the action of your bowels is not easy and regular serious complications must be the final result. DeWitt's Little Early Risers will remove this danger. Safe, pleasant and effective.—J. E. Phinney.

Disastrous Hailstorm.

Carey Nebr. Sept. 10 1901. Special to the Press-Journal. Yesterday evening occurred the worst hail and rain storm that visited this section of the country. The storm we had a month ago raised the Cottonwood creek higher than it ever was known to be before, and this time the creek was fully three feet higher than then. We have not yet been able to ascertain the amount of damage done to crops but it must have been considerable.

Mike Carroll had the misfortune to be concerned with a weak latigo rope while riding on the Cheyenne river last week. He was riding a "high jumper" and the result was a broken hand. He reset the bone himself and will be compelled to take a vacation for awhile.

The Chadron papers report that E. J. Sayles, a bartender at the Blaine Hotel Buffet, sloped last week with Ross Baumgard. Sayles is an ex-railroad conductor who was discharged. He was seen on a west-bound train in Harrison last week and he told persons here that he was bound for Cheyenne. He has lived with a woman in Chadron for number of years who was supposed to be his wife. Recently he sent her to Chicago and after she was gone he told some of his friends that she was not his wife. People who know him best were not surprised at anything he would do.

Stock Letter.

Receipts of cattle only fair, 7000 so far this week and nearly 3000 short of same period last week. Three fourths of the receipts are western range cattle. Corn fed heaves are in very limited supply and on anything except the very choice grades trading is very slow, as it comes in competition with the western grass beef. Market is generally quoted steady on best, otherwise weak. Cows and mixed stock is only fair supply. Most of the receipts are grassers. The demand is good for all sides and trade active at to shade higher prices. Fair to pretty good butcher cows sell from \$2.70 to \$3.30, common and culling grades \$1.00 to \$2.50. Stockers and Feeders. The market this week starts out in pretty fair shape. There were a good many held over by yard traders but the rains have brightened prospects some and they evidently expect a good demand from country this week as they are ready buyers for all the offerings both heavy and light weights, although medium kinds and weights are rather slow sale but generally leave first hands in good season. Western range beef in very good demand, trade active and market steady to strong on anything killers can use. Sheep receipts fair and market not far from steady with a week ago.

Nye & Buchanan Co. So. Omaha, Nebr.

O. O. Buck, Beirne, Ark., says: I was troubled with constipation until I bought DeWitt's Little Early Risers. Since then have been entirely cured of my old complaint. I recommend them.—J. E. Phinney.

Eruptions, cuts, burns, scalds and sores of all kinds quickly healed by DeWitt's Witch Hazel Salve. Certain cure for piles. Beware of counterfeits. Be sure you get the original—DeWitt's—J. E. Phinney.

Prison of the Pantheon. Cardinal Cavagna, the new titular prelate of the Roman Pantheon, has taken solemn possession of his title and benediction. The position had been vacant for some years, presumably as a protest against the burial of Victor Emmanuel II in the Pantheon.

School Notes.

The registration and attendance exceeds eighty at the present time, which is good for the second week. It is quite evenly divided among the rooms.

The boys desire to thank all who helped them in raising money for their base ball material. A team will likely be organized and practice begun.

Frank Houston of Andrews entered Tuesday. The enrollment from without the district is not so large as last year, but is increasing.

Fred O'Conner has been promoted a grade as the result of his studious methods. Fred always gives a good account of himself at class.

Some new books have been ordered and they will do much to make the work better and brighter in all grades. The heavy attendance in the Seventh and Eighth grades has made books for that work scarce.

The class in geology are quite familiar with our common rocks and their structure, origin and use. Field work will be done on Saturdays and all are invited to take the trips with them whether in the class or not.

Bert Force, whose parents recently moved to town, will review the Sixth grade work and take work with the Seventh the remainder of the year.

Hull's Complete Algebra will be used in the Tenth and at the end of the year there will be some good mathematicians as a result. It is one of the latest and best higher Algebras on the market.

The beginning class in Algebra are already working in simple equations and like the work very well. It is to be regretted that our higher classes are the smallest.

These items will be in part edited by the class in Rhetoric during the year as a part of their work.

In Wyoming.

Amy Christian, who has been feeling quite poorly for the past two weeks, is getting along nicely and will be entirely well in a few days.

Miss Florence Christian has been engaged to teach the East school and her cousin, Charles Christian, has been engaged to teach the West school; schools to begin Oct. 1. Both of the teachers have grown to manhood and womanhood in our midst and are well known to all. Miss Florence has taught several terms of school in our county and has given the best of satisfaction. She graduated with high honors in the Wyoming State University last June, and fully competent to teach the young idea how to shoot. Chas. attended the Wesleyan University for two or three years and is also well qualified for the position he is to occupy in our schools. At least, Supt. Edwards seems to think so for he issued him a certificate at the close of the institute, good for three years. What is the use in employing teachers from other states when we have plenty of home talent?

If the weather holds fair this week we will finish cutting his crop of oats.—Phillip Freise has bought a new Buffalo Pitt separator and expects to thresh all of us out on the Ridge. He will use the Carey power that he had with his old J. I. C. separator. The machine will be here soon.

Chas. Leonard and James Christian have gone on a pleasure and business trip to the Cheyenne river. They expect to be gone about a week.

With sorrow we heard on last Saturday of the shooting of president McKinley. We sincerely hope that it may not prove fatal and that the assassin may meet with just punishment in a short time.

N. R. Collins' of Lusk, sent a copy of the Associated Press despatch to Andrew Christian Sr. on last Saturday's mail. Although we live a long distance from town, we are kept posted on the news of the day.

J. D. Williams has the foundation built for the West school house. He will now put in a cistern at the East schoolhouse.

No doubt the PRESS JOURNAL will think that this is a Christian neighborhood and so it is, and no wonder, as there are several churches here.

Barricks Gossip.

Mr. Black, who has been spending a few days in the Black Hills, returned the 20th ult.

Miss Belle Hamilton, daughter of the late Lieut.-Col. Hamilton, Ninth U. S. Cavalry, is a visitor at the post.

Mrs. Higgins, of Schuyler, Neb., is visiting her son, Michael J. Higgins, who is a member of Troop "B." Thirtieth Cavalry, at this place.

The post quartermaster, sergeant will soon occupy his new quarters on the "Green line."

We regret to learn that Mr. Hendricks, late of this post and who went to Fort Grant, A. T., some time since, is now reposing behind the bars near that post.

The R. and V. A. and N. U. gave a smoker on the 2nd inst and with many invited friends spent an enjoyable evening.

The officers gave an informal hop at the post amusement hall last Thursday evening. Those present were Major and Mrs. Hoyt, Capt. and Mrs. Clarke, Lieut. Sturges, McLane and Smith, Surgeon and Mrs. Simonton, Mr. and Mrs. Hallegger, Lawyer and Mrs. Porter of Crawford, Mr. and Mrs. Masters, Mr. Eastman and sister and Mr. Adams, all of Crawford, and Miss Belle Hamilton of Chadron.

Quite a number of the post people witnessed the base ball game played at Crawford on the 8th inst.

First Sergeant Turcer and Corporal Leishman, Co. "F," Tenth Infantry, went out on a duck hunt last Friday and we learn they were very successful.

School for children of the post will commence on the 9th inst. with Mrs. Row as teacher.

Dancing school will commence some time between the 15th and 30th.

Carey Items.

Grain stacking is about completed and Wm. Glaze contemplates starting his threshing machine next week.

The plum harvest on Cottonwood is about over, and it has been a good one.

Seventeen big grain stacks loom up over at the Spesse ranch. Mr. Spesse doesn't believe in doing things by halves.

George Golden is home from their Wyoming sheep ranch for a short visit. He will return to his duties some time this week.

Perry Spesse was so unfortunate as to lose a valuable horse last Monday. He had sold a team of unbroken horses and "necked" them together and was driving them to town when one of them managed in some way to break its neck.

School opened last Monday in Districts 3 and 4. Miss Myers, from Gering, teaches in No. 3 and Miss Parsons in No. 4.

It cannot be said that the Cottonwood people are drones. From the way they indicate the contrary. Last week Ed Schmidt's family moved to H. E. Miller's place on Soldier creek. The Davis family who recently came here from Burt county, moved to Crawford, and Mrs. Matney and family have moved to the H. S. Parks place.

Conventions.

In spite of disagreeable weather, the conventions last Saturday were quite well attended. Excellent harmony prevailed throughout the entire session and a strong ticket was placed in the field.

A committee on credentials was appointed and made a report on the delegates which was accepted and delegates seated. On motion the populists present from precincts where there were no delegates were seated in the convention as delegates.

Claus Christensen and W. O. Patterson were elected chairman and secretary respectively of the county central committee.

A committee of three was appointed to co-operate with a like committee of the democratic convention. After a conference with this committee, they reported that the joint committee had decided that the populists be allowed the county clerk and the county judge and the democrats the remainder. The report was accepted and the convention proceeded to nominate the officers as above:

THE OFFER STILL OPEN.

Western Union Judge to them to Share Conviction.

Mr. W., a prominent Hebrew, who saw an accident, and afterward took much interest in a suit for damages by the injured person, was approached by Mr. H., the defendant's lawyer, who was also a Hebrew and a friend of his, and asked why he took such an interest against him in that case. He answered that the claim was just and ought to be paid. The next day on the trial of the case, having testified for the plaintiff, he was cross-questioned by his friend, the attorney, as follows: Question: "Mr. W., haven't you taken a good deal of interest in this case?" Answer: "Yes, sir." Question: "Have you not been talking around that you knew this plaintiff would get a verdict?" Answer: "I have made this statement to but one person—that was to you, Mr. H." Question: "Well, sir, haven't you even offered to bet a suit of clothes that the plaintiff would win this case?" Answer: "Well, I did make that offer to you, Mr. H., and the offer is still open." The judge quickly turned his face to the wall, but contented with a sudden conviction. The verdict was for the plaintiff.—Omn and Comment.

Some of them.

Some metals have a very small mass pronounced small than others. The small of tin especially when newly cast, is remarkable, but it is a most pure whether gold or platinum has very small that could be recognized by human ordinary organs. Of the rare metals uranium and all its compounds give the strongest smell and this gives the reason why metals should have an odor. Uranium is always given off what are known as the Becquerel rays, consisting of streams of electrically minute "corpuses."

Paper "Rubber"

A substitute for rubber is made by covering sheets of the finest Japanese rice paper with a certain kind of varnish, and then applying pressure. The paper and varnish become a homogeneous mass, and by the time it is ready for use it is flexible, elastic, light and completely air-tight and waterproof.

WONDERFUL DOLL HOUSES.

How They Are Built and Finished Most Completely.

Some of the doll houses that are built these days leave little to the imagination of the children fortunate enough to possess them. Very often they cost a small fortune and the workmanship expended on the furniture and other accessories is of the highest order. Doll houses of this kind are not to be bought ready made in a toy shop, but are built to order and often on specifications, in which the smallest detail is considered. One which was presented recently to a little girl of the upper west side was built and furnished on such a scale of magnificence as fairly to stun the recipient. This house is of the colonial style of architecture and is 4 feet high, 5 feet wide and 3 feet deep. There are four square windows in the rear and five in the front. Two tall chimneys, painted in imitation of red brick, surmount the roof. In each room save the kitchen there is an elaborate brass chandelier suspended from the ceiling. Each room also contains a fireplace and mantel. In the parlor, dining room and bed room are hung little pictures, resembling oil paintings, and framed artistically in gilt. All the front windows have lace curtains tied back with blue satin ribbons. Just inside the door there is a metal card receiver and a brass umbrella rack has three bright colored sun umbrellas in it. The baby carriage is of most modern French build, with high body, movable top and easy moving springs. A brass bird cage containing a miniature parrot hangs from one of the second story windows. There is a brass clock with glass face in each room, the one in the parlor being flanked on either side by a tall candelabrum. The family that occupies this wonderful mansion is French, if one is to judge by the dress of its members. Besides the father and mother, there are four children, a nurse, a maid and two maids.—New York Sun.

Checked With Best Authority.

Restoring with petroleum, oil-drivers and street-car conductors is a serious offense in Austria, as all these persons are rated as public officials, in fault whom makes transportation and so.
