SPEND 48 HOURS IN NEBRASKA THROWING MUD AT BRYAN.

EXERCISES HIS BOSSISM

Cowhides Republicans Into Line For The Rosewater-Thempson Senatorial Combine

Omaha, Neb., Oct. 22.-Hanna. the keeper of the flesh pots of a syndicated presidency, after having spent fortyeight hours in Nebraska, has returned to his Chicago headquarters. He is not a speaker; he is ignorant of matters which really entertain and enlighten the public, and in language he is as blunt and as course as he looks.

Hanna is a "secret service" man the field of politics, a slave driver in party affairs, a horsetrader in states-

That is Hanna's attitude before the public, and he cannot tog himself up so as to disguise it. His appearance, his gestures, his talk, all, everything. makes the well known pictures of him true to life.

During his "speechmaking" he de clared the paramount issue was to "let well enough alone." He threw more nasty mud at Bryan during the two days he spent in Nebrasks than all the balance of the republican "spell-binders" combined.

In Omaha and South Omaha the people flocked to see Mr. Hanna. All they wanted was to look at the much advertised man. He was received by great numbers but coldly and indifferent; nobody seemed to want to warm up to him. A look at a distance was all sufficient. Even the republican officeholders and those trying to catch on to an office wore an "excuse me if you please" look which they flocked around the dollar marked individual and performed a disagreeable officeholders' duty.

Senator Frye of Maine and Congress. man Dolliver's brother of Iowa addressed the crowd before the star attraction arrived. The senator was a rantankerous talker in favor of playing the board of public lands and buildings. the great game on a huge scale. He was in favor of gobbling up the people. foreign lands and about everything else in reach. He declared himself in favor of taking everything in sight and keping everything we can get our hands on. He declared that Bryan's declaration that if he was elected president that he, Bryan, would immediately convene congress in extraordinary session and recommend giving the Filipinos their freedom, to help them build up a republic, and would then trust to our friendly relations with those people for our trade among them. The senator said that if such a statement had been written by a school boy, that such a child would be unfit to receive an education and should he taken out of school and hired out

to a bootblack. Mr. Dolliver spent nearly an hour indulging in cheap ridicule of Mr. Bryan. He is a cross between a stranded circus clown and some other kind of a fellow whose business it is to make a fool of himself in order to amuse a crowd between acts. It was generally remarked that it was strange that such poor makeshifts should have been selected to accompany the Hanna triumphal trip through the Dakotas and Nebraska.

Mr. Hanna did not make a speech. That's not his card. He simply showed himself and at this he is an expert. and while filling that part of the pro gram he took occasion to say that the country was prosperous. Bryan was a demagogue, his followers wanted to tear everyhing to pieces. McKinley was O. K. and that well enough should be left alone.

Mr. Hanna and party's special train left for Chicago at midnight Saturday night, and it is stated on good author ity that Edward Rosewater of Omaha and D. E. Thompson of Lincoln are now Hanna's solid men for United States senutors.

THE RIGHT OF SUFFRAGE.

1

Chlengo, Oct. 22,-10 the Democratic Clubs: In the free exercise of the right of suffrage lies the safety of the republic. Every patriot, every honest man, is interested in preserving this right at all hazards. Will you, therefore, every man of you, please report promptly to one of us, every instance coming to your knowledge, of any attempt to coerce or intimidate any voter, by any employer, whether a single person, a company, or corporation, and whether attempted by direct threat, by the pretense of orders received, conditioned on the election of McKinley, or otherwise? Every such offender deserves, like Cain, to be a "fugitive and a vagabond" on the face of the earth, and the public ought to know who they are.

JAMES K. JONES, WM. R. HEARST.

SITUATION IN DOUGLAS COUNTY. Omaha, Neb., Oct. 22.-The fusion forces of Douglas county were never in better working order. Locally they save nominated strong men and the state ticket is receiving the solid and united support from top to bottom.

All the talk to the effect that Governor Poynter will run behind his ticket in this county is now without founds. tion. Some disaffection existed here few months ago, but it is now all-to the street slang, "tossed up."

BOUGHT SLAVES UNDER OUR FLAG.

Cincinnati, Oct. 32 .- Twelve promb ent democrats of this city who are engaged in the exportation of ginsens to China, sometime ago commissione their agent in Hong Kong to send s messenger to the sultan of Sulu to purchase ten slaves under the American flag. The slaves were bought in August and are expected in Ohio in a fortnight. They are boys and girls whe will be legally adopted and educated by prominent democrats of Hamilton county. It was found that the sultan had several thousand slaves, and that for many years past he has been a large shipper of his victims to the English sugar plantations in Queensland where the poor wretches die off like flies. The last Parliamentary Blue Book gives appailing statistics of the death rate of the victims of the sugar makers' greed. Rajah Brooks, the Englishman who handled the bulk of th captives of the suitan of Sulu, left \$18,000,000 when he died a short while ago, all made from the slave trade.

Mr. Bryan's sincerity and devotion to the people's cause is shown in the pledge that if elected he will not accept a second term but will turn against the trusts the whole power of the president and his appointees.

Tyrants of old used weapons of steel with which to enforce their cruel demands. The trust tyrants of today use methods crueler still. They do not kill the man who dare disobey their dire demands. They use their power to starve his wife and babes. More than 50,000 men have been laid off within the last two weeks with the threats that if Bryan is elected they cannot return to work. Can such things be and the republic endure?

FUSION RECORD A 8000 ONE.

Lincoln, Neb .- (Special.) -- Except in the state treasurer's office probably nowhere has the benefit of fusion administration to the people of Nebraska been so strikingly exemplified as in the management of the state institutions.

Frank L. Mary, chief clerk in the governor's office, has compiled a statement from the official records, and sworn to its accuracy, that constitutes an unanswerable argument why republicans should not again be placed in charge of Nebraska's penal, charitable and educational institutions that are under the control of the governor and Mr. Mary's statement shows that for the same period of time the comparative cost of maintenance of the state institutions of Nebraska under republican and fusion rule, as shown by the state record, is as follows:

San Francisco, Cal., Oct. 22.-Ameng the invalid soldiers who arrived on the transport Sherman is First Lieutenant G. W. Lee, Thirty-ninth infantry, son of Brigadier General Fitzhugh Lee, now at Havana. He is suffering from disease contracted in the jungles of southern Luzon.

Lieutenant Lee says the Filipino usually shoot from ambush, aiming at the American officers. He saw Captain W. L. Murphy of his regiment shot down by natives concealed in a hut.

Five men, each of whom lost a leg in the orient, came home on the Sherman. They are Arthur Koslerke, Sixth infantry, wounded at Tien Tain; George King, Fourteenth infantry, wounded at Pekin; Charles Johnson, Fourteenth infantry, crippled at Yung Tsun; Joseph Weir, Thirty-seventh United States volunteers, wounded in the Philippines, and James Aiken, Fourteentn infantry, injured August 6 on the march to

One of the most grievously wounded soldlers who ever entered the Presidio general hospital is Private R. W. Adams of company A, Fourteenth infantry, who took part in the battle of Tien Tsin and was one of the relief column that pushed on to beleaguered Pekin. He was wounded at Yang Tsun by one of the British shells dropped by mistake within the American lines. The whole of one side of his face, his nose and one eye were literally torn off by a fragment of the missile.

First Lieutenant Harry F. Rethers of the now famous Ninth infantry regiment is another arrival from China. Accompanying him is his wife, the daughter of Major Lee, who succeeded to the command of the Ninth at the death of Colonel Liscum.

Lieutenant Rethers has been menand Pekin, and has been recommended for a brevet. His story of the march to Pekin shows that the men suffered terribly from the heat, the thermometer standing as high as 130 in the shade.

FIND A POT OF GOLD.

Treasure Buried By British Soldiers

Columbia, S. C., Oct. 22-A pot of English gold, believed to have been buried just before the battle of King's mountain by the British troops, has been unearthed in York county. It was buried on the banks of King's creek and it was along that route the British marched. A negro tenant of R. L. Wallace, a large landowner in York county, built a pig pen on the banks of this stream and confined therein some longnosed rooters, accustomed to dig for their food.

On going to the pen to feed the pigs, the man noticed the earth had been upturned and the glint of metal attracted his eye. He got into the pen and picked up a handful of 5-guinea pieces. On digging down he found a big iron pot containing coin. All was in gold of 1 to 5 guineas, and all the pieces bore dates prior to 1775. No estimate of the value of the find can be ascertained.

Account of Massacres Which Oc-ourred in Shan Si.

Washington, D. C., Oct. 22.-The state department has received a disp from the consul at Che Foo, under date of September 9, transmitting an account, based on apparently trustworthy information from Chinese scource, of the massacre of missionaries in Sh Bt province.

According to the account, on June some 300 Boxers broke into the co pound at Usiac Yi Usien, where M Whitechurch and Searell of the Ch inland mission were living alone, and brutally murdered both women.

The next massacre occurred at fission station of independent workers at Sheo Yang, where there were at the time Mr. and Mrs. T. W P.ggott and son, Mr. Robinson, Miss Duvalt and two daughters of Rev. E. R. Atwater of Tenchow Fu. These persons were driven from their homes into the mo tains and later arrested and taken into Taiyuen and presumably killed. By June 29 most of the foreign houses at Tayuen had been burned and Miss Coomos killed. On July 9 the following sons, with about forty native Christians, were killed by the order of the governor: Mr. Stokes and wife, Mr. Beynon and wife and three children; Mr. Farthing, wife and three children; Dr. Lovett, wife and one child; Mr. Whitehouse and wife, Mr. Simpson and wife, Dr. Miller Wilson and wife of
