ENTERED IN THE POST OFFICE AT HARRISON NEBR. AS SECOND CLASS MATTER

OFFICIAL PAPER OF SIOUX COUNTY.

1 Dollar Per Year.

The prices of wool now are lower than the tariff on it and yet High Tariff is what makes 18 cent wool. This is a fair sample of Republican logic. Let the striking steel workers fill their dinner pails full of 11 cent wool and be happy.

FUSION.

It is to be earnestly hoped that a full delegation will be present at the convention Saturday and a harmonious time is expected. While some of the Republic can brothers may have an idea that there will be no Fusion in this county everything points to the fact that a Fusion ticket will be nominated which will be stronger than ever and which will sweep everything before it. While this honest Fusion is expected the underhand D. Clem Deaves variety of Fusion with the Republicans can be watched with profit by the reform forces.

THE REPUBLICAN CONVENTION.

The convention of valiant trust representatives at Lincoln last week managed to do a considerable work for the men they represent. Judge Baker, the temporary chairman made a lengthy speech at the opening of the convention in which he paid the grand "combinations of capital" a glowing tribute while he devoted about 25 words to the laboring man and organized labor. By some oversight he neglected to mention the present great war between capital and labor in which the Republican party is taking the side of Capital. The speech throughout was tuned in perfect harmony with the commercialism of the age, which puts gold above human life. "We are the greatest commercial nation of the earth" is a typical sentence.

He neglected to state that a half dozen men control the commercial interests of this great nation and that their will carries more weight with his party than the appeals of 200,000 striking steel workers who only ask that there union be recognized as the powerful combinations of capital are recognized.

After the majority of the delegates had left a resolution was sprung and passed in the excitement of the moment, asking Gov. Savage to return Bartley to his private life position, caring for the green house at the State penitentiary. This was done and Bartley is probably rubbing his eyes and wondering "Where he is at". Doubtless, however, he is consoled with the thought that the election is not far off and then "grand stand plays" will be unnecessary and he will again have a vacation.

"The Best Is The Cheapest"

Not how cheap, but how good, is the question. THE TWICE-A-WEEK REPUBLIC is not as cheap as some so-called newspapers. But it is as cheap as it is possible to sell a first-class newspaper. It prints all the news that is worth printing. If you read it all the year round, you are posted on all the important and interesting affairs of the world. It is the best and most reliable newspaper that money and brains can produce—and those should be the distinguishing traits of the newspaper that is designed to be read by all members of the family. Tricks In Railroad Traffic.

In theory freight cars are permitted to run through foreign roads to their destination on the condition that on their arrival they shall be unloaded promptly and started on the journey home. In practice the freight agent is apt to use the cars that are most handy regardless of their ownership. An agent at Minneapolis would hardly think twice before filling up a Maine Central freight car with a consignment for Manitoba. The agent at Manitoba would not suffer a pang of conscience when he found himself stuffing the same car with a cargo of supplies for waco Tex. Thus as began the waddering of a car which, if it were not for the car accountant and his memoranda there would be no end.—Allan's Magazine.
