough.

MOTHER.

Time has scattered the snowy flakes on her brow, ploughed furrows in her cheeks—but is she not sweet and beautiful now? The lips which have kissed many hot tears from the childish cheek are the sweetest lips in all the world. The eye is dim yet it glows with the rapt radiance of a holy love which can never fade. Oh, yes, she is a dear old mother. Her sands of time are nearly run out, but feeble as she is, she will go farther and reach lower for you than will any other on earth. You can not walk into midnight where she can not see you, you can not enter a prison whose bars shall keep her out; you can not mount a scaffold too high for her to reach, that she may love and bless you. In evidence of her deathless love, when the world shall despise and forsake you—when it leaves you by the wayside to die untouched—the dear old mother will gather you up in her feeble arms, carry you home and tell of all your virtues until you almost forget that your soul is disgraced by vice. Love her tenderly and cheer her declining years with holy devotion.—Ex.

It's up to the People.

Less than a year remains in which to gather facts, and information that will influence your vote for the next president of the United States.

That grievous wrongs have been committed, and grave errors allowed to exist without effort at correction, is evidenced by the speech, writings, and comments of eminent statesmen and jurists; congressmen and leading men of business; professors and clergymen in every state.

Party affiliations have been ignored in the outcry against thrusting aside the safeguards of our fathers and, smothering pell-mell into the affairs of Europe. The situation is a deplorable one if not alarming; as is also our domestic affairs dominated by gigantic Trusts.

The evils are not of spontaneous growth! They are the result of years of labor and expenditure of millions of dollars! Beginning with the displacement of American silver for English gold, the cunning of England's diplomacy in shaping the destiny of our Republic is apparent to any ordinary observer seeking the true inwardness of events.

The Cincinnati Enquirer has frequently called attention to each and every move as it was transpiring, and during the campaign of 1900 will present its readers with a truthful array of facts that will be extremely interesting and startling.

No fair-minded American, be he Republican, Democrat or of other political faith, can afford at this critical time to ignore the truth. Partisan prejudice, with the Trusts as dictators, is a far more degrading slavery than that which existed previous to the Civil War of '61-'64.

Trusts in the United States alone have a representative capital greater than all the gold and silver in the world. These will spend many more millions of dollars to suppress truth and facts and mislead all who fail to look beyond their plausible deceptions. Read the Enquirer and you will be able to discern the truth and combat falsehood. A victory for Trusts and the McKinley Administration in 1900 will end the era of greatest good to the greatest number.

GREENBACKS or Government Money.

At close of our Civil War in 1865, there appeared in the London Times the following:

"If that mischievous financial policy which had its origin in the North American Republic during the late Civil War in that country, should become indurated down to a fixture, then that government will furnish its money without cost. It will have all the money that is necessary to carry on its trade and commerce. It will become prosperous beyond precedent in the history of civilized nations of the world. The brain and wealth of all countries will go to North America. THAT GOVERNMENT MUST BE DESTROYED OR IT WILL DESTROY EVERY MONARCHY ON THIS GLOBE."

The famous Hazzard circular, to capitalists in New York, and the Bull Bank circular to United States Bankers, both emanating from London, and the fabulous corruption fund raised in England and Germany, estimated at \$1,500,000, were the agents that secured the closing of our mints against silver.

The "walk into my parlor" policy of England, during and since the Spanish War, is the latest evidence of English Diplomacy in shaping the destiny of the United States Government.

Notwithstanding the famine price of wheat, the Spanish War, and fabulous expenditures of money by our government during the past year, gold has increased in value eleven per cent. and all other values decreased in the same proportion.

For a thorough understanding of the money question, or silver issue, the Cincinnati Enquirer has uniformly given evidence of its ability to teach, explain and produce all facts and truth. It is a paper that ought and can be read by all classes with pleasure and profit.
