School started in Harrison Monday and pencils, tablets, and set were in great demand and I guess all papers were reminded of their loose change by the bright little faces that are to take up the work again for 9 months.

Mr. Clarence Raum has been engaged to teach the Bodarc school this winter. This is one of the largest schools in the county outside of Harrison, but we are sure Clarence is equal to the occasion and will teach them a good school.

Miss Katie and Gertie Bourret took the east bound train for Pierce, this state where they intend going to school this winter. We are glad to see our young people interested in their own education and we surely wish them success.

Miss Maggie Jordan went to Chadron Monday night to attend the Academy until her school begins in November. Miss Jordan is one of our progressive teachers who believes in knowing how to teach before trying to teach others. The educational work would be better for more such teachers.

A Communication.
MR. EDITOR.—Allow me to speak a few words in favor of Chamberlain's Cough Remedy. I suffered for three years with the bronchitis and could not sleep at nights. I tried several doctors and various patent medicines, but could get nothing to give me any relief until my wife got a bottle of this valuable medicine, which has completely relieved me.—W. S. BROCKMAN, Bagnell, Mo. This remedy is for sale by J. E. Phinney.

Mr. J. B. Parker, presented this office with a basket of fine apples last Wednesday. They were raised in Sioux county too, and were of a fine flavor, and quality.

Mr. Parker bought the place they were raised on from A. E. Gates near Fort Robinson, there is no question, but what parts of this county is well adapted for all kinds of fruit, and we predict that the time is not far distant when these favored with such places will go to raising their own fruit.

WATER CURE FOR CHRONIC CONSTIPATION.
Take two cups of hot water half an hour before each meal and just before going to bed, also a drink of water, hot or cold, about two hours after each meal. Take lots of out-door exercise—walk, ride, drive. Make a regular habit of this and in many cases chronic constipation may be cured without the use of any medicine. When a purgative is required take something mild and gentle like Chamberlain's Stomach and Liver Tablets. For sale by all Druggists.

A Certain Cure for Dysentery and Diarrhoea.
"Some years ago I was one of a party that intended making a long bicycle trip," says F. L. Taylor, of New Albany, Bradford county, Pa. "I was taken suddenly with diarrhoea, and was about to give up the trip, when editor Ward, of the Laceyville Messenger, suggested that I take a dose of Chamberlain's Colic, Cholera and Diarrhoea Remedy. I purchased a bottle and took two doses, one before starting and one on the route. I made the trip successfully and never felt any ill effect. Again last summer I was almost completely run down with an attack of dysentery. I bought a bottle of this same remedy and this time one dose cured me." Sold by J. E. Phinney.

The beautiful fairy story of Red Riding Hood will be illustrated and 12 other important views. The Concert is all O. K. and not to be confounded; Let everyone come.

BERT MARTIN.

The entertainment given by the Junior Leaguers last Friday night proved a success. The recitations, drills & etc. were very good, and too much praise can't be given to Miss Tupper and Miss Hellyer for the effort they put forth in drilling the children for this occasion, as sometimes fear the parents don't realize the labor and patience it takes to drill and prepare children for any thing like this so we should always remember to co-operate in any thing that tends to help our children for they receive the direct benefit and we the pleasure of enjoying it with them.

There are a great many inquiries about school teachers these days, and why they are so scarce. Well all we can say is the wages are so poor and the terms of school so short in most districts that other vocations offer better inducements even the matrimonial market. So all we can say is, school boards raise your wages and lengthen your terms of school! Wyoming pays forty and forty-five dollars for the same size schools that Sioux county pays thirty dollars for. Can you wonder at a scarcity of teachers in this county when there is such a difference in wages.

EVE IS DEFEATED

Editor Beck, of the Holton, (Kansas) Recorder has this to say for Eve:

"Was Eve more to blame than Adam? If we are to credit the average pulpit speaker she was. But was she? We think not. On the contrary, we think Adam the more culpable. Why did not the devil tackle Adam? Certainly it was not because he considered his armor invulnerable. His history from that day down to the present proves not only that he was weak in yielding to temptation, but inclined to meet the tempter at least half way. When the devil desires recruits from the race of Adam's sons, all he has to do is to set his trap and bait it with a dime or a glass of whiskey or a piece of calico and he has his man. Then why if man was such an easy proposition did he tackle the woman? Simply for the reason if he had tempted and captured a man he would have had the woman against him. She would have said to Adam, 'if you think more of Satan than you do of me you can go to the devil, you mean, old thing,' and there would have been trouble in the family at once and possibly divorce and alimony proceedings. But once having captured woman, Satan was a good enough judge of human nature to know that the man would follow the woman out of Paradise, down to the very portals of his satanic dominions.—Grand Island Daily Press.

The nights are so cool that each morning we rise with the expectation of seeing Jack Frost in the garden. But as yet he has not made his appearance in this locality.

We mean no disrespect to the wise when we say we are glad Ella has returned from her visit to Iowa. We shall look for Central City breezes often now after such a long rest.

We are glad for their sake that Mr. and Mrs. Rice have reached their journey's end some weeks ago, but we do miss their cheerful letters from the columns of the Press-Journal.

It may not be a miss even at this late date to speak of the address, illustrated by stereoscopic views, given by Rev. Currens Aug 23-24 which was both interesting and instructive. That it was appreciated was evident by the good attendance both evenings. Rev. Currens has many friends here who will be glad to have him come again, he will always find a warm welcome awaiting him.

THE EDUCATION OF BOYS.

A philosopher has said that true education for boys "is to teach them what they ought to know when they are men." What is it they ought to know, then?

First—to be true, to be genuine. No education is worth anything that does not include this. A man had better not know how to read, he had better never learn a letter in the alphabet and be true and genuine in action, in action, rather than being learned in all sciences and languages, to be at the same time false in heart and counterfeit in life. Above all things teach them that truth is more than riches, more than culture, more than earthly power or position.

Second—to be pure in thought, language, life—pure in mind and body. An impure man, young or old, poisoning the society where he lives with smutty stories, and impure examples, is a moral ulcer, who ought to be treated as the lepers of old, who were banished from society and compelled to cry, "Unclean" as a warning to save others from the pestilence.

Third—to be unselfish, to care for the feelings and comforts of others; to be polite, to be generous, noble and manly. This will include a genuine reverence for the aged and things sacred.

Fourth—to be self-reliant and self-helpful, even from early childhood; to be industrious always, and self-supporting at the earliest proper age; teach them that all honest work is honorable, and that an idle, useless life, dependent on others, is disgraced. When a boy has learned these four things, when he has made these ideas a part of his being, however young he may be, however poor, however rich, he has learned some of the most important things he ought to know when he becomes a man.—Thompson's Island Beacon.

In Wyoming.

Francis Deuel returned from his trip to Casper the last of last week.

James H. Christian and Oscar Boyles invaded our den on last Sunday afternoon. Come again boys.

Tom Dunn dipped one hundred and ten head of cows and calves which he bought of Bourret and sons on last Monday.

Quite a heavy frost visited the Ridge on last Sunday night. It did considerable damage to the corn fields and gardens.

Mr. Porter from near Hat Creek store has rented the Charles Thomas house in our settlement and will move his family there for the winter.

On Sunday Rev. Youngman preached his last sermon before going to Annual Conference. There was a large attendance at church so we hear.

Lo Wilson, just over the line in Nebr., has the best field of oats we have seen in the neighborhood, in fact it is the best we have ever seen in the west.

There will be a dance at the Woodman's Hall on Friday, September 12, J. H. Christian and Oscar Boyles managers. All are invited to attend as a good time is assured.

Prof. J. M. Stimson accompanied by Rev. Youngman came out to the Ridge on last Saturday afternoon and were the guests of Mr. and Mrs. Andrew Christian over night.

Andrew Christian shipped two cars of steers and one of dry cows to Omaha on last Monday. He and his son Leonard accompanied the stock through to Omaha. He expects to go across the river into Iowa and visit for a few days with friends near Greenfield.

CATCH PHRASES.

Their Utility in Advancing the Interests of Business Men.

There are many instances of where a suitable catch line well drilled into people has been of great value in building business. The best catch line is one that fits your business best, and the discoverer of such a line is apt to be due more to inspiration than to effort. Pick the distinctive feature of your stock or business methods and endeavor to express it in a breath.

If you can coin a phrase that expresses your central business idea or emphasizes some feature that marks your store alone, you can make good use of it. It puts into condensed form an idea that will get hold of people and influence them if persistently presented to them. One fact about your business well lodged in the heads of people is as good as a score that do not penetrate.

You can make people believe about what you like if you go about it properly. If a man comes to you today and tells you there will be a panic inside of six months, you will pay no attention to him. If another comes tomorrow with the same story, he will get no attention, but you will idly wonder what is getting into folks. The third man you will argue the matter with. The fourth will get more of a hearing, and you will begin to see signs of disaster yourself. By the time the tenth man has made the statement you will be ready to tell folks the same story yourself.

Probably you yourself could not be influenced in such a manner, but the common run of people are built that way and will believe what they are told often enough. That is why an expressive catch phrase does good. It comes to stand for you and your methods and of necessity is remembered when goods in your line are wanted.

As ordinarily used such a phrase is of little value, because it is not properly hammered into people. Such a line should go on letter heads, billheads, stationery, envelopes, should go into every ad. or circular, should be seen about the store and should appear on labels. Put it on a sticker to attach to goods and packages. Let people see it everywhere. If it means what it says, people are going to respond to it.—American Druggist.

An Optimistic Cripple.

A one legged newboy had been hopping about on his crutch selling afternoon "extras," and when there was a lull in the business, owing to a falling off in the crowds, he sat down for a brief rest.

"How did you lose your leg?" I asked.

"Cable car," he said, with the street urchin's characteristic economy of words.

"Too bad!" I remarked.

"Oh, but it might 'a' been worse, sir," the boy replied. "The company paid the doctor and gave mother \$500. That paid all our debts and left us \$500 in bank, and it's all there 'cept \$30 we had to take out when mother was sick, and I sell more papers than most of the boys, just 'cause I've a crutch. There's one of my customers now."—New York Times.
