ENTERED IN THE POST OFFICE AT HARRISON NEBR. AS SECOND CLASS MATTER

**OFFICIAL PAPER OF SIOUX COUNTY.**

One Dollar Per Year.

**ASSESSORS MUST WORK SUPREME COURT ORDERS THEM TO TAKE LABOR STATISTICS**

Special Dispatch to the World-Herald. Lincoln, Neb., May 8.—Nebraska assessors must do a little extra work now, and that without extra compensation. Thus saith the supreme court, and the decree is inexorable.

For a number of years the deputy commissioner of labor has found himself handicapped in compiling statistics through the failure of assessors in many of the counties to collect all the statistics directed by law. There was nothing in the statute granting assessors any additional compensation for the extra work requested of them and a number refused absolutely to do it.

Lancaster's officials, says the deputy labor commissioner, have been especially obstreperous in the matter. When requested to glean the desired information on their rounds this spring they declined emphatically. L. N. Eskew of Normal was the victim chosen to combat the fastidious Mr. Watson, deputy labor commissioner at present.

On behalf of Mr. Watson Attorney General Prout applied to the supreme court for a writ of mandamus to compel the assessors to do this work. The case was vigorously contested, but the court today decided that Mr. Watson was in the right and the writ was issued accordingly in compliance with the desire of Mr. Prout.

In passing on the propositions involved a controversy long mooted and one that the court has avoided deciding for years is at last decided beyond travail. The court declares that the office of deputy labor commissioner is not an executive officer in violation of section 28 article 5 of the constitution, which says that no other executive office shall be continued or created. This settles the destiny of several state officials, deputies by name whose status has been in doubt ever since creation of their positions.

Among them are the deputy game and fish commissioner, deputy pure food commissioner and deputy state veterinarian. The very point is involved in another suit now pending where constitutionality of the food commission law is attacked. It is entitled John C. Merrill against state and comes from Clay county.

The opinion is by Commissioner Hastings. The syllabus says: "It is no objection to the validity of a statute imposing an additional duty upon assessors, that no special provision for their compensation is made."

"The act of 1887, imposing the duties of labor commissioner on the governor of the state and providing for a special deputy to assist in discharging them is not a violation of section 28, article 28, of the state constitution."

"The amendatory act of 1897 to sections 2066 and 2068 of Cobby's consolidated statutes, requiring assessors to secure certain labor statistics, is germane to the provisions of the original act and to the requirements of the original section 2066 that the deputy commissioner collect statistics and is not in violation of section 11, article 8, of the state constitution."

**MUST REMOVE FENCES.**

Cattlemen in Western Nebraska Realize that Government's Order Will Be Enforced.

According to George G. Hunt of Bridgeport the cattlemen of western Nebraska have begun to realize that the orders of the government in regard to the demolition of fences around government land will be enforced. He said: "In Chyenne county, and in fact in all of the counties from Buffalo west, the government land has been fenced by a set of men who came to look upon themselves as the owners of public domain. When they were notified to remove their fences they made all kinds of objections and many of them did not believe that the matter would go any further than the notice, so they paid no attention to it. Those who investigated the matter found out that the fences must come down by June 1. As a result some of the cattlemen have already begun to take down the fences and preserve the wire; others are delaying and it is not probable that all of the wire will be removed within the time specified.—Omaha Bee.

**Whooping Cough.**

A woman who has experience with this disease, tells how to prevent any dangerous consequences from it. She says: "Our three children took whooping cough last summer, our baby boy being only three months old, and owing to our giving them Chamberlain's Cough Remedy, they lost none of their plumpness and came out in much better health than other children whose parents did not use this remedy. Our oldest little girl would call lustily for cough syrup between whoops.—JESSE PINKEY HALL, Springville, Ala. This Remedy is for sale by J. E. Phinney.
