In Wyoming.

The Press-JOURNAL failed to reach us on last Saturday's mail; likewise our other papers due on that mail.

Rev. Horton delivered his first sermon in Wyoming on last Sunday.

Miss Amy Christian began a five Mths. school in the West school house on last Monday. This is her second term in that school.

George Shatto of Oregon is visiting his brothers Hall and Howard.

Miss Florence Christian will finish a six months school in the Larson district next Friday, and will begin a five months term to her home school the following Monday.

George Davis was home from gathering up his cattle on the Cheyenne river and Lance creek a few days last week, but started out again on last Monday. Dan Shattery went with him.

Not only sister M. A. C., it is not the white plum at all; it is that the space in the PRESS-JOURNAL is more valuable than potatoes; however if the editor doesn't object trot out your later story, we're willing!

What's that sister (ho? We've got taters too that half a bushel of them weighs 30 lbs. No, we'll not feed them all to the children, we'll sell a few.

Hark! from the tombs a doleful sound, it comes this time from Quill, of the Lusk Herald. Come Mr. Quill or Mrs. Quill, or perhaps quill, show your colors so we'll know who you are. We are just like a load when it thaws out, ready to hop onto any body. However we are glad to know that our items are appreciated even by neighbor Quill. We like to read your scratchings in the Herald.

So Jimmy Wilson has so many potatoes that he had to dig a larger cave. Well, we've got a Wilson that can beat [that].

Lo Wilson had 20 acres of the Red Texas oats that threshed out over one thousand bushels and weighs 40 lbs to the bushel. Although he has a large granary he had to sack 500 bushels and rick it up in the field. Altogether he had over 2000 bushels of oats.

C. L. Christian arrived home from Omaha on last Saturday.

Again there are two threshing machines in our little settlement. Witt and Weber are to pull across the line this week, so we hear, and do one job. As only one machine can run at a time on account of the scarcity of men, the other stands idle. Freese threshes a job then waits for the other outfit to thresh a job then starts again and they wait. See?

ZEKIEL

A Typical South African Store. O. R. Larson, of Bay Villa, Sundays River, Cape Colony, conducts a store typical of South Africa, at which can be purchased anything from the proverbial "needle to an anchor." This store is situated in a valley nine miles from the nearest railway station and about twenty five miles from the nearest town. Mr. Larson says: "I am favored with the custom of farmers within a radius of thirty miles, to many of whom I have supplied Chamberlain's remedies; all testify to their value in a household where a doctor's advice is almost out of the question. Within one mile of my store the population is perhaps sixty. Of these, within the past twelve months, no less than fourteen have been absolutely cured by Chamberlain's Cough Remedy. This must surely be a record." For sale by all Druggists.

We will again have to apologize to our readers for the tardiness of our paper last week. We were a little late on account of the delinquent tax list, and then our ready prints did not arrive until Saturday noon hence the delay, but we hope this won't occur again, for we have ordered our papers shipped by express from this time forth. It looks as if the rail-road company is trying to rail-road us out of the business, but we are here to stay and will try and be on time from this date.
