A Trip to Lusk.

J. H. Withersdorfer and the PRESS-JOURNAL man made a trip to Lusk Saturday, returning Sunday. The object of their visit was to attend I. O. O. F. Lodge of that city. They brought home with them a very favorable impression of that enterprising little city, and her people. The system of waterworks in use there is hardly excelled anywhere as it gives the inhabitants ample fire protection and water for family use at minimum rate per month. The entire cost of the plant including engine, a well and piping and a reservoir was only \$6,500. The cheapness is due to the fact that a hill lies just back of the town and 30 feet is depth of the well. The citizens of Lusk are very proud of their little city and a good feeling is apparent among them. In the evening several members were initiated into the Lodge and considerable degree work was done. The return trip Sunday was made via the postoffice route and F. E. & M. V. hand car.

A Sudden Death

Word was brought to Harrison yesterday of the sudden demise of Miss Rosa Konrath at her home in Montrose precinct, Tuesday evening.

She was taken suddenly Monday with some sort of paralysis after being in seemingly good health for some time previous. A doctor from Crawford was called and when he saw her he told them there was no hope for recovery. She was unconscious to the last.

Miss Konrath was one of the best known and most admired young ladies of the north half of Sioux county. She recently returned from Edgmont, South Dakota, where she had been working and expected in about a weeks time to become a bride.

It is needless to add that the family and community are prostrate with grief. The sympathy of their many friends is extended to the sorrowing relatives and friends.

Hand Car Accident

Dr. Weir, the F. E. & M. V. physician was a passenger on the west bound train Friday. He was enroute to Nods Ranch to give medical attention to Mr. Day, the section man at that place. Tuesday of last week Mr. Day was at work on his section when in some way the handle of the car knocked him off in front of the car. The car passed over him and left him almost helpless. He was able after awhile to get the car off the track and then started to crawl to the section house about three miles away. This accident happened early in the morning and his wife found him about a mile from home at dark. It is thought that he will recover although it will be some time before he is able to work. Walter Snokke has charge of the section in Mr. Day's sickness.

An Unfortunate

On Friday Sheriff Reed of Box Butte county arrived in Harrison with Frank Fleming of Sioux county near Marsland. Mr. Fleming was in a very serious condition and his story is the story of an unfortunate man.

About Dec. 20 last he was discovered in his house unconscious and with roof of the building on fire, by Will Forbes and Al Hodge. They put out the fire and gave him what assistance they could cooking his supper, etc. The next morning it seems they took him to Crawford and from there he ran away from them and boarded a B. & M. train going toward Alliance. He was put off the train either in Hemingford or near there about twelve o'clock at night. It was during the December cold snap and it was a very cold night. It seems that he was found the next morning trying to make some headway on his hands and knees.

He was taken to the poor house at Alliance and was there until last Friday when the sheriff turned him over to the sheriff of Sioux county. He was apparently out of his mind and was in a very precarious state of health.

The board of insanity set on the case Friday and turned him over to the county commissioners who have secured the services Oscar Ward to take care of him. This is being done at the jail.

When seen by a PRESS-JOURNAL representative Tuesday he had every appearance of being a sick man who was on the road to recovery. His mind seemed reasonably clear and he told his story as straight as though it had been told to him by another person.

Occasionally he would wander from the subject but a few words would set him right. He says he has a brother in Newark, New Jersey, where he was born. He came to this county a short time before it was organized in 1888.

He has been married once and his wife left him after living with him four months and four days. He says that he has 80 acres of land and a few head of cattle and horses.

He says that some one helped him off at Hemingford and that it wasn't in the country as has been reported. A letter has been sent to his brother in New Jersey and an immediate answer is expected.

Franchising by Phone.

Successful experiments were made with the electrophone at Tunbridge Wells recently. Ten transmitters were placed in St. James' church and connected with the corporation telephone system. People at Edinburgh, Glasgow, Manchester, Chelmsford, Weybridge and London being enabled to hear the sermon preached. More than 100 local subscribers heard the church service distinctly. The authorities hope to connect all the places of worship in the town with the central telephone exchange.

There is rejoicing at the home of Matt Hall over the arrival of a new boy born Jan. 16.

RIPPERVILLE

The weather is still good around Ripperville with a little cold on the edges.

The dance at Bud Johnson's last Friday night was a decided success, everyone forgetting themselves to the fullest extent. All the Rippers from Ripperville were there.

The Crawford boys closed a deal last Friday with Mr. Marking for the timber on the Plympton place on West Hat creek and expect to move there soon.

The dance at Mr. Hoffmans Tuesday night was well attended and all the duces of Ripperville attended the hop and one of these made a new "mash."

Louis Debock met with quite a painful accident last week. He let a log fall on one of his feet which caused him to carry his foot in a sling. In spite of this he and his best girl took in the dance at Hoffmans.

Millard Thayer is working at Crawford's sawmill.

John Eberspacher raised 500 bushels of corn in the Hat creek valley last year. Pretty good for Sioux county. Try again John.

Stock Report

Receipts of cattle very good, about 7500 for two days. Market as compared with last week's close is generally steady to strong. On beef steers demand is good for fair to medium grades, prices are fully steady and in some cases a shade higher. On choice cattle buyers were not so active and trade rules slow though prices are fully up to last week. There is a liberal supply of cows and mixed stock. Inquiry from all sides is bringing trade generally active and prices are from steady to 5 and 10c higher. Supply of stockers and feeders very fair but with liberal inquiry from all sides market has a firm tone and prices rule strong to shade higher.

Sheep receipts moderate and market strong to 10c higher.

REMARKABLE CURE OF CROUP

I have a few words to say regarding Chamberlain's Cough Remedy. It saved my little boy's life and I feel that I cannot praise it enough. I bought a bottle of it from A. E. Steere of Goodin, S. D., and when I got home with it the poor baby could hardly breathe. I gave the medicine as directed every ten minutes until he "threw up" and then I thought sure he was going to choke to death. We had to pull the phlegm out of his mouth in great long strings. I am positive that if I had not got that bottle of cough medicine, my boy would not be on earth today. - Joel Demont, Inwood, Iowa. The strongest animals exist entirely on vegetable food. It is the ferocity of the lion rather than his strength that makes him formidable. An elephant is a match for several lions and is a vegetarian. The animals with most speed and endurance—the horse, the reindeer and the antelope—are also vegetarians.

Bean Crop in United States.

With reference to weight, the commercial bean crop of the United States is more nearly comparable to that of rice than to any other domestic food crop. Excluding the important producing state of New York, for which no recent statistics are available, the production of beans in the principal producing states in 1895-6, the record year for that crop, was about 300,000,000 pounds.
