

**Unknown to the Lawyers.**  
 Judge —, one of the great lawyers of the last generation, charged a client a retainer of \$1,000 in an importance case, relates Victor Smith, but settled the suit before the judge had opened a book or written a line concerning it. His client called to see if he would not refund part of the money, he lawyer seemed surprised at the suggestion. "Refund?" he exclaimed. "Refund, did you say? My friend, that is a kind of refund unknown to the legal profession."

A New York minister says marriage is not a failure, and that more than 2,500 of the 3,012 couples he has united are happy. His advice to those who would wed and be happy is largely summed up in the following half dozen don'ts: Don't marry when too young. Don't marry until you can support a wife. Don't marry a girl who can't cook and sew. Don't live in six rooms when three are enough. Don't marry unless you suit each other. Don't come to me for a divorce.

**"DOUBLE-DECKER" SHOES.**

**Fad Style for Women With Soles Enormously Large.**

"Double Deckers" are the latest thing in women's shoes. The style is what the dealers call a fad style. It has a double projecting sole, enormously thick. The lower deck is a good three-quarters of an inch wide. The upper is a quarter of an inch in width and is rope-stitched to the lower deck. The extension runs round the shoe, heel and all. With this formidable sole goes an upper which is equally startling. A low double decker of patent leather has an elaborate punched toe and a trimming of the same style extending entirely around the shoe. The eyelets are huge brass ones. Altogether it is a shoe about as graceful as an elephant's hoof. A shoe salesman was showing his set of samples the other day to a layman. He lifted the double decker and laid it down with a sigh. "That's the sort of shoe that makes the manufacturers want to lie down and die," he said. "Of course, that's an extreme, but look at all the rest of these heavy shoes for women. If it was not for the extreme west and south we might as well give up the ghost. Now, here's the shoe that women used to wear before they took it into their heads that they'd wear armored cruisers on their feet. But the cruisers are steady and long 'wearers,'" and he sighed dolefully. "Here's what we call a freak toe. The shoe has an absolutely straight line on the inside, then sheers off suddenly on the outside, so that the point of the toe is right at the inside corner of the shoe. Instead of a round toe there is simply a corner. That shoe sells best in Chicago. These are the best New York sellers," he said. "This one is a light-weight kid shoe, with a patent leather tip, flexible sole, and what's called a medium toe. This other is heavier and has a larger toe, but is not a freak. One is a dress shoe, the other a street shoe. Take it all in all, patent leather is the best selling shoe in New York today, more's the pity for the feet that wear the shoes. Here's a new thing; looks like patent leather, but is more flexible and porous, and is guaranteed not to crack. That's ideal kid."

**The "Fix" We Drink.**

The American market for champagne varies less than in the case of other foreign wines, though the importation of last year was 200,000 dozens as against 340,000 ten years ago. The figure was exceptionally high; last year's importations were below the average. The fluctuations which carried the importations down to 170,000 dozen in 1897 carried them up to 215,000 dozen two years later.

**Fighting is Hard on Brains**

A French investigator says the brains of military and naval men give out most quickly. He states that out of every 100,000 men of the military or naval profession 199 are lunatics. Of the so-called liberal professions, artists are the first to succumb to the brain strain, next the lawyers, followed at some distance by doctors, clergy, literary men and civil servants.

Oldenburg, Ill., Sept. 2d.—The doctors all failed in the case of little thirteen-year-old Willie Keil, who suffered with acute Rheumatism.

For over three months the poor little fellow suffered excruciating torture. His father, who had done everything he could think of, saw a new Rheumatism Remedy advertised—Dodd's Kidney Pills. He bought some, and soon his little son showed signs of improvement. Three boxes cured him completely, and he has not a symptom of Rheumatism left.

This miraculous cure of a case which had been given up by the physicians has electrified Madison County, and Dodd's Kidney Pills are a much talked of medicine.

**VARIETY IN BREAD.**

**Relish of Food Depends on Variety of Flavors.**

One of the important facts about our relish of food, says the American Kitchen Magazine, is its dependence upon a certain variety of flavors. Dyspepsia has been produced by the constant use of the same foods cooked in the same way, and cured by the mere adoption of a more varied diet. There is danger in pampering the appetite, of course, and surfeiting it with variety; but this lies principally in the pastry cook's department. A variety of breads is much less dangerous than a variety of pies and sweets. The old southern fashion of five daily breads for the table, was a much more healthful one than the Northern fashion of unlimited cakes and pies. That number of breads is, however, excessive. One may need five breads during a month, but certainly not at any one meal. Besides the many kinds of bread to be secured by the use of the different grades and varieties of wheat flour—spring and winter, high-grade and low-grade, whole wheat, graham, etc.—there are corn breads, rye breads, barley bread and breads made from a mixture of corn, rye, wheat, barley, etc. Having, then, an almost unlimited variety of breads to choose from, and bearing in mind what bread should yield to a well-considered dietary, we certainly should be unwise not to make our breads contribute, as far as possible, not only to the nourishment of the body, but also to the promotion of good health in the correction of such minor derangements of the system as may be reached by a judicious selection. A variety of perfect breads, not only breads with various flavors, but of different kinds, containing different amounts of those substances found in the wheat, would serve better than a thousand doctors to keep our country people in sound health.

**An Unfortunate Deduction.**

Sergt. Kelly, of the Irish bar, in the early years of the nineteenth century, used to indulge in a picturesque eloquence, racy of the soil, but unfortunately he would sometimes forget the line of argument, and would always fall back on the word "therefore," which generally led his mind back to what he had intended saying. Sometimes, however, the effect was almost disastrous. One time he had been complimenting the jury, assuring them that they were men of extraordinary intelligence, and then branched off into a statement of his case. With a wave of his hand a smile on his face he proceeded: "This is so clear a case, gentlemen, that I am convinced you felt it so the very moment I stated it. I should pay men of intelligence a poor compliment to dwell on it for a minute, therefore I shall proceed to explain it to you as minutely as possible."—Green Bag.

**PE-RU-NA AVERTS DANGER**  
**In That Critical Time When a Girl Becomes a Woman.**

MISS BESSIE KELLOGG.

Miss Bessie Kellog, President of the Young Woman's Club, of Valley City, North Dakota, writes the following from First street, South, Valley City, North Dakota:

"Ever since I matured I suffered with severe monthly pains. The doctor did not seem to understand what the trouble was and the medicine he prescribed from time to time did not help me. He finally suggested that I have an operation. One of my friends who had been cured of a similar affliction through the use of Peruna, advised me to give it a trial first, and so I used it for three weeks faithfully. My pains diminished very soon and within two months I had none at all. This is six months ago, and during that time I have not had an ache nor pain. I give highest praise to Peruna. Every woman ought to use it, and I feel sure that it would bring perfect health."—BESSIE KELLOGG.

The experience of Miss Bessie Kellog, of North Dakota, ought to be read by every girl in the land. It is a critical period in a woman's life when she ceases to be a girl and becomes a woman. Very few pass through this period without some trouble. The doctor is

The people who are always harping on their troubles will probably never be troubled with harps.

called and he generally advises an operation. Perhaps he will subject the patient to a long series of experiments with nervines and tonics. The reason he does not often make a cure is because he does not recognize the trouble.

In a large majority of the cases catarrh of the female organs is the cause. Peruna relieves these cases promptly because it cures the catarrh. Peruna is not a palliative or a sedative or a nerve or a stimulant. It is a specific for catarrh and cures catarrh wherever it may lurk in the system.

This girl was lucky enough to find Peruna at last. As she says, the doctors did not seem to understand what the trouble was and the medicine he prescribed from time to time did not help her. Peruna hit the mark at once and she is now recommending this wonderful remedy to all the other girls in the United States.

Thousands of the girls who look at her beautiful face and read her sincere testimonial, will be led to try Peruna in their times of trouble and critical periods. Peruna will not fail them. Every one of them will be glad and it is to be hoped that their enthusiasm will lead them to do as this girl did—proclaim the fact to the world so that others may read it and do likewise.

Mrs. Christopher Flehmann, Amsterdam, N. Y., writes:

"I have been sick with catarrh of the stomach and pelvic organs for about five years, and had many a doctor, but none could help me. Some said I would never get over it. One day when I read your almanac I saw those who had been cured by Peruna; then I thought I would try it. I did, and found relief with the first bottle I took, and after two more bottles I was as well and strong as I was before."—Mrs. Christopher Flehmann.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, O.
