Press-Journal
THURSDAY, NOV. 21 1901.
Geo. A. Phipps, Editor.

ENTERED IN THE POST OFFICE AT HARRISON NEBR. AS SECOND CLASS MATTER
OFFICIAL PAPER OF SIOUX COUNTY.
1 Dollar Per Year.

A man in Colorado claims to have discovered that gold grows. He has applied for the exclusive right to handle the seed in Sioux county and expects to start a gold farm in the back yard.

The editor of the Non-Conformist and Central Farmer is just now agitating the subject of atmospheric moisture and how it can be controlled by human agencies. The subject is one which should interest everyone and which is little understood in spite of the fact that all our text books give their theories as facts in regard to it.

I wish to extend my thanks to you for the support given me in the late election as well as the endorsement given my works as county superintendent.

I only hope you will give me your cooperation in the educational work of this county, and I am sure by the time my next two years expires, we will see the educational work of this county second to none in the state. I am sorry to say that some saw fit to make a personal fight on me but to those I will say that is you have any favor to ask of this office please feel at liberty to do so, for this is an office of the people, and not one man. Trusting that our ever effort may be for the advancement of that great and noble work education.

Respectfully yours,
J. B. Burke.

Relief Fund

The money for this worthy fund has continued to come in since our last issue. The citizens of Sioux and Dawes counties are proving that their hearts are large enough to refuse to allow a respected citizen in their midst to lose everything without helping to share the burden. But the list has not yet reached what it should be. The Press-Journal therefore requests all to contribute before the next issue. You will not miss what your share will be and in the end the amount of good done will be a source of everlasting gratification.

For Sale.
A desirable house and lot in Harrison. Inquire at Commercial Bank for further particulars.

Mr. and Mrs. W. H. Bousell arrived Friday night and are visiting with Mr. Hester's family.

Largest Funeral on Record.
The largest funeral on record in Kutztown, Pa., was that of Dr. J. S. Trexler, which occurred recently. Before his death he provided that every one attending his funeral should have a free dinner, and over a thousand persons availed themselves of his offer at the two leading hotels, where arrangements had been made to feed the multitude.

Fee of the Thistle.
The Michigan farmers who paid 60 cents a gallon for gasoline that was offered to them as an extermiator of Canadian thistles found that it did the business without fail, and therefore got something for their money. Incidentally they also paid for a bit of knowledge that will enable other farmers to fight the thistle successfully, and therefore they will probably not kick themselves hard or for any great length of time.—Milwaukee Wisconsin.

Tennyson on Vice.
Lord Tennyson's attitude on vice-section was uncompromisingly hostile, and he never varied a hair's breadth in regard to it. "Can you count on the fingers of one hand the men you know whose lives are of such value to mankind as to justify the torture of a dog for its prolongation?" was a question he frequently asked.

Short Skirts for Women.
The subject of short skirts seems to be agitating the English women now that a report has come from Paris to the effect that the Parisian women are to wear skirts clearing the ground by two inches. Short skirts in London, except for bicycle riding and golf playing, have not appeared, so they will be a novelty when they arrive.—New York Sun.

Resolute Management of a Forest.
William C. Whitney will not allow his great park in the Adirondacks to be "lumbered" in the ordinary way. Instead, he cuts trees of over ten inches in diameter, leaving the smaller ones to grow, and thus always has a handsome forest.

Whistler Particular at Table.
J. McNeil Whistler, the artist, is most particular about the service at his table. His dishes are all of silver and the napkins, etc., are all of the finest damask, marked in one corner with his crest, the famous butterfly.

Harvard Graduate as President.
Theodore Roosevelt is the third graduate of Harvard College to become President of the United States, the first in seventy-two years. John Adams was a member of the class of 1755, and Mr. Roosevelt in 1880. Mr. Hayes studied at the Harvard Law School, but he was a graduate of Kenyon College.

Recognition of Faithful Postmaster.
Miss Louise C. Danforth, who had charge of the postoffice in Westfield, N. H., for fifty years, has resigned. Her salary, depending upon the stamp cancel at on, has been about \$150 for a number of years.

Hard Place to Build Railroad.
The difficulty of railway construction in some parts of Africa is illustrated by the fact that on the Pretoria-Matru line in Sierra Leone eleven steel bridges had to be built in a distance of thirty kilometers.

Descendants of Scotch Highlanders.
Most of the people in Plover and Anagnish, in Nova Scotia, and a great part of the neighboring counties, are descendants of the Scotch Highlanders who settled there about a century ago.
