A car of cattle was burned last Saturday night near the junction west of Chadron; They were from the north line. The charred remains were lying by the side of the track last Monday morning.

### COMING! COMING!

Charles C. Farmer, of Illinois, will give a free lecture on Woodcraft, under the auspices of the Woodmen of the World. All are invited.

Mr. Emory Zimmerman leaves today to attend the Theological Seminary at Omaha. He goes by the way of Guernsey; There must be some special attraction over that way, but we can't blame Emory.

We learn that Robert Neece has purchased the ranch and stock of Peter Allison. This ranch is better known as the lower 28, we congratulate Mr. Neece in having secured this ranch, and in connection with his former ranch makes Mr. Neece one of our largest ranchmen, and there is no one more worthy than he, for he has gained it all by his own energy and strictly attending to business.

Miss Amy Christian who has been at the M. E. Hospital since last June, came in on the west bound train last Wednesday, and we are glad to say she is very much improved and is again ready to enter the school-room as a teacher.

### Estray Notice.

Mass will be held in Harrison September 27th. After mass we will have a special meeting in regard to building a Catholic church in Harrison.

SARAH JORDAN, Trustee.

For a bad taste in the mouth take Chamberlain's Stomach and Liver Tablets. For sale by all Druggists.

A new swindle is being worked among the farmers of the state. The sharpers carry cases containing samples of high grade fence wire, and claiming to represent a firm in Indiana and offering wire fencing at a low price, the goods to be sent C. O. D. When the farmer buys the goods he is shown the model of a fine ornamental automatic gate, to be sent free with each order if the farmer pays a small sum in advance on the order for the wire fence. This generally catches the farmers for sums from \$5 up, and the agent is seen no more, also, the fence wire ordered by the farmer never comes. —Gordon Journal.

When visiting Omaha— See— A. Mandelberg, Leading Jeweler, 18th & Farnham St.

Fine Watches, Diamonds, Silverware, Opera Glasses, Umbrellas, Cut Glass, the largest Selection and up to date goods west of Chicago— All goods warranted as represented—

Dr. Seymour has sent us an interesting book of views taken in Nebraska and S. Dakota; "Snap shots" taken by the Dr. on his last trip through these states. The book is very nicely gotten up; shows the doctor to be quite an artist in the use of the kodak, and this little remembrance will no doubt be highly appreciated by his many friends and patients in this state, to all of whom a copy has been sent.

No less a man than John Wanamaker recently spoke as follows about newspapers: "A newspaper whose columns overflow with advertisements of business men has more influence in attracting attention to building up a town than any other agency. People go where there is business. Capital and labor go where there is an enterprising community. No power on earth is so strong to build up a town as well as a paper well patronized and its power should be appreciated. The man who overlooks his town paper injures himself by injuring his town and townsmen." —Fairfax Sun.

### A Communication.

Mr. Editor—Allow me to speak a few words in favor of Chamberlain's Cough Remedy. I suffered for three years with the bronchitis and could not sleep at nights. I tried several doctors and various patent medicines, but could get nothing to give me any relief until my wife got a bottle of this valuable medicine, which has completely relieved me. —W. S. BROCKMAN, Bagnell, Mo. This remedy is for sale by J. E. Phinney.

### A Certain Cure for Dysentery and Diarrhoea.

"Some years ago I was one of a party that intended making a long bicycle trip," says F. L. Taylor, of New Albany, Bradford county, Pa. "I was taken suddenly with diarrhoea, and was about to give up the trip, when editor Ward, of the Laceyville Messenger, suggested that I take a dose of Chamberlain's Colic, Cholera and Diarrhoea Remedy. I purchased a bottle and took two doses, one before starting and one on the route. I made the trip successfully and never felt any ill effect. Again last summer I was almost completely run down with an attack of dysentery. I bought a bottle of this same remedy and this time one dose cured me." Sold by J. E. Phinney.

While in Chadron last week I had the pleasure, in company with Supt. H. L. Fisher, of visiting the Academy and High School. The Academy under the principalship of Professor L. M. Oberkotter is doing good work and I was truly glad to meet so many of our young people from Sioux county attending this school. I can only speak in words of praise for the management of this institution and hope that it may continue to grow in the future as it has in the past few years. The High School under the superintendency of Prof. W. T. Poucher is doing good work and from the expression of satisfaction that I heard from the county Superintendent, members of the school board, and patrons, I can't help but predict a successful year for this school. I also had the pleasure of meeting Bro. Effler of the Journal and found him to be a very pleasant gentleman. Bro. Phipps of the Chadronian, a benevolent, acts very nice and having the pleasure of meeting his better half we don't think Bro. Lindeman need fear but what Bro. Phipps will do his part of the choring even to rocking the cradle if need be. Taking it all around I had a very enjoyable time and had the pleasure of viewing the beautiful homes and lawns of the hospitable citizens of Chadron, and one of the most beautiful homes we have seen in a good many years is that of our old friend and former citizen of this country, Hon. C. E. Coffee.

For SALE:—160 acres of land joining the village of Harrison; for further particulars inquire at this office. 40

The editor of the Standard is in receipt of Dr. Seymour's check, payment in full of account referred to in a recent issue. As the doctor feels that we have been unjust to him and not wishing to be unfair to anyone, we willingly comply with his request as we are advised that he has not been in Lincoln much of the time for the past year and it is possible that our bill went astray. Hence, we are perhaps in error in not refusing to enlarge the account until the old one was paid, as the doctor's business was evidently transacted through a third party and he knew nothing of his past indebtedness.—Rushville Standard, Aug 29

We are glad to say that Dr. Seymour has settled his account with us and not wishing to be unfair or unjust to the Dr. we were perhaps in error in condemning him, for his business is very large and doing business through other parties is so easy to make the mistake that we accused him of.

Last Sunday evening, about 2 miles east of town and south of the track, a fire caused by a stock train, broke out and burned over about a section of land before it was destroyed. It burned over part of E. Rohwer's land and also of J. C. Parsons'. The most of the men folks of Harrison went out to destroy it but some of them reached there too late.

A sad accident occurred 2 1/2 miles east of Glen Monday afternoon in which the two year old child of Nylholm Peterson was killed. As a stock extra rounded a curve the engineer was a mazed to see a child on the track a short distance ahead. He reversed his engine and applied the air brakes but struck the child before he could stop the train. The mother had gone to a neighbors, and the little fellow started to follow, and got on the track. Coroner P. Lacy went down and empaneled a jury, and they, after examining a few witnesses exonerated the R. R. Co. from any blame. This should be a warning to parents not to allow their children near the railroad tracks or station grounds unless they are with them, and even then it is a safer plan to have them at home. Station agents have their various duties to perform and it is unreasonable to think that he can look after children, and keep them out of danger. This caution will apply to children of more mature years than the child that was killed. A great many times boys 14 to 20 years old are seen to jump on and off the trains while in motion. One not accustomed to boarding or alighting from a moving train is liable to fall and receive injuries that might prove fatal and no matter where the Co's employees may be engaged in performance of their duties, the first thing one hears is "why don't the agent keep them away from danger?" It would be well for parents to use proper means to control their children rather than to impose the responsibility upon some one else.

### A WONDERFUL CONVENTION.

Annual Meeting of the Disciples of Christ at Omaha Will be a Record Breaker.

For the first time in the history of the United States every railroad has made a one-fare rate to a religious convention. The convention in question is the annual international convention of the Disciples of Christ, which meets in Omaha, Nebr., October 15—23, 1902. One fare for the round trip from every railroad station in the United States has been offered. Parties interested should consult the nearest railroad agent.

It is expected that upwards of 30,000 visitors will be in Omaha during the convention. Even lower than one fare may be secured from points within 200 or 300 miles if large parties are organized and excursion trains run. Try it from your locality.

The convention will be held in the Coliseum, which has been redecorated and refurbished for the occasion. The Coliseum will seat comfortably 14,000 people. Restaurants will be conducted within the building. Rooms may be secured by addressing the chairman of the entertainment committee, care Millard Hotel.

The Coliseum was erected for Patti to sing in and 22,500 people heard her. The first national convention of the people's party was held under its roof. William McKinley spoke to 20,000 people within its walls. The great Bryan-Thurston debate was held there, and 25,000 people crowded in. Its acoustic properties are unexcelled. It is an ideal convention hall and three lines of street cars are within three blocks of it.

The Disciples of Christ in the United States number 1,300,000. They have 6,500 pastors, 10,000 church organizations, 9,000 church buildings, hundreds of schools and colleges and numerous missionary stations in foreign fields. For particulars of convention address C. S. Paine Omaha, Nebr.

## In Wyoming.

Andrew Christian returned home from his visit near Greenfield, Iowa on last Thursday. He spent several days visiting with old time friends and neighbors and no doubt had an enjoyable time.

Francis Deuel is now working for Chris Christian and may stay with him all winter.

Mr. Church Sr., and son Hial, have each purchased a new carriage. Who says prosperity hasn't struck our settlement?

We may digress a little at times and give some news from Stringtown, across the line in Nebraska; if we do our neighbors across the way need take no offense but consider the source.

Dan Slattery, from Stringtown, was taken very sick on Tuesday night of last week while at the home of ye scribe, and was hardly able to be up the next day. He was cutting grain for us when he was taken sick.

Leslie Crane who has been working for Mr. Reed, near Harrison, for the past month, is at home now fixing up for the winter.

Mr. Garretson is building a large house on his claim at the S. E. end of the highest point in Nebraska. He may well say that he is above all the rest of the Bug-eaters.

Joe Dunn is building a good house on his claim, at the foot of Mt. Connemara. He will move up from Squaw creek point in the Antelope state.

Tom Dunn expects to have a well put down on his claim near Mt. Connemara in a short time.

Yes, we had that cold snap at last. On last Thursday night ice formed a quarter of an inch in thickness on the water in tanks. On Friday morning the thermometer marked 22 degrees quite a while after sunrise. One man reported in 10 degrees at daylight. Every green thing was killed except Zekiel; he was badly frost bitten as it was. Another freeze on Friday night.

Up to the 13th there were a few fields of oats still standing. The freeze did not injure them much as they were beginning to ripen.

Mrs. Seaman and Mrs. Jas. Dunn called at the home of ye scribe and family on Tuesday of last week; We are always glad to have visitors, and especially ladies.

Mrs. Murphy was helping Mrs. Newlin do up her fall sewing last week.

We hear that Mr. Zumbrunnen was quite sick for a while last week and Mrs. Zumbrunnen had to carry the mail.

John Deuel called at our office to have some shoe repairing done one day last week. Call again John we can do that better than write items.

Mr. and Mrs. Andrew Christian went to Chadron on last Saturday evening's train to attend the M. E. Conference; or at least to visit friends and hear the sermons on Sunday. They came home on Monday's train.

At the primaries held on last Saturday Andrew Christian was elected as delegate from Kirtley precinct, to the county Convention held in Douglas the 19th.

### WATER CURE FOR CHRONIC CONSTIPATION.

Take two cups of hot water half an hour before each meal and just before going to bed, also a drink of water, hot or cold, about two hours after each meal. Take lots of out-door exercise—walk, ride, drive. Make a regular habit of this and in many cases chronic constipation may be cured without the use of any medicine. When a purgative is required take something mild and gentle like Chamberlain's Stomach and Liver Tablets. For sale by all Druggists.

South Omaha, Nebr., Sept. 17, 1902.

Blackleg is a germ disease, which enters the system generally in food or water, but sometimes through sores or scratches. Its presence in one animal has resulted in the death of an entire herd. It is most pernicious in fat, healthy cattle, thereby visiting unusually severe losses upon the owners. Dr. Rea's Blackleg Vaccine is made in New York. It is put up in pill form, and is sent by mail in different quantities. This method of supplying cattle owners guarantees absolute purity and undiminished excellence. For a short time only Dr. Rea will give to every purchaser of 10 doses or more of his Blackleg Vaccine, a handsome and plated injector which sells for one dollar. Every cattle owner owes it to himself to take care of his cattle, and to prevent the possibility of loss by vaccinating them once. Dr. Rea will send his three-page treatise on Blackleg free to any address. Send for it. His address is Dr. Chas. L. Rea, 230 East 2nd street, New York City.
