Rev. Henry VanDyke, the moderator of the assembly, preached the assembly sermon at the Fifth Avenue church, the largest Presbyterian church in the country. The following sentences indicate the trend of his discussion: I have no confidence in that sort of Christianity | which will not join hands with an honest Hebrew to relieve suffering and enlighten ignerance. I have no confidence in the kind of protestantism which refuses to take hold of one end of the litter in which a wounded man is lying because a Roman Catholic has hold of the other end. I have no confidence in that kind of Presbyterianism which lives in hostility and hatred toward christians having other creeds and forms of worship. This is the kind of preaching the world is crying for and we hope the day is not far distant when we will have more of it.

REAL PATRIOTISM.

BY MADISON BABCOCK, SAN FRANCISCO.

"A patriot is a man who goes to fight the Spaniards," said a boy in a night school. Yes; and there, alas, it ends with most of us. Children are fined up to salute the flag once a day and stories are read of our wars, and we think we re raising a race of patriots.

All proper lessons in patriotism should first create respect and love for father and mother, and brothers and sisters. This done, and we have a foundation on which to base a proper love of country. There is more of real value to the boys ord. of the country in dwelling with emphasis upon Washington's devotion to his mother than there is in the war history of all the generals we have had from Washington to Miles.

Let us pledge the children first to love and obedience at home, then to obedience at school, and these done the boys will respect and reverence the laws of their community, their state, and their nation. What utter bosh as a lesson in patriotism to salute the flag and piedge their allegiance to the country," when they don't know that a boy who scolus his mother is a coward and a traitor. Piedge allegiance to their country, when in school they are anarchists! Our less ons in patriotism need revision, and we should have a definition of patriot that, while it includes the men who fell at Concord and Bunker Hill, shall not leave out the mothers of the Revolution; a definition that, while it takes in Dewey and Roosevelt, and Sampson and Hobson, shall include every boy and girl, man and woman, who in peace or war is true to home and kindred, and obeys the laws be they of school, state, or nation. - Nebraska School Journal.

Senator J. R. Van Boskirk, of Alliance, has secured the appointment of register of the land office at Alliance, to succeed F.M. Dorrington and congratulations are in order, Mr. Boskirk is a business man and a republican whose loyalty is unquestioned, and we look upon his appointment as a reward for his work in the party. In saying good-by to Mr. Dorrington, we have always found him the most courteous and effecient official that has occupied that office during the time we have had business relations with it, and in welcoming the new official we part with the old with pleasant memories.-Rushville Recorder.

M. F. Harrington is being boosted by some of his over-ardent friends for the gubernatorial nomination on the popo democraticfusion ticket. Well well. Mike for governor, eh? If numinated and elected, which is practically beyond the pale of possibilities, what a glorious opportunity he will have to pardon all the criminals now serving term as the result of his spiels to the juries.-Crawford Gazette.

Not so Bro. Wingfield the big ones are all lable to be out before that time, and who cares for the small fellow.

The London Chronicle gleefully di-

on to the fact that at a recent session of the pan-American conference in the City of Mexico a Mexican delegate proposed the "Dies doctrine" as pendant to the Monroe doctrine.

The latter, as is well known, prohibits European nations from making territorial acquisitions in South America. The "Dias doctrine" goes many steps tarther and prohibits any state of the American hemisphere from acquiring any territory at the expense of any other American state.

The "Dias doctrine" is sound in principle and would be a fitting pendant to the doctrine of our own Monroe. Whather it will commend itself to our stateemen is a very different matter,-Ballimore Sun.

Expensive Chicken Petpie Eating \$50 worth of chicken potple at one meal is an extravagant way of living, especially for a resident of West Manayunk, where millionaires are scarce articles. A few years ago there lived at Pencoyd a young man who was just making his start in the world, but has since become one of the moneyed men of the country. In his early career he became very fond of game chickens and invested \$50 in a gamecock of the choicest fighting strain. He turned the cock loose with a lot of common hens, and in his idle hours enjoyed many battles with birds owned by neighbors. He came home from a business trip one day and enjoyed a chicken dinner prepared by his wife that he thought was the best meal he had eaten for many days. "Nice chicken," he remarked. replied the wife; "I got James to kill a couple of old roosters down at the He finished the meal, took a stroll out to the barn and found his pet had disappeared and that he had eaten a \$50 potpie.-Philadelphia Rec-

Selz "Kroo Calf" Skin is a special tannage, so named to define and express its tough, yet pliable qualities and its great powers of endurance.

"Kroo" is the original name of a powerful tribe of negroes on the Northwest Coast of Africa, commonly known as "Kroo Boys" They are renowned for their hardiness, suppleness and staying powers; and what the "KROO Bor" is among negroes, "KROO CALF" is among skins—tough, enduring, reliable.
