W. H. DAVIS, Clerk.

It was a Missouri man who went to Washington, D. C., to sell horses and reports his luck as follows: "The people travel there on cars run by cable or electricity and do not need draft or roadsters; they ride on bicycles and automobiles and don't need fast trotters; they gamble by wire and don't need race horses, and the government is run entirely by jackasses so there you are."—Ex.

A. J. Snell wanted to attend a party, but was afraid to do so on account of pains in his stomach, which he feared would grow worse. He says, "I was telling my troubles to a lady friend, who said: 'Chamberlain's Colic, Cholera and Diarrhoea Remedy will put you in condition for the party.' I bought a bottle and the pleasure in stating that two doses cured me and enabled me to have a good time at the party." Mr. Snell is a resident of Summit Hill, N. Y. This remedy is for sale by all Druggists.

### A Good Investment.

The development work is about completed, and showing solaris excellent. Will be pleased to see any of my friends and explain our proposition to them for a profitable investment.

### E. E. POSTIS, Secy.

A Missouri paper tells of a man named Jones, a newcomer, having deposited 100 dollars in the pastor's salary box one Sunday recently. The preacher asked why he had been so generous and he said that he had just engaged in business in the town and he wanted to help along the cause. Then the preacher announced that he would surely patronize Mr. Jones and asked all the congregation who would do likewise to stand up. Then the whole congregation arose and the preacher asked Mr. Jones what his business was and he replied: "I am a saloon keeper."—Shiridan Enterprise.

### Are Men Losing Respect for the Ladies of Our Land?

This is a question that has come before the writer time and again, and our trip to Crawford last week impressed more vividly upon our mind that such must be the case. When the train arrived at Ft. Robinson a large number of colored soldiers boarded the train, and so far as respect for the ladies that were in the coach was concerned there was none. The smell of tobacco and loud boisterous talking was carried on until the train reached Crawford, and no doubt the ladies that did not get off there were as thankful as the ones that did. On our return the train was late, therefore causing the passengers to wait in the depot, and it surely was a very unpleasant place for ladies to have to stay with a mixture of whites and negroes, and it seemed that every smoker was trying to outsmoke the other, and there seemed to be no one that had the authority to stop them, or didn't if he had, but it does seem to us that more respect should be shown to the mothers of our country than what is. We will admit there are a great many ladies that don't object to tobacco smoke at times, but in crowded waiting rooms where the atmosphere is not the purest we consider it a shame and a disgrace for the ones that do have the authority to stop it and don't. We do believe that if woman can't have all the rights of a man she should have the right to say whether her nose shall be used as a chimney for the tobacco smokers throughout the land or not.

Mr. Sturdivant says she was taken sick very suddenly, but lingered for nearly four weeks before death claimed her. The funeral services were conducted by Rev. Kelly of the M. ## TROUBLESOME TOMMY'S CORNER.

Tommy's Pa. Tries to Answer Some of the Posers Tommy Puts to Him.

Tommy—Say, pa?

Pa—Well, what is it this time, my son?

Tommy—Say, pa, would Italy have a right to send an army over here if she didn't like the way we treated Italians in this country?

Pa—No, my son, certainly not. I should think a boy of your age would know that.

Tommy—Not if Italians were lynched as they have been several times, and the Yankees want unpunished?

Pa—Certainly not, Tommy. If for years don't like it in this country they shouldn't come here.

Tommy—Say, pa, have we a right to send our people to China if the Chinese don't want them there?

Pa—Of course Tommy, because our object is to civilize them and introduce modern ideas.

Tommy—Why do the Boxers oppose the coming of foreigners to China?

Pa—They are a deluded set, Tommy. They know nothing about the civilized world, and don't believe in improvements.

Tommy—Isn't it true that Chinese invented printing and the compass and gunpowder and paper, and didn't they have the Golden Rule ages before we did?

Pa—Suppose they did have the Golden Rule, Tommy; they never put it to any practical use.

Tommy—But how about us Pa; do we follow the Golden Rule when we keep Chinese out of this country, and then urge China to let our people go there?

Pa—Thomas you are getting too smart. When you get a little older you will learn that circumstances alter cases.

Tommy—Say, Pa, is a good Chinaman any worse than a bad Italian or a bad Hungarian or even a bad American?

Pa—That's not the point, my son. They work to creep.

Tommy—Do you mean that they do more for our country than the Italian or the Hungarian or the American?

Pa—Yes, that's it. They don't charge enough for what they do.

Tommy—Say, Pa, don't we get the best of the bargain if we pay them less than they are worth?

Pa—That's not it, Tommy. They don't live up to our standards. They don't spend their money, but save it.

Tommy—They don't buy whiskey or tobacco, do they, Pa, or patent leather shoes?

Pa—That's it, Tommy; they are not desirable citizens.

Tommy—Say, Pa, if the boys in China threw stones at an American what would we do?

Pa—Our government would land some soldiers and collect an indemnity.

Tommy—But say, Pa, down South didn't some of our people pull the Chinese minister's queue; and in Pennsylvania didn't the soldiers throw stones at him through the ear window; and at Atlantic City didn't some roughs give him a ducking?

Pa—Yes I believe so; but he is a heathen and he deserved it.

Tommy—Did he complain of these outrages to his government?

Pa—No, Tommy, he knew it would do no good.

Tommy—Say, pa, didn't he say to forgive those injuries and that he realized that the country as a whole was not responsible for them?

Pa—He may have said something of the kind.

Tommy—Then, Pa, didn't he act more according to the Golden Rule than we do toward his people?

Pa—See here, Thomas; since you've been studying current events in school you've been getting the wrong idea. When a boy pretends to know more than his father, something is wrong. Come with me into the woods, and we'll see who has the best of the argument.
