Mr. Editor: We were very much surprised to learn last week that the PRESS-JOURNAL had changed ownership. The name of the new editor sounds about as "Irish" as our own, and I wonder if we might not scrape up relationship. But Irish or no Irish we trust that the paper will continue to be a first class newspaper and if it is agreeable all around we will continue to send in a few items occasionally.

To the School Patrons

It has been my intention to report the work of each district, as I have found it by visiting the same, and I find that I am cut short of the time to report each district separately, but I can say I have found the work in very good condition wherever I have been. Of course I have found some friction in two or three districts, but I guess such things have to be or they are any way, so we have to make up our minds to put up with it. I have found more inquiries among the teachers this winter, for better preparations for themselves than ever before, and this means much to our schools.

If the teacher is not interested in the work further than the salary, we can not expect anything more than formal teaching, but where the teacher is interested in reaching out themselves, that they may better overcome the many obstacles that arise in the school-room, then we are coming to the point of where the pupil and teacher can more definitely understand each other. I fear the school boards don't realize the part, or obligations that rest upon them as representing their different districts or peoples.

I have had a great many perplexing questions to decide in the past two years and the greater part was brought about by the misunderstandings of the members of the different school boards.

I say that the patrons can't agree as a unit, but I see no reason why three can agree if reasonable sources are looked up.

The greater part of success in school work depends almost entirely on the amount of harmony that exists between both patron, board, and the teacher, and I am sure if we try to bring this about we will have better results, better feelings, and our children will be the gainer.

I will further say that a great deal depends on the school boards, as to the kind of teachers we have, if a teacher does not fill his or her place as they should, it should be the duty of the board, to rectify the mistake at once. I will admit that the authority of the County Superintendent is far reaching, but not far enough to cover all defects, so school boards, and patrons want you assist me in advancing the work in the next two years as it ever has been before.

I desire to thank the school boards, and patrons for the kindness, and respect shown me when ever it has been my pleasure to meet them, and I hope that when I come to turn over this work, to my successor, that I can know that none of us have failed to perform our duties as they were presented to us.

Yours Respectfully,

J. B. Burke,

Co. Supt.

From the Tranchant Pen of Cleo

Here are our best wishes for the success of the PRESS-JOURNAL under the direction of its new Editor and we shall now feel like giving it the welcome of an old and true friend. We hope it has friends enough that will help to gather the next, so that it will be a household necessity in every home in the county.

Last December we had a very cold snap which made us think our house was not proof against freezing. Some cold days early in Jan. Feb. was mostly cloudy and March came in like a furious lion, but the 2nd. was quite spring like. And such a change in a few short hours.

The U. S. mail passes our house every day but Sunday now, but we go to the city for our mail, if we did not, we could not get the PRESS, which usually comes Sat. at 2 P. M. till Monday at about one. We don't like daily mail a day old before we get it.

Well we did get to hear W. J. Bryan speak. We went an hour early so as to be sure and get into the hall and were half an hour to late then. It took two halls to hold the crowd and even then, many went home rather than wait so long to hear his second speech. He talked very well, but there was not the burst of eloquence I had expected to hear. He is just right the Philippine question. Are you all expecting President Roosevelt to appropriate means to build big reservoirs in Sioux County? As soon as the work begins we will come back.

Stock Letter

March 4, 1902.

The cattle market last week was very satisfactory to sellers and has continued good the first two days of this week. The receipts were somewhat lighter but still a fair supply was marketed. As is usual this time of year the light and hand weight cattle are in most demand and this kind shows an advance of 10 to 20 cts. Choice finished 1400 to 1500 pound heaves 6.20 to 6.60; 1150 to 1200 heaves 5.70 to 6.15; common 4.00 to 4.50 grades around 4.00 to 4.50. There is an active demand for cowboys and extra stock and feeders are quiet at 4.50 to 4.75; good to choice 4.50 to 4.75 and fair 3.50 to 3.85.

The sheep market has been quiet all week. Prices have advanced a few cents. Good clean head and feet 5.00 to 5.25; fair 4.50 to 5.00 and poor 3.50 to 4.00.

A Nebraska paper spins a story about a citizen named John Michie, who has a son George who is very hard to get out of bed mornings. When called the boy has a habit of answering, "Yes, sir," and going to sleep again. On one occasion last week John called the boy, got the usual "yes sir," and then quietly slid up stairs, turned down the covers and gave him a lively spanking. It happened that on that night the hired girl had been given the boy's room. When the tumult was over John sat down behind the barn and drafted an apology to the hired girl, change in a few short hours!
