A Modern Woodman.
The show, or drama, given by the Modern Woodmen last Friday night proved a grand success, without an exception.

Such character was acted as if they were professionals, and too much credit can't be given every one that takes part in the play, and we can't realize the time cost, and patience, that it takes to prepare for this drama, and we are pleased to announce that every one present, so far as we have heard were fully satisfied and enjoyed the play more than any show that has come to Harrison. It was our intention to give a write of such character, but as we have been so busy this week. We hope the ones that put such an unselfish effort to give us an enjoyable evening will forgive us. Something That Will Do You Good.
We know of no way in which we can be of more service to our readers than to tell them of something that will be of real good to them. For this reason we want to acquaint them with what we consider one of the very best remedies on the market for coughs, colds, and that alarming complaint, croup. We refer to Chamberlain's Cough Remedy. We have used it with such good results in our family so long that it has become a household necessity. By its prompt use we haven't any doubt but that it has time and again prevented croup. The testimony is given upon our own experience, and we suggest that our readers especially those who have small children, always keep it in their homes as a safeguard against croup.—London (S. C.) Messenger. For sale by J. E. Phinney.

Religious Affairs.
A young Irish priest, in his first sermon, likened the Roman Catholic church to a magnificent, full-rigged ship as it glides over the great deep, buffeting every storm, riding upon every wave and floating upon every tide. "And why does it float? Because it is founded upon a rock."

Emperor's Naval Plans.
Emperor William has placed in the German reichstag building three nautical charts designed by him. The emperor shows that the United States have thirty-one battle ships, eleven first-class cruisers and twenty-six armored cruisers.

Army Shows the Navy.
It is not yet decided who shall lead the commission which may possibly be sent to Europe in behalf of the St. Louis fair. Admiral Dewey is a higher rank than Lieutenant General Miles, but the army has always the preference over the navy because it is created first.

BATHS FOR THE POOR.
Extension of a system proved beneficial in Philadelphia.

So successful has been the work of the public baths association of Philadelphia, whose initial establishment is on Gaskill street, between Fourth and Fifth streets, that it will in a few months be in possession of a new and in some respects much better building, dedicated to the same beneficial purposes. A lot 24x67 feet at 713 Wood street has been purchased by the association for \$2,275 and probably in March the work of construction will be begun. It is hoped that it will be completed by the middle of June.

The public bath and wash house in Gaskill street was opened nearly four years ago. At the end of its third year 105,248 baths had been taken there. This year the number of baths will be fully 52,000, or more than 1,000 a week. In December 2,900 baths were taken, 1,475 in the first fifteen days.

The Public Baths association does not consider its work a charity in the almsgiving sense. It believes baths can be had by the poor at a minimum price; that they are more appreciated and therefore are more regularly taken and do more good than those which cost nothing to the person benefited. Besides, the public baths offer what the city free baths do not—privacy and the use of hot water and of showers, together with an ample supply of soap and towels. It has cost about \$5,000 a year to maintain the Gaskill street bathing establishment, says the Philadelphia Times, and the deficit at the end of 1900 was 35 per cent, having steadily decreased since the place was opened.

Young Prince a Fearless Rider.
Prince Edward of Wales, who is a great favorite with the queen, seems to be getting on. He is only seven years old, but is learning to ride with a skill and fearlessness which do credit to his strain of Danish ancestry.

UNUSUAL FAULT-FINDING.

Photographic Procedure That Most People Would Approve.

Professor Hiram Corson, who has the chair of English literature at Cornell, belongs to the well-known Corson family whose homestead is near Northampton, at Plymouth. A very old man, now, he is perhaps the most picturesque figure in the college town of Ithaca. His lectures are extremely popular; he speaks with graceful gestures, his hands weighted with beautiful jewelry, and he wears on his forehead a ring the post Browning gave him. He says good things—he is always saying good things.

Professor Corson, a pretty little man, appeared recently, "won't you take one of your photographs to the room?" The learned old man assented. "But I won't take a photograph of you," said a New York photographer. "No, no, no," he said. "I will take a photograph of you." "I will take a photograph of you," he said.
